### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a  
manner inconsistent with its labeling.

**IN YARDS:** To control insects as listed on front panel, apply  
1 pint (16 oz) of spray concentrate in 78 gallons of water as a  
coarse, low pressure spray to cover 2600 sq. ft. or 1½ oz. of spray  
concentrate in 6 gallons of water covers 200 sq. ft. Spray may be  
applied with a garden hose sprayer. Repeat as necessary. Thoroughly  
water immediately after treatment to wash the insecticide into the  
treated area. For best results, the lawn should be moist at time of  
treatment. (See note below).

**IN KENNELS AND DOG HOUSES:** To control fleas and ticks, apply 10½ fl. oz. of spray concentrate in 1 gallon of water to resting areas, walls and floors. Old bedding of pet should be removed and replaced with clean, fresh bedding after treatment. (See note below)

**NOTE:** Remove pets before spraying. Do not treat pets with this product. Keep children and pets out of treated areas until spray has dried.

**IMPORTED FIRE ANT MOUNDS:** Mix 4 Tablespoonfuls (2 oz.) per gallon of water to each individual mound, using a sprinkler can. Thoroughly wet mound and treat a 4 foot diameter circle around the mound. For best results, apply in cool weather or in early morning or late afternoon. Treat new mounds as they appear.

**STORAGE AND DISPOSAL**

**Storage:** Store in a cool, dry area away from heat or open flame.

**Disposal:** Do not re-use container. Wrap and discard in trash.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**WARNING**

May be fatal if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes or clothing. Do not smoke while using. Wash thoroughly after handling. Wash contaminated clothing before reuse. In case of contact, immediately flush exposed eyes or skin with plenty of water. Get medical attention if irritation persists. Avoid breathing spray mist or vapors. Keep children and pets off treated areas until spray has dried.

**ENVIRONMENTAL HAZARDS**

This product is toxic to birds, fish, and aquatic invertebrates. Birds feeding in treated areas may be killed. Clean up spilled product to reduce exposure to wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use or store near heat or open flame.

**STATEMENT OF PRACTICAL TREATMENT**

**If Swallowed:** Do not induce vomiting. Call physician or poison control center immediately. Do not give anything by mouth to an unconscious person.

**If In Eyes:** Flush eyes with plenty of water. Get medical attention if irritation persists.

**If On Skin:** Wash with soap and water. Remove contaminated clothing.

**Note To Physician:** Active ingredient is a Cholinesterase inhibitor. Treat symptomatically. Atropine, by injection, is antidotal.

**FOR USE WITH HOSE-END SPRAYER CAP**

The hose-end sprayer cap is calibrated to deliver the correct dilution rate.

**NO MIXING - NO MEASURING - NO MESS.**

Screw hose into back of sprayer cap. Remove bottle cap (save for storage after use). Secure sprayer cap by turning bottle counter-clockwise. Turn on water supply.

**TO START FLOW OF INSECTICIDE:** Place index finger over hole on right side of sprayer cap -or- use the water on/off valve on the back of the sprayer cap. Spray evenly and completely over infested areas. Hold about three feet above surface, moving at a steady pace to ensure consistent, thorough coverage.

**TO STOP FLOW OF INSECTICIDE:** When treatment is completed or you wish to stop the flow for any reason--simply remove finger from hole to break siphon action -or- turn the sprayer cap water valve off.

**TO STORE REMAINING INSECTICIDE:** Turn off water supply and remove bottle from sprayer unit and hose by turning bottle clockwise. Replace cap on bottle and tighten securely. Unscrew hose from sprayer unit and rinse unit in clear water. Store in a cool place.

**Buyer assumes all risks of use, storage or handling of this product not in strict accordance with this label.**
