Ms. Stacy A. Schmidt  
SureCo®  
P.O. Box 938  
Fort Valley, Georgia 31030

Dear Ms. Schmidt:

Subject: Revised Labeling  
Propoxur 2% Bait Insecticide  
EPA Registration No. 769-817  
Your Submission Dated July 20, 1994

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, subject to the comments listed below. A stamped copy of the label is enclosed for your records.

1. The restriction: "Wear protective gloves when applying this product" should be placed in the Precautionary Statements section, rather than in the Directions for Use. Additionally, in the Precautionary Statements, repeat the signal word (Caution) immediately after the phrase "Hazards to Humans and Domestic Animals "
2. In the Directions for Use, replace "reusing operation" with "resuming operations."
3. In the Pesticide Disposal section, change the word "off" to "of."

With this letter we also acknowledge the new name for this product: "Propoxur 2% Bait Insecticide." This will now be regarded as the official name of record for this registration.

Sincerely,

DHE

Dennis H. Edwards, Jr.  
Product Manager 19  
Insecticide-Rodenticide Branch  
Registration Division (7505C)

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Wear protective gloves when applying this product.

PROPOXUR 2% BAIT Insecticide, a ready-to-use product, is very effective for the control of Crickets and the following Cockroaches listed below. It gives rapid kill of these insects including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. Crickets and Roaches die quickly after feeding on the bait.

**COCKROACHES:** American, Brown Banded, German, and Oriental Roaches.  
**CRICKETS.**

**FOR USE IN AND AROUND HOMES, APARTMENT BUILDINGS, STORES, RESTAURANTS, AND WAREHOUSES.**

Apply bait lightly to areas which are inaccessible to children or pets, such as cracks and crevices, in floors near baseboards, in closets, under sinks and refrigerators and in other areas where insect have been seen or may hide. Do not apply to animals.

Do not treat portions of buildings where animals can feed on bait. Use approximately 4 ounces of bait per 1,000 sq. ft. of space and scatter lightly so that bait is barely visible. Repeat as necessary. Keep out of reach of children.

**FOR USE BY PEST CONTROL OPERATORS IN POULTRY PACKING, RED MEAT PACKING, & FOOD PROCESSING PLANTS.**

Apply Bait on paper, pasteboard, or other material that will permit removal. Locate these bait stations on floor near walls, in storage areas, and other areas where insect have been observed. Maintain strict account of location and number of bait stations. Do not apply bait in edible product areas until operations have ceased for the day. Remove all bait stations from edible product areas before reusing operation.

**RESTRICTIONS:** Do not apply to floors or other surfaces likely to be contacted by children or pets.

**For Pest Control Operators & Commercial Use Only.**

**For Effective Control of Cockroaches and Crickets**

**ACTIVE INGREDIENT:**  
2-(1-Methylethoxy) phenol methylcarbamate - 2.0%

**INERT INGREDIENTS:** - - - - - 98.0%

Total 100.0%

STOP - READ THE LABEL BEFORE USE

**KEEP OUT OF REACH OF CHILDREN CAUTION**

**STATEMENTS OF PRACTICAL TREATMENT**

**If Swallowed:** Call a physician or poison control center immediately. Induce vomiting by drinking 1 or 2 glasses of water and touching back of throat with finger. Repeat until vomit fluid is clear. Do not give anything by mouth to an unconscious or convulsing person. **If On Skin:** Remove contaminated clothing and wash skin with soap and water. Get medical attention if irritation persist.

**NOTE TO PHYSICIAN:** Administer Atropine sulfate in large therapeutic doses. Repeat as necessary to the point of tolerance. Treatment: In case of poisoning call a physician immediately. Have patient lie down and keep quiet. **SYMPTOMS OF POISONING:** A sense of "tightness" in the chest, sweating, contracted pupils, vomiting, and diarrhea.
