DEC 23 1992

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance: **Until Reregistration**

Name of Pesticide Product:
SureCo Indoor Pest Control

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
**SureCo, Inc.
P.O. Box 921879
Norcross, Georgia 30092-1879**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 769-576."
 - b. In the Directions for Use/To Kill Brown Dog Ticks and Fleas, in the first sentence, delete "such as" and substitute "including."
 - c. In the Directions for Use/Flies and Mosquitoes, in the third sentence, delete "such as under eaves" and substitute "including areas under eaves."

Signature of Approving Official:
DENNIS H. EDWARDS

Date:
DEC 23 1992

page 2
EPA Reg. No. 769-576

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,
DENNIS H. EDWARDS

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a
manner inconsistent with its labeling.

General: Use spray as a spot treatment to control cockroaches,
water bugs, silverfish, ticks, fleas and other insects listed
below. Apply this product as a coarse spray to localized areas
where pests are found or may occur. Spray surfaces until wet.
Repeat as needed.

To Kill Cockroaches, Ants, Crickets, Silverfish, Spiders and Sowbugs: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do not spray pets with this product. Treat pets with a registered Flea and Tick Control product before allowing them to enter treated areas.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces, window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) on porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surface will be killed. Repeat treatment when necessary.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area away from heat or open flame. Protect from freezing.

Disposal: Do not re-use container. Wrap and put in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Human: May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. Do not allow children to contact treated surface until spray has dried. Wash thoroughly with soap and water after handling.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food.

Animal: Remove pets, birds and cover fish aquariums before spraying. Do not allow pets to contact treated surface until spray has dried.

50f5

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes or ponds, streams, tidal marshes and estuaries. Do not apply where runoff is likely to occur.

PHYSICAL HAZARDS

Do not use or store near heat or open flame.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

If In Eyes: Flush with plenty of water. Call a physician if irritation persists.

If On Skin: In case of contact, remove contaminated clothing and immediately wash skin with plenty of soap and water. Thoroughly launder clothing before wearing again.

Note To Physician: Chlorpyrifos is a Cholinesterase inhibitor. Treat symptomatically. Atropine, by injection, is antidote of choice.
