Proposed Right Side Panel Revision - CANEX* Solution

(All signal words - Type size requirement):

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR DEMODECTIC MANGE: Dogs should be clipped and bathed if necessary, and thoroughly dried. Apply petrolatum or other bland ointment to eyes to prevent conjunctival irritation. Thoroughly massage CANEX* Solution into and around infested areas. If animal is in poor physical condition, correct before applying CANEX. Apply to a small area to determine tolerance. Discontinue if gastrointestinal or other systemic complications occur. Demodectic mange is difficult to accurately diagnose and often requires prolonged treatment and attention to other factors such as diet. Apply daily for 7-10 days; if no improvement is noted after 10 days, consult veterinarian.

DIRECTIONS FOR EAR MITES: Dilute 1 part of CANEX Solution with 3 parts of mineral oil. Shake well before using. Apply several drops in ear canal, massage to distribute over external ear structure. Repeat every 5 to 7 days for several applications, then as indicated.

STORAGE AND DISPOSAL

Do not reuse empty container. Rinse thoroughly before discarding. Securely wrap original container in several layers of newspaper and discard in trash.

Ganex SOLUTION

OIL SOLUTION OF ROTENONE

Active Ingredients
 Rotenone 0.12% w/w
 Other active ingredients 0.25% w/w
 Inert ingredients 99.63% w/w

EPA Reg. No. 773-4 EPA Est. No. 773-NJ-1

For the treatment of demodicosis mange. Also used for ear mites.

DIRECTIONS FOR DEMODECTIC MANGE: The animal should be clipped and bathed with water and thoroughly dried. Apply petroleum or mineral oil to the face to prevent contact irritation. Thoroughly massage Ganex Solution into and around affected areas. If a rash or pustule develops, discontinue use. If the use of Ganex Solution is necessary to determine the extent of the infestation, apply to a small area to determine response. If the use of Ganex Solution is necessary to determine the extent of the infestation, apply to a small area to determine response. If the use of Ganex Solution is necessary to determine the extent of the infestation, apply to a small area to determine response.

DIRECTIONS FOR EAR MITES: Place 1-2 drops of Ganex Solution with 1-2 drops of mineral oil in the ear canal. Apply several drops 3-4 times a day until the ear is clean. Repeat treatment as necessary.

CAUTION: Keep out of reach of children.

DISPOSAL: Do not reuse container. Destroy when empty.

and document available

Revised Draft Labeling - CANEX* Solution

Proposed revisions to the CANEX Solution labeling are shown on the following pages. This includes labeling for the one gallon container size. A 16 fl. oz. (1 pint) product size, not currently being distributed, is not included in this submission.

To accommodate the additional EPA required information, the existing label will be expanded as shown in the photocopy attached.

Type size requirements for signal words will be determined by label size in accordance with EPA regulations.

Attention: Regulatory Affairs

Dear Dr. Ostmann:

Subject: Revise label in accordance to current label regulations
Canax Solution
EPA Registration No. 773-4
Your Application Dated September 28, 1983

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

Prior to marketing your product with revised labeling, please make the following additional revision.

Relocate the user statement to immediately under your product name and reword it to "only for sale to, use and storage by veterinarians."

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767)
