POUR-ON INSECTICIDE FOR BEEF CATTLE & CALVES

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
REAPPLY TO LICE - No dilution necessary. Do not apply to lactating or dry dairy cows. Do not apply this product to lice of beef cattle or calves.

Apply To	Target Insects	Dosage
Beef Cattle	Lice, Horn Flies	Apply product down the backline at the rate of: Lice: 1.0 ml/500 lbs 10 ml (17.3 fl oz)
		Grass: 1.0 ml/500 lbs 15 ml (17.3 fl oz)

Repeat treatment as needed; however, do not apply more than once every 2 weeks and do not apply more often than four times within any 6-month period. For reduction of sucking lice, two treatments at a 14-day interval are recommended.

Special Note: SABER™ Pour-On is not recommended for use on veal calves. SABER Pour-On is not effective in controlling cattle grub. Therefore, the product can be used on calves at any time of the year without loss of grub control. For resistance commonly associated with grub treatment products, SABER Pour-On should be used in an integrated pest management system which may involve repeat treatments and the use of other pest control products. Continuous exposure of horn flies to a single class of insecticide, i.e., pyrethroids or organophosphates may lead to the development of resistance to that class of insecticide. In order to reduce the possibility of horn fly resistance, it is important to rotate on a seasonal basis the class of insecticide used and/or the method of horn fly control. For advice concerning current control practices with relation to specific local conditions, consult your local extension agent or your Cooperative Agricultural Extension Service.

PRECAUTIONARY STATEMENTS: HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

CAUTION - Irritant if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes, or clothing. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling. Avoid contact with eyes. Wear rubber or impermeable protective gloves when applying this product. Do not indicate this product to be a contact insecticide. Do not apply product to face of cattle.

STATEMENT OF PRACTICAL TREATMENT

It is fatal: Flush eyes with plenty of water. Call a physician if irritation persists.

If On Skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

If Swallowed: Call a physician immediately. DO NOT INDUCE VOMITING UNLESS UNDER MEDICAL ATTENTION.

If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

ENVIRONMENTAL HAZARDS
This pesticide is extremely toxic to fish. Use with care when applying in areas adjacent to any body of water. Do not add directly to water. Do not contaminate water by cleaning of equipment or disposal of rinse water. Apply this product only as specified on the label.

HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS
Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Keep container sealed when not in use. Do not store near food or feed.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: If the insecticide is not used, then offer for recycling or reconditioning or purchase and dispose of in a sanitary landfill or incineration, or if allowed by State and local authorities by burning, if burned, stay out of smoke.
