#### Directions For Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Use In and Around Homes, Restaurants and Institutions

General: Apply with a low-pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive runoff. Apply to all insect breeding sites and harborages. Also treat adjacent exposed surfaces where insects may crawl when they come out of hiding. Repeat treatment as necessary.

DO NOT apply to carpeting, draperies, wallpaper or similar materials that they may be stained. Avoid excessive wetting of plastics, rubber and asphalt materials such as tiles and floor coverings.

Cockroaches: Thoroughly treat the infested area. Spray baseboards, cracks and crevices, around window and door frames, under surfaces of shelves, drawers and work tables, behind and beneath sinks, refrigerators, stoves and cabinets, in and around waste containers, switch panels, junction boxes, floor drains and other places where cockroaches hide or rest.

Ants: Apply to trails and places where ants enter premises such as window and door frames. Spray hills and runways outdoors.

Exposed stages of Cadelles, Cigarette Beetles, Drugstore Beetles, Indian Meal Moths, Mediterranean Flour Moths, Red Flour Beetles, Saw-Toothed Grain Beetles and Granary Weevils: Treat thoroughly floors and walls of the infested areas with attention to cracks, crevices, corners and perimeters. Sanitation and dust control are primary importance. Fumigate or destroy infested products.

Silverfish, Firebrats and Paperlice: Apply to localized areas infested by these insects.

Brown Dog Ticks: Spray sleeping quarters of pets, around baseboards, window frames and door frames, wall cracks and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

.....

Clover Mites, Crickets, Earwigs, Millipedes, Sowbugs, Scorpions and Spiders: Thoroughly spray the interior and exterior perimeter of infested premises. For Clover Mites give special attention to window frames.

Fleas, Flies, Gnats, Mosquitoes, Punkies and Sandflies (outdoor only, limited to structural perimeters): Spray infested areas thoroughly, including outside surfaces of screens, doors, window

frames, foundations, patios and other areas where insects may enter. Do not spray vegetation.

Do not use edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

For Use in Meat Packing and Food Processing Plants: Do not use in edible products areas of meat packing and food packing plants or in commercial food preparation areas. Any exposed food products, equipment or packaging materials must be removed or covered before spraying. Rinse all equipment with water before canning or other processing begins. Repeat applications, if necessary, when plant is not in operation. Spraying unloading docks and outside areas where insects congregate will aid in preventing reinfestation. Good sanitation and proper disposal of wastes are essential in effective insect control.

Insect Control In Research Facilities: The use of this spray in and around research animal quarters for insect control will not induce changes in liver microsomal enzyme activity in these animals.

#### RESTRICTIONS

Do not use as a space spray. Provide adequate ventilation of area being treated. Do not allow children to contact treated areas until surfaces are thoroughly dry. Avoid contamination of feed, food, food processing equipment and food handling surfaces. Do not apply to animals. Remove pets and cover fishbowls before spraying. Do not Apply to plants.

# PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

#### CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or clothing. In case of contact wash immediately with soap and water. Wash hands, arms and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse. Dh.hot allow children to contact treated surfaces until they...are thoroughly dry.

Should illness occur, get prompt medical attention.
