HOW TO APPLY:

1. Remove tube(s) along perforations.
2. Hold tube in upright position.
3. Point tip of tube up and away from user's face and body.
4. Cut across tip where indicated.
5. Part dog's hair between the shoulder blades.
6. Invert tube over dog.
7. Squeeze the tube firmly and apply the recommended amount of solution to the skin of the dog's back between the shoulder blades. For large and extra large dogs, another application of the solution to the dog's skin directly in front of the base of the tail is also required. SEE RECOMMENDED DOSING GUIDELINES BELOW.
8. When application is complete, follow Pesticide Disposal under Storage and Disposal section.

PACKAGE FOR PUPPIES OR SMALL DOGS

Dosage for dogs weighing 33 lbs. (15 kg) or less:

Apply 1 cc (1 tube) of EXSPOT Insecticide solution to the skin of the dog's back between the shoulder blades.

PACKAGE FOR LARGE DOGS

Dosage for dogs weighing 33 to 65 lbs. (15 to 29 kg):

Apply 1 cc (1/2 of 2cc tube) of EXSPOT Insecticide solution to the skin of the dog's back and 1 cc (1/2 of 2cc tube) to the skin of the dog's back directly in front of the base of the tail.

PACKAGE FOR EXTRA LARGE DOGS

Dosage for dogs weighing 66 lbs. (30 kg) or more:

Apply 2 cc (1/2 of 4cc tube) of EXSPOT Insecticide solution to the skin of the dog's back and 2 cc (1/2 of 4cc tube) to the skin of the dog's back directly in front of the base of the tail.

Exspot^R Insecticide for Dogs

READ ENTIRE LABEL COMPLETELY BEFORE USING.
USE ONLY ON DOGS AND PUPPIES.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. DO NOT USE ON CATS. May be toxic and potentially fatal if applied to or ingested by cats. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

EXSPOT Insecticide for Dogs may be used on puppies as young as 4 weeks of age.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with the skin, eyes or clothing. Wash thoroughly with soap and water after handling.

DO NOT USE ON CATS. Cats which actively groom or engage in close physical contact with recently treated dogs may be at risk of serious harmful effect. Do not use this product in households with both dogs and cats. Consult a veterinarian before using this product on debilitated, aged or medicated animals. Consult with a veterinarian before using on dogs with known organ dysfunction. Sensitivities may occur after using ANY pesticide product for pet. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Exspot[®] Insecticide for Dogs

FIRST AID	
If On Skin	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a physician if irritation persists.
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have a person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • DO NOT INDUCE VOMITING OR GIVE ANYTHING BY MOUTH TO ANY UNCONSCIOUS PERSON.
HOT LINE NUMBER	
<p>Have the product container or label with you when calling the poison control center or doctor or going for treatment. You may also contact the Rocky Mountain Poison Center at 1-303-595-4869 for emergency medical treatment information.</p>	

Adverse Reactions:

Some animals may be sensitive to ingredients in this product. Reported reactions in dogs have included skin sensitivity, increased itchiness, redness or rash. Hair discoloration or hair loss at the application site may occur. Dogs may also show lethargy. Observe the dog following treatment. If sensitivity to EXSPOT Insecticide for Dogs occurs, discontinue use and bathe the dog. Seek veterinary advice.

ENVIRONMENTAL HAZARDS

The product is extremely toxic to fish. Do not add directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

Exspot^R Insecticide for Dogs

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in cool, dry place. Protect from freezing. **Pesticide Disposal:** Securely wrap original container in several layers of newspaper and discard in trash. **Container Disposal:** Do not reuse empty container. Wrap container and put in trash.

Exspot Insecticide for Dogs is an effective and easy to use product. Exspot Insecticide demonstrates greater than 92% control of fleas within 3 days of application. As with all flea and tick control products, EXSPOT Insecticide should be used as part of a control program aimed at reducing flea populations in the dog's environment (bedding, carpets, kennel and yard). Consult your veterinarian or entomologist for program recommendations. Defend Exspot Insecticide may become less effective if dog is frequently bathed or gets wet. Repeat applications may be made as necessary, but do not apply at intervals less than 7 days. **DO NOT USE ON CATS.**
