Dear Ms. Schmidt:

Subject: Revised Labeling
Warner Enterprises Ornamental Insecticide Conc. I
EPA Reg. No. 769-939
Submission Dated July 26, 1995

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below:

1. Move the second sentence and the last sentence of the Precautionary Statements to the Directions for Use section.
2. Revise the Storage and Disposal Statement. Since this product may be sold in a variety of package sizes, the directions that call for wrapping container in several layers of newspaper and discarding in the trash may not be practical. Therefore, make the following revisions to the Storage and Disposal statement:

a. At the beginning of this section, add:

Containers One Gallon and Smaller: Store in original container in a cool dry place, inaccessible to children and pets. Do not reuse container. Wrap container in several layers of newspaper and discard in trash.

b. After the statement "Do not contaminate water, food, or feed by storage or disposal" add:

Containers Larger than One Gallon: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste.

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

769-939

PRECAUTIONARY STATEMENTS
Hazards To Humans and Domestic Animals
CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. The use of this product in Food processing plants should be confined to time periods when the plant is not on operation. Foods should be removed or covered during treatment and thoroughly cleaned and rinsed with potable water before using. After space spraying food processing plants, thoroughly wash all equipment, benches, shelving, etc. where exposed food will be handled with an effective cleaning compound and rinse with potable water before use. Wash all contaminated clothing with soap and hot water before reuse. Remove pets, birds, and cover fish aquariums before spraying. When used in hospitals, patients must be removed from the room and the rooms aired for two hours prior to re-entry.

ENVIRONMENTAL HAZARDS

Do not apply outdoors when weather conditions favor drift from area treated. This product is toxic to fish and birds. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

PHYSICAL AND CHEMICAL HAZARDS

Flammable. Keep away from heat and open flame.

DIRECTIONS FOR USE

It is a violation of Federal to use this product in a manner inconsistent with its labeling. Water dilutions should be prepared at room temperature. Exposure to low temperatures may cause cloudiness or crystallization.

SURFACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 9 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

To control Cockroaches, Ants, Spiders, Silverfish, Crickets, Centipedes, Earwigs, Sowbugs and Grain Mite. Apply as a coarse droplet spray directed into cracks, crevices and other hiding places, along baseboards, around the bases of machinery and under pallets. Treat all returned bottle cartons and cases. Spray thoroughly, contacting insects directly whenever possible. Spray badly infested areas daily. In other areas, repeat treatment twice weekly or when reinfestation occurs.

SPACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 19 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

To control Houseflies, Mosquitoes, Gnats and Flying Moths. Close doors and windows and shut off ventilating systems. Apply a fog or fine mist directing the spray toward the upper portions of the room toward windows and other light sources which attract these insects. Thoroughly fill the area with mist using 1/2 to 1 ounce per 1000 cubic feet of space. Keep area closed for at least 10 minutes. Vacate after treatment and ventilate before reoccupying. Repeat treatment as needed.

ORNAMENTAL PLANTS

Dilute this concentrate at the rate of 1 part material to 79 parts water. To control Aphids, Two-Spotted Spider Mites, and Adult Whiteflies on ornamental house and garden plants (African violet, Azalea, Christmas cherry, Chrysanthemum, Cineraria, Diffenbachia, Fuschia, Gloxinia, Ivy, Lantana, Neanthe bella palm, Petunia, Rose and Snapdragon and on outdoor plants such as azalea, Chrysanthemum, Euonymus, Ivy, Marigold, Petunia, Rose, Snapdragon and Zinnia). Apply as a fog or fine mist, spraying plants with a sweeping motion so that the mist drifts into the plants. Direct spray so that the upper and lower portions of leaves are contacted. Use caution on new growth and tender foliage. When using outdoors, spray when air is still. Repeat as necessary.

To control Mealybugs and Leafminer. Dilute at the rate of 1 part concentrate to 39 parts water and apply in the same manner as given above.

To control Gypsy Moths, and Caterpillars, Forest and Tent Caterpillars, Canker Worms, Garden Webworms and the above pests on ornamental trees: spray as above. Do not spray bearing fruit trees.

IN HORSE BARNs AND ON HORSES

Dilute 1 part concentrate with 19 parts water and apply as a fine mist spray to stable area, and over and around stabled horses to provide quick relief from annoying Flies, Mosquitoes, and Gnats. May also be sprayed directly on horses. DO NOT USE ON HORSES INTENDED FOR HUMAN CONSUMPTION.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store in original container in a cool dry place inaccessible to children and pets. Do not reuse container, wrap container in several layers of newspaper and discard in trash.

Pesticide Disposal: Pesticide spray mixture or rinsate that cannot be used according to label instructions must be disposed of at or by an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

IMPORTANT: Read these entire Directions and Conditions of Sale before using this product. **DISCLAIMER:** SureCo warrants that this product conforms to the chemical description on the label and is reasonably fit for the specific purposes referred to in the Directions For Use, subject to the inherent risks referred to above. SureCo makes no other express or implied warranty of fitness or merchantability nor any other express or implied warranty. In no case shall SureCo be liable for consequential, special, or indirect damages resulting from the use, handling or application of this product.
