Tampa, FL 33618

OCT 22 1997

Dear Ms. Schmitt:

Subject: Label Amendments in Response to Basic Suppliers Deletion of Certain DDVP Uses
SMCP M/V Fog Solution
Reg. No. 769-644
Your Submission Dated June 15, 1995

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling:

1. Revise the front panel of the label to read as follows:

For Sale to, Use and Storage by Licensed Pest Control Operators Only. For Outdoor Use Only to Control Adult Mosquitoes in Residential and Recreational Areas.

2. Under Directions for Use add the following: "Do not treat more than five application sites per day and do not make DDVP applications more than one per week. Do not apply to rangelands."

3. The ingredient statement should declare the active ingredient as follows:
"Dichlorvos [2,2-dichlorovinyl dimethyl phosphate]....."

4. Change the signal word CAUTION to WARNING under precautionary statements.

5. Add the following personal protective equipment under precautionary statements:

Under Precautionary Statements replace the protective clothing statement and respirator statement with the following:

Personal Protective Equipment (PPE)

Some materials that are chemical resistant to this product are listed below. If you want more options follow the instructions of category "C" on an EPA chemical resistance category selection chart in the Worker Protection Standard.

Applicators and other Handlers Must Wear:

- Coveralls over long-sleeved shirt and long pants.
- Chemical-resistant gloves such as Barrier Laminate, Butyl Rubber, Nitrile Rubber, Neoprene Rubber, Polyvinyl Chloride or Viton
- Chemical-resistant footwear plus socks
- Protective eyewear
- Chemical resistant headgear for overhead exposure
- Chemical resistant apron required for mixing/loading and cleaning equipment

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this products concentrate. Do not reuse them. Follow manufacture's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Submit two copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca
Product Manager (13)

Registration Division (7505C)

SMCP M/V FOG SOLUTION

TO BE USED BY PROFESSIONAL PEST CONTROL OPERATORS ONLY
FOR AGRICULTURAL/COMMERCIAL USE ONLY
NOT FOR SALE FOR ANY OTHER USES

3-9-5

Active Ingredients:	
2,2-Dichlorovinyl Dimethyl Phosphate*	.92%
Related Compounds	.08%
Malathion (O,O-Dimethyl dithiophosphate of diethyl mercaptosuccinate	1.50%
Inert Ingredients:	97.50%
Total:	100.00%

*Equivalent to 1.0% DDVP Insecticide

KEEP OUT OF REACH OF CHILDREN
WARNING

See Side Panel For Additional Precautionary Statements

EPA Reg. No. 769-644

EPA Est. No. 769-GA-1

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately.

If Inhaled: Remove victim to fresh air and apply respiration if indicated.

If On Skin: Wash promptly with soap and water. Rinse thoroughly.

If In Eyes: Rinse eyes with plenty of water for at least 15 minutes and call a physician immediately.

NOTE TO PHYSICIAN: Atropine is antidotal. 2-PAM is also antidotal and may be administered in conjunction with Atropine.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

May be fatal if swallowed, inhaled or absorbed through the skin. Do not breathe spray mist. Do not get in eyes or on skin. Wash hands, arms and face with soap and water after handling and before eating or smoking. Do not contaminate feed and foodstuffs. Keep all unprotected persons out of the operating area or vicinity where there may be danger of drift. Keep out of reach of children as oil base insecticides are harmful if swallowed. Babies and small children should not be exposed to vapor produced by oil base insecticides.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal area below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Do not spray or fog near fire or open flame. Keep container closed. Store in original containers only. Keep container in locked storage areas.

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent), then offer for recycling or reconditioning, or disposal in sanitary landfill, or by incineration if permitted by state and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is a ready to use solution of Malathion and DDVP. It is specially for use in thermal aerosol units and used at full strength will afford effective mosquito and sand fly control.

Apply at a rate not to exceed 1 gallon per acre. The fogger should be held 10 feet or more from the object or area to be treated.

This product will kill mosquitoes, flies and certain other small flying insects when used in fogging machines which are so

constructed that they will produce a heavy smoke-like fog. Small particles of insecticide produced by fogging remain suspended in the air longer than particles produced by a standard hand sprayer. The fogging method is more effective for insect control outdoors.

Do Not attempt to fog yards when a heavy breeze is blowing as the fog will be carried away before it has an opportunity to be effective against mosquitoes and other small flying insects. The wind ideal time for fogging is around dusk when the wind usually dies down and the temperature at ground level is somewhat lower than that of the air a few feet off the ground. Under such conditions the fog in the treated area will no longer for a longer period of time.

The lasting effects of fog depend on weather conditions and if a wet or dry fog is produced. Wet fog contains larger particles of insecticide that have not been completely vaporized. Wet fog has more lasting effect than dry fog, however, heavier residue left by wet fog can be harmful to flowers, plants and other vegetation, therefore, dry fog is desirable. It is not advisable or necessary to hold it close to any plants or shrubbery to obtain satisfactory results.

It is also recommended as a crack and crevice treatment to kill flies, mosquitoes and other small flying insects around dairies and stable.

Do not spray on garden plants, house plants and other vegetation.

Repeat applications as necessary.

IMPORTANT: Read these entire Directions and Conditions of Sale before using this product. DISCLAIMER: SureCo warrants that this product conforms to the chemical description on the label and is reasonably fit for the specific purposes referred to in the Directions For Use, subject to the inherent risks referred to above. SureCo makes no other express or implied warranty of fitness or merchantability nor any other express or implied warranty. In no case shall SureCo be liable for consequential, special, or indirect damages resulting from the use, handling or application of this product.
