

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

April 23, 2024

Peter E. Stevenson
Regulatory Consultant for Intervet, Inc.
126 E. Lincoln Avenue
Rahway, NJ 07065

Subject: Notification per PRN 98-10 – Updated contact information, manufacturing site, and container sizes on label
Product Name: Ultra Saber
EPA Registration Number: 773-92
Application Date: 03/11/2024
Case Number: 559683

Dear Peter E. Stevenson:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “NOTIFICATION” and placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Robert Mitchell at 202-566-2842 or via email at mitchell.robert@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Robert D. Mitchell III". The signature is written in a cursive style with a distinct "III" at the end.

If on skin or clothing	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
If Inhaled	<ul style="list-style-type: none">• Move person to fresh air.• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.• Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For non-emergency information on this product, call 1-800-211-3573, Monday through Friday, 7 a.m. to 5 p.m. CST. For medical emergencies, call the poison control center at 1-800-222-1222.](tel:1-800-211-3573) ~~You may also contact the Rocky Mountain Poison Center 303-595-4869 for emergency treatment information.~~

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING- May be fatal if swallowed. Causes skin irritation. Do not get on skin, in eyes, or on clothing. Harmful if absorbed through skin. Harmful if inhaled. Avoid breathing vapor or spray mist.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes and socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

Do not apply in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

User Safety Recommendations

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Never apply material so as to contaminate eating or drinking area.
- Remove clothing/PPE immediately if product gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This ~~pesticide~~ ~~product~~ is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area.

Physical or Chemical Hazards

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READY TO USE – No dilution necessary. Do not apply to lactating or dry dairy cows. Do not apply this product to face of beef cattle or calves.

Apply To	Target Insects	Dosage	
Beef Cattle and Calves	Lice, Horn Flies	Apply product down the backline at the rate of	
		<u>Less than 600 lbs</u> 10 mL (1/3 fl oz)	Greater than 600 lbs 15 mL 9 1/2 fl oz)
Repeat treatment as needed, however, do not apply more than once every 2 weeks and do not apply more often than four times within any 6-month period.			

Special Note: ULTRA SABER™ Pour-on is not recommended for use on veal calves. ULTRA SABER™ Pour-on is not effective in controlling cattle grubs. Therefore, this product can be used on cattle any time of year without fear of host-parasite reactions commonly associated with grub treatment products. ULTRA SABER™ Pour-on should be used in an integrated pest management system, which may involve repeat treatments and use of other pest control practices. Continual exposure of horn flies to a single class of insecticide (e.g. pyrethroids or organophosphates) may lead to the development of resistance to that class of insecticide. In order to reduce the possibility of horn flies developing resistance, it is important to rotate, on a seasonal basis, the class of insecticide used and /or the method of horn fly control. For advice concerning current control practices with relation to specific local conditions, consult resources in resistance management programs and your Cooperative Agricultural Extension Service.

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Keep container sealed when not in use. Do not store near food or feed.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. **Container Handling:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
