Stacy Schmidt  
SureCo, Inc.  
P.O. Box 938  
Fort Valley, GA 31030

Dear Ms. Schmidt:

Subject: Response to Dipropyl Isocinchomeronate DCI  
SureCo Flea & Tick Spray #2  
EPA Registration Number 769-581  
Submission Dated August 3, 1994

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below:

1. Add the phrase "Not for human consumption" after the word horses on the front panel of the label. Ensure that this phrase pertains to both horses and foals.
2. Move the statement "Do not use this product in or on electrical equipment due to the possibility of shock hazard." to the Physical or Chemical Hazards Statement.
3. Include the following statement in the Physical or Chemical Hazards statement:

"Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting."

A stamped copy of the label is enclosed for your records. Submit three copies of revised final printed labeling prior to releasing product for shipment.

If you have any questions or comments, please contact me at  
(703) 305-6788.

Sincerely,

RPK

Fungicide,  
and Rodenticide Act,  
as amended,  
registered under

769-581

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Use only in well ventilated areas.

### HOLD BOTTLE IN UPRIGHT POSITION WHEN SPRAYING

#### CATS and DOGS

Cover animal's eyes with hands and with a firm stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips rub into face around mouth, nose, and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long-haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

#### PUPPIES and KITTENS

Treat same as cats and dogs except nursing puppies and kittens. Spray only along back or on your fingertips and rub in with your fingertips.

#### PETS SLEEPING QUARTERS

Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats or flies are present, spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the area beneath the bedding is sprayed too. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with a registered Flea and Tick Control product before allowing them to enter treated area.

#### HORSES (Not for Human Consumption)

To control stable flies, horse flies and face flies, apply to face, legs, flanks, top line and other body areas commonly attacked by these flies. Repeat treatment as needed.

Do not use this product in or on electrical equipment due to the possibility of shock hazard

#### STORAGE AND DISPOSAL

**Storage:** Do not use or store near heat or open flame.

**Disposal:** Do not use empty container. Wrap container and put in trash collection.

**PRECAUTIONARY STATEMENT**  
**Hazards to Humans and Domestic Animals**  
**CAUTION**

**HUMAN:** Harmful if swallowed or inhaled. Avoid breathing mist. Avoid contamination of food. Wash hands with soap and water after using.

**ANIMAL:** Avoid treatment of nursing kittens and puppies. If treatment is necessary, spray on tips of fingers and rub into coat.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur.

**PHYSICAL OR CHEMICAL HAZARDS:** Flammable. Keep away from heat and open flame.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with this label.
