Subject: Notice of Registration Follow -Up - Final Printed Label with Corrected Signal Word

EPA Reg. No. 773-92
Ultra Saber Pour-On Insecticide
Your submission dated November 20, 2008

Dear Ms. Sheehy:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comment listed below. A stamped copy of the label is enclosed for your records.

- The container disposal statements for pesticides have been revised. Refer to PR Notice 2007-4 and modify your label accordingly.

If you have questions regarding this action, please contact Olga Odiott at (703) 308-9369.

Sincerely,

Kimberly Nesci
Interim Product Manager (13)
Insecticide Branch
Registration Division (7505P)

in EPA Letter Dated
NOV 25 2008

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 773-92

ULTRA SABER POUR-ON BACK PANEL

ULTRA SABER

POUR-ON INSECTICIDE FOR BEEF CATTLE & CALVES

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READY TO USE - No dilution necessary. Do not apply to lactating or dry dairy cows. Do not apply this product to face of beef cattle or calves.

Apply To	Target Insects	Dosage
Beef Cattle and Calves	Lice, Horn Flies	Apply product down the backline at the rate of Less than 600 lbs 10 mL (1/3 fl oz) Greater than 600 lbs 15 mL (1/2 fl oz)

Repeat treatment as needed; however, do not apply more than once every 2 weeks and do not apply more often than four times within any 6-month period.

Special Note: ULTRA SABER™ Pour-On is not recommended for use on veal calves. ULTRA SABER Pour-On is not effective in controlling cattle grubs. Therefore, this product can be used on cattle at any time of the year without fear of host-parasite reactions commonly associated with grub treatment products. ULTRA SABER Pour-On should be used in an integrated pest management system, which may involve repeat treatments and the use of other pest control practices. Continual exposure of horn flies to a single class of insecticide, (eg, pyrethroids or organophosphates) may lead to the development of resistance to that class of insecticide. In order to reduce the possibility of horn flies developing resistance, it is important to rotate, on a seasonal basis, the class of insecticide used and/or the method of horn fly control. For advice concerning current control practices with relation to specific local conditions, consult resources in resistance management programs and your Cooperative Agricultural Extension Service.

PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING - May be fatal if swallowed. Harmful if absorbed through skin. Harmful if inhaled. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Avoid contact with skin, eyes or clothing. Wear long-sleeved shirt and long pants, socks, shoes, and gloves. Remove and wash contaminated clothing before reuse. Avoid breathing spray mist.

FIRST AID

If Swallowed: Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person. If On Skin Or Clothing: Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Inhaled: Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

You may also contact the Rocky Mountain Poison Center 303-593-4869 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish. Use with care when applying in areas adjacent to any body of water. Do not add directly to water. Do not contaminate water by cleaning of equipment or disposal of rinse water. Apply this product only as specified on the label.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Storage: Keep container sealed when not in use. Do not store near food or feed.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

† Season-long lice control from January-April.
