SECURITY BRAND EZE(R) ORNAMENTAL & FRUIT

WUED PIEVENTER

Controls Weeds and Grasses in Roses, Ornamentals and 16 Fruit and Nut Crops CONTAINS CASORON (R)

ACTIVE INGREDIENT:

Dichlobenil* ------ 98.0%

INDRT INGREDIENTS:

*2,6-dichlorobenzonitrile, U. S. Patent 3,027,248.

TOTAL 100.0% EPA Est. 769-GA-1

EPA Reg. No. 769-536 CASORON is a Reg. T'I of Duphar, B.V., Amsterdam, Holland.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Induce vomiting by drinking water and touching back of throat with finger. IF INHALED: Remove to fresh air. IF IN EYES: Rinse with water for 15 minutes. IF ON SKIN: Wash with soap and water.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION. HARMFUL IF SWALLOWED. Do not breathe dust. Do not allow contact with eyes or skin. Do not allow livestock to graze in treated areas.

ENVIRONMENTAL HAZARDS

Do not apply directly to any body of water. Do not contaminate water by cleaning of equipment or disposal of waste.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DO NOT USE IN VEGETABLE GARDENS

IMPORTANT: PRECAUTIONS FOR USE. Do not apply this product to plants under unusual stress resulting from drought, frost, insects, nematodes, etc. as injury may result. Do not use on sloping areas as run-off may result in injury to lawn or other plants in adjacent areas. Do not use on plants not listed on this label. Do not apply to transplant or cutting beds or to newly set transplants and do not seed or transplant into treated areas. Do not use on plants, any part of which is used for human or animal consumption except as listed on this label. Do not use on extremely light soils. Once treatment is made, do not disturb the soil in treated area as long as weed control is being maintained.

WEEDS CONTROLLED

.When applied as directed, this product will give selective control of annual grassy and broadleaved weeds and certain perennial weeds including:

Alligator Weed

Annual Bluegrass (poa annua)

Bluegrass **Bull Thistle**

Camphorweed Carpe tweed

Chickweed Citron Melon

Clovers Coffeeweed

Crabgrass Cudweed Dandelion Dogfenne1

Yellow Woodsorrel

WOODY ORNAMENTALS

Apply this product only to established woody plants - those which have been planted for at least four months. Security EZE Ornamental & Fruit Weed Preventer may be used for weed control on the following ornamental plants:

| Amur Corktree | Dogwood | Ivy (Hedera Helix) | Pe can |
|------------------|-------------------|--------------------|---------------|
| Arboe Vitae | Eastern Red Cedar | Juniper | Photinia |
| Ash | E1m | Kinnikinnick | Pine |
| Azalea(1) | Elwood Cypress | Laurel | Pittosproim |
| Barberry | English Walnut | Leucothoe | Poplar |
| Beauty Bush | Euonymous | Lilac | Privet |
| Birch | Filbert | Linden | Pyracantha |
| Boxelder | Flowering Almond | Locust | Rhododendron |
| Boxwood | Flowering Quince | Magnolia | Rockrose |
| Camellia | Forsythia | Maple | Rose |
| Caragana | Gardenia | Mock Orange | Russian Olive |
| Cleyera Japonica | Goldenraintree | Mountain Ash | Spirea |
| Cotoneaster | Hackberry | Nandina | Sqaw-carpet |
| Cottonwood | Heather | Oak | Weigela |
| Crabapple | Holly (2) | Osmanthus (Holly- | Willow |
| Dentzia | Honeysuck le | Olive) | Yew (Toxus) |
| | | | |

Pachistima (1) Krume, Mollis, Hardy Hybrid types and hardy native species only.

(2) Except I. Crenata, I. Rotunda, I. Vomitoria

BEFORE APPLICATION TO ORNAMENTALS: Remove existing weeds. Thoroughly work up and smooth the area to be treated. Carefully measure area to be treated to determine the number of square feet. If the area is large, it should be divided into smaller sections and each section treated individually.

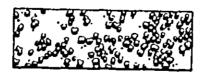

APPLICATION AND RATE: Apply SECURITY EZE Ornamental & Fruit Weed Preventer uniformly to the soil at the rate of 3/4 to 1 ounce (2 to 2-2/3 tablespoons) for each 10 square feet to be treated. This is equivalent to 22 to 33 ounces per 300 square feet. Use the HIGHER RATE to control perennial and hard-to-control weeds. For circular areas around individual shrubs or trees, apply the amount indicated in the following table:

| DIAMETER OF CIRCLE | RATE OF PRODUCT |
|--------------------|---------------------------|
| 2 feet | 2 - 3 level teaspoons |
| 3 feet | 4 - 6 level teaspoons |
| 4 feet | 2-1/2 - 3-2/3 tablespoons |
| 5 feet | 4 - 6 level tablespoons |
| 6 feet | 5-2/3 - 8-1/2 tablespoons |

Each ounce of SECURITY EZE Ornamental & Fruit Weed Preventer equals 8 level teaspoons. 3 teaspoons = 1 tablespoon.

Rates higher than those indicated may cause injury. More accurate and uniform application can be obtained by applying 1/2 of the required amount of material over the entire area and repeating the application with the remaining material.

As a guide for the proper application rate (lower rate) and uniformity of distribution of the granules, consult the diagram below.

AFTER APPLICATION: Unless the soil is wet, sprinkle lightly to moisten the soil. I/4 to 1/2 inch deep. Do not flood, avoid puddling and washing. Avoid disturbing soil in the treated area as long as weed control is being maintained.

FRUIT AND NUT CROPS

To control the weeds listed above, apply this product to the crops listed in EARLY SPRING before weeds germinate or after cultivation has removed the growing weeds. Distribute granules uniformly over the soil surface. This product works best in cool weather. For SOUTHERN AREAS, best results are obtained by mixing the granules with the upper inch of soil immediately after application. In other areas, shallow incorporation or sprinkling with water is suggested when applications are made during periods of high temperatures.

ALMOND, APPLE, BIJEBERRY, CHERRY, GRAPE, MANGO, NECTARINE, PEACH, PEAR, PRUNE, PLUM, FILBERT, PECAN and ENGLISH WALNUT: This product may be used on bearing, non-bearing and nursery stock. Do not apply within 4 weeks after transplanting (6 months on pecan transplants). Do not apply within one month of harvest of nuts or stone fruit. Apply 4-1/2 to 7 lbs. per 1000 square feet. For hard-to-control and perennial weeds, use the higher rate. For treating circular areas around individual fruit trees, follow the chart and rates provided in the DRNAMENTALS section.

BLACGBERRY and RASPBERRY: Use only on established plantings. Do not apply during new shoot emergence. Use 4-1/2 lbs. per 1000 square feet.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Do not store with propagative materials such as seeds, bulbs, tubers, nursery stock, etc. or with feed or food products. Keep container tightly closed while in storage. Do not reuse empty container. Wrap container and place in trash collection.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
