BRAND DISINFECTANT CLEANER

Helpful Cleaning Hints

prevent mold and slow the odors they cause on walls, ceilings, and floors made of metal, glass, tile, porcelain, and finished wood surfaces, wash with solution as directed using hand sponge, cloth, or mop. Do not rinse. Repeat application when necessary.

- Kills dangerous staphylococcus, strep, and salmonella germs, athlete's foot fungus, influenza virus (A2), household germs on environmental surfaces.
- For floor wax removal, add 1 cup of ammonia to Lysol Powdered Cleaner solution.
- When cleaning walls, wipe up drippings on floor to prevent water spotting.
- For sensitive skin, wear rubber gloves.

Lysol Brand Disinfectant Powdered Cleaner is germicidal when used as directed for disinfection, but differs in composition from other Lysol Brand products.

Lysol POWDERED
BRAND DISINFECTANT CLEANER

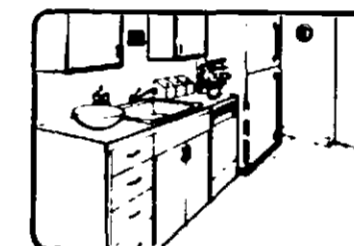

works hard on dirt & germs

DIRECTIONS

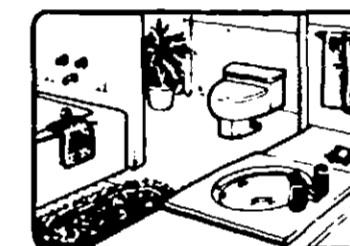

To clean, disinfect, & deodorize:

Use 1/2 cup per gallon (1/2 bucket) of warm water. Wash with hand sponge, cloth, or mop, wetting surface thoroughly. NO RINSING NECESSARY!

Kitchen

Bathroom

Use Lysol Powdered Cleaner where germs including germs that cause odors can be as much of a problem as the dirt itself... bathroom, basements, walls, floors, kitchen cabinets.

Basement

Laundry

Use Lysol Powdered Cleaner for those areas that are extra tough to clean and deodorize... like musty basements and laundry rooms. (Hard non-porous surfaces.)

See side panels for additional uses
