Subject: Label Amendment - Updating First Aid Statement per PR Notice 2001-1
Ectiban D
EPA Reg. No. 773-63
Your Submission Dated March 15, 2004

Dear Ms. DeBruin:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

1. Please make the following revisions to the Precautionary Statements:
 - a. Delete the first two statements, "Avoid contact with skin and eyes. Avoid breathing dust".
 - b. Move "Food utensils such as teaspoons and measuring cups should not be used for food purposes after use with insecticide." to the Directions for Use section.
2. Delete "swallowed" from the precautionary statement and delete the If swallowed first aid statement. Based upon the acute oral toxicity for this product, Tox Category IV, these statements are not required.
3. Under Environmental Hazards revise the first sentence to read "This pesticide is extremely toxic to fish and other aquatic organisms."

- 4. Under the Ingredient Statement, replace "Inert Ingredients" with "Other Ingredients"

If you have any questions regarding this action, please contact BeWanda Alexander of my team at (703) 305-7460.

Sincerely,

George T. LaRocca
Product Manager (13)
Insecticide Branch
Registration Division (7505C)

Front panel

Ectiban® D

Insecticide

Poultry and Livestock Dust

Active ingredient

Permethrin (3-Phenoxyphenyl) methyl
(±) cis, trans-3-(2,2-dichloroethenyl)
-2,2-dimethylcyclo-propanecarboxylate*0.25%

Inert Ingredients 99.75%
100.00%

*cis/trans ratio: Min. 35%(±) cis and max 65%(±) trans

Contains Ectiban insecticide for control of horn flies, faceflies, lice (dairy, beef and swine) and mites (poultry)

DIRECTIONS FOR USE		
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read-to-Use in dust bags or hand dusting equipment. Follow specific use instructions on dust dispensing equipment to be used.		
Apply to	Target Insects	Application Instructions
Lactating and Non-Lactating Dairy Cattle and Beef Cattle	Horn flies Face flies Lice	<p>DUST BAGS: Suitable for all refill bags. Place contents of package in dust bag and refill as needed. Results improved by daily forced use.</p> <p>DUST READY TO USE BAG: Installation of cattle dust bag. Suspend the dust bags by inserting rope, chain or wire through the grommets at the top of the bag and attaching to an overhead structure, or by hooking the grommets into hooks fixed to a stationary overhead 2x4 at the heights recommended for louse and horn fly or face fly control. Rope, chain or wire can also be tied or attached to two posts or other fixed points with the dust bag hanging in the center. After the bags are in place, pull the rip cord to allow the insecticide to release from the sifter bottom.</p>
	Swine	Lice
	Poultry	Mites

* 1 oz. of this dust equals approximately 2 ½ level tablespoonsful.

PRECAUTIONARY STATEMENTS	
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
