

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION: Avoid contact with eyes. In case of contact immediately flush eyes with fresh water for 15 minutes. Get medical attention if eye irritation persists. Keep children and pets away from treated area until spray has thoroughly dried. Avoid contamination of food. Wash clothing before reuse.

ENVIRONMENTAL HAZARDS

Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste.

DIRECTION FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SECURITY Blot-Out 2 Ready-To-Use Weed & Grass Killer gives complete kill of tough annual and perennial grasses and broadleaf weeds in flower beds, around trees and shrubs, in lawns, driveways and mulch areas. It is designed for spot application to individual weeds. The weed killer moves systemically through all parts of the plant. Visible effects occur within 1 week on most weeds with complete kill in 2 to 4 weeks. Best results are obtained when applied to actively growing weeds during warm, sunny weather.

HOW TO USE: Apply with hand trigger sprayer. Sprayer nozzle should be adjusted to allow a coarse spray for applying to cover area occupied by unwanted weeds to grasses. Hold sprayer close to weed (1 to 2 feet) and spray nozzle aimed at weed and away from face. Spray to cover center of weed. Do

not overspray. One application will control most weeds listed. If certain tough weeds, i.e. Bermudagrass, Canada thistle or field bindweed, are not completely controlled within 4 weeks, repeat application. This product is a nonselective weed killer and will kill all vegetation contacted. Treated areas in lawns can be reseeded 7 days after application.

IMPORTANT: SECURITY Blot-Out 2 Ready-To-Use Weed & Grass killer will kill most green vegetation. Be careful when treating weeds not to spray or allow spray drift to reach surrounding desirable grasses or nearby plants as they will also be killed. Do not apply when rainfall is expected within 24 hours of application as weed control will be reduced. If spray accidentally contacts desirable foliage, wash off immediately with water.

TO REFILL: Add 6 oz. of SECURITY Blot-Out Systemic Weed & Grass Killer (5%) to the empty container and add 24 oz. of water to make a 1% spray solution. Use according to above directions.

STORAGE AND DISPOSAL

Avoid contamination of feed and food. When empty container is discarded, wrap container and put in trash collection. Keep from freezing.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions. 284060
