JUL 30 1999

ATTENTION: Bruce Paoella

SUBJECT: Lysol® Brand Disinfectant Direct Multi-Purpose Cleaner
EPA Registration Number 777-66
Your Amendments Dated: February 16 and April 21, 1999

The amendments referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A) to add sanitization claims and the organism: Campylobacter jejuni, are acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - A. Include as part of the "Ingredients Statement" the following phrase "Total.....100%".
 - B. Page two: Replace the statement "Do not use on natural marble or brass." with the statement "This product is not recommended for use on marble or brass." as per the Agency correspondence of 5/26/99.
 - C. The term "germs" refers to organisms which pose a threat to human health (fungi, viruses, and bacteria.) Therefore, on page three revise the phrase "(kills odor-causing germs)" to read "(kills odor-causing *bacteria*)" since the section preceding this statement is only making claims against bacteria.
 - D. The phrases "New" and "Improved" may only be used for a period of six months following the introduction of a new formulation.

E. Page ten: Delete the phrase "food germ" from the second statement on this page. This statement is not clear as to what the phrase "food germ" means.

CONCURRENCES

SYMBOL	7510C						
SURNAME	S. [Signature]						
DATE	7/26/99						

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

F. Pages ten and eleven: The phrases "Gives you streak-free shine while it eliminates harmful bacteria," "Gives you streak-free cleaning results while it eliminates harmful bacteria" and "Lysol Direct Glass & Surface Cleaner is specifically formulated to provide streak-free cleaning results while it eliminates harmful bacteria." must each be followed by an "*" which refers the user to the list of bacteria which includes the genus and species of each organism on the same label.

G. Since your label does not specify that this product is intended strictly for household use and since it lists unqualified chrome, stainless steel, and aluminum surfaces, the disclaimer as per PR Notice 94-4 is required due to the possible association with non-critical devices or equipment surfaces. Include the statement which begins "This product is not to be used as a terminal sterilant/high level disinfectant..." and ends "...medical devices prior to sterilization of high level disinfection." referring to the PR Notice for this language in it's entirety. Include this language whenever the previously mentioned surfaces are listed on your label.

H. On page 12, alternate language for sanitization claims, additions to the front label, delete the word "germs" from items 1a), 1b), 1c), and 1d). On the same page, alternate language for sanitization claims, additions to the back label, delete the word "germs" from items 1a), 1b), 1c), 1d), 1e), and 1f). In all of these statements your label is referring to your sanitization claim for killing *bacteria* in "seconds" or "30 seconds" not fungi, viruses, and bacteria as the term "germs" implies.

3. Submit two (2) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, this registration will be subject to cancellation in accordance with FIFRA sec. 6 (e). Your release for shipment of this product bearing the amended labeling constitutes acceptance of these conditions.

Please be advised that on your next label amendment we will likely ask you to revise your label to specify exactly where this product may be used by including the statement "for residential use only" or "for use in homes, hospitals, motels..."

A stamped copy of the labeling is enclosed for your records. Should you have any questions concerning this letter, please contact Tracy Lantz at (703) 308-6415.

Sincerely,
Velma Noble

LYSOL® Brand Disinfectant Direct Multi-Purpose Cleaner

LYSOL® DIRECT meets AOAC use-dilution efficacy test standards for hospital disinfectants.

LYSOL® DIRECT is a highly versatile and convenient disinfectant cleaner that you use straight from the bottle. LYSOL® DIRECT cleans and disinfects most nonporous kitchen surfaces and leaves your house with a fresh and clean scent. Use straight from the bottle in the kitchen, bathroom and other household areas.

Alternate for Spray Applicator:

LYSOL® DIRECT is a versatile and convenient disinfectant cleaner for most washable surfaces. Cleans and disinfects most washable surfaces with no rinsing. LYSOL® DIRECT cleans and shines. No rinsing! Fresh Scent! Great for use in the kitchen, bathroom and other household areas.

Alternate for Twist/Turn Applicator:

Easy to Control! No Splashing! Easy to Rinse!

Alternate for Leave on Spray Product:

Easy to use - Just mist and walk away
Effective - Cleans Soap Scum and Prevent (s) Mildew Stain
Disinfects - Kills germs for a deep down clean.

777-66

Alternate Language for Leave on Spray Product:

Use Lysol Brand Disinfectant Direct Multi-Purpose Cleaner daily to keep your shower clean.

Safety First: Run the shower before entering to rinse shower/tub. Always stand on a non-slip surface when in shower or tub.

General Bathroom Cleaning Directions:

1. For best results, start with a clean shower. Immediately after showering, lightly mist (spray) all shower surfaces including curtain and (or) door. No need to rinse, wipe or scrub, if you see streaks, rinse off and apply less.
2. If you start with a partially soiled shower, it will take 2-4 weeks for Lysol Brand Direct Multi -Purpose Cleaner to loosen build-up and clean your shower. If deposits remain, simply wipe off with a soft cloth when shower surfaces are damp, such as immediately after showering.

Do not use on natural marble or brass.

To Disinfect: Start with a clean shower. Spray until wet and leave on at least 10 minutes or until dry

LYSOL® DIRECT cleans and disinfects most kitchen surfaces. It cuts through grease and grime and kills bacteria such as Salmonella choleraesuis (Salmonella), Escherichia coli (E. coli), Listeria monocytogenes (Listeria), Staphylococcus aureus (Staph), Campylobacter jejuni and Pseudomonas aeruginosa (Pseudomonas) in the kitchen. It also kills other bacteria which cause odors in the kitchen (kills odor-causing germs).

Alternate for Refill bottle:

TO REFILL BOTTLE OF LYSOL® DIRECT CLEANER:

in EPA Letter Dated:

JUL 30 1999

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No.

1. Remove trigger sprayer or cap from empty bottle of LYSOL® DIRECT cleaner.

2. Unscrew cap on Smart Pack Refill and pour contents into empty bottle.

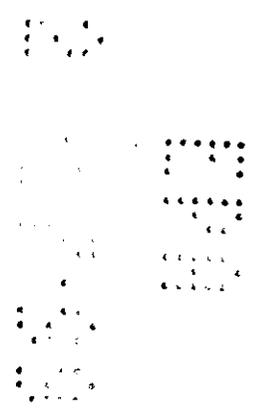

3. Replace trigger sprayer or cap and use LYSOL® 777-66 Direct cleaner as you normally would.

LYSOL® DIRECT cleaner can also be used straight from this Smart Pack Refill.

Easy To Pour Smart Pack Refill
Resealable Uses 75% less plastic

Alternate for Leave on Refill Product

Remove trigger unit from empty Lysol Brand Disinfectant Multi-Purpose Cleaner and attach the trigger unit to this refill bottle.

BACK LABEL CONTINUED

Help reduce plastic waste in your community. Reuse your LYSOL® DIRECT bottle by refilling it with this convenient refill package. Smart Pack Refill uses 75% less plastic* than regular packaging so there's much less to throw away. BE SMART...Save Money and Reduce Trash.

*This package contains 75% less plastic by weight than the 22oz. trigger bottle of LYSOL® DIRECT.

This is not a concentrate. Do not add water.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BIG JOBS: For convenience, use the easy-pour, push-pull spout or remove cap to refill your Lysol® Direct spray bottle.

GENERAL HOUSEHOLD / KITCHEN CLEANING: Apply LYSOL® DIRECT cleaner straight from the bottle onto a damp sponge or squeeze directly onto surfaces, then wipe clean. On painted surfaces, test a small area. Not recommended for use on acrylic plastics.

Alternate for Spray Applicator:

TO OPERATE: Turn nozzle counter clockwise to "spray" or "stream". Adjust to desired pattern. If the last portion of LYSOL® DIRECT is difficult to dispense, turn the trigger 180° to face the opposite direction. This will ensure full use of contents.

GENERAL HOUSEHOLD / KITCHEN CLEANING: Spray soiled area, then wipe clean. No rinsing! LYSOL® DIRECT removes (it cuts through) grease, food stains, soap scum, fingerprints, tough soils, crayon/pencil marks, and dirt and grime in and around the house / kitchen. On painted surfaces, test a small area. Not recommended for use on acrylic plastics.

LYSOL® DIRECT cleans all washable kitchen surfaces such as stoves, countertops, sinks, appliances, cabinets, walls, floors, woodwork, tables, chairs and high chairs.

To Clean Refrigerator / Freezer Interiors and Microwave Interiors: Remove all food, ice trays, etc. Spray soiled area, then wipe clean.

BACK LABEL CONTINUED**Alternate for Twist/Turn Applicator:**

TO OPERATE: Turn tip counter clockwise. Adjust to desired level of dispensing.

GENERAL HOUSEHOLD/KITCHEN CLEANING: Apply gel cleaner to surface using a damp sponge or cloth, then wipe clean.

FLOORS: Cleans all washable floors including no-wax floors, linoleum, vinyl and ceramic tile. For easy cleaning, squeeze straight from the bottle and wipe clean with a damp mop. For waxed floors or sealed ceramic tile floors, mix one cup of LYSOL® DIRECT cleaner per gallon of water and apply with a mop.

Alternate for Spray Applicator:

For spot cleaning, spray straight from bottle and wipe clean with damp sponge or mop. For waxed floors or sealed ceramic tile floors, or to clean larger areas of any floors, remove trigger sprayer and mix one cup of LYSOL® DIRECT per gallon of water and apply with a mop.

BATHROOM: To clean and deodorize the toilet bowl, squirt LYSOL® DIRECT cleaner liberally (½ cup) on sides and under rim of bowl; swab all surfaces thoroughly and flush. To clean tubs and tile, apply straight from the bottle onto damp sponge or squeeze directly onto surface, then wipe clean.

DISINFECT/DEODORIZE: For heavily soiled surfaces, first clean according to General (Kitchen) Cleaning Directions. To disinfect/deodorize hard, nonporous surfaces such as floors, walls, counters, sinks, tubs and tile, apply full strength. Let stand 10 minutes before wiping. Kills germs such as Influenza Virus Type A₂ (Japan), Staphylococcus aureus (Staphylococcus) and Streptococcus pyogenes (Streptococcus) germs, Salmonella choleraesuis (Salmonella), Pseudomonas aeruginosa, Herpes Simplex virus Type 1 and Type 2, Escherichia coli (E. coli), Listeria monocytogenes, Human Immunodeficiency Virus Type 1 (HIV-1) (AIDS Virus) and Trichophyton mentagrophytes or (Athlete's Foot Fungus). Kills odor-causing household germs and mold and mildew in damp and musty places. Repeat application as necessary.

Alternate for Spray Applicator:

Spray until thoroughly wet. Let stand for 10 minutes before wiping.

Alternate for Twist/Turn Applicator

Apply gel cleaner generously on surface and spread evenly. Let stand for 10 minutes before wiping.

DISINFECT /DEODORIZE: For hard, nonporous surfaces such as counters, sinks, appliances, refrigerator / freezer interiors, microwave interiors, high chairs, stove tops and hoods, tables, garbage pails, faucets, and walls, hold container 6" to 8" from surface and spray until thoroughly wet. Let stand 10 minutes before wiping. Rinse after use on surfaces that come in contact with food. For heavily soiled surfaces, first clean according to GENERAL KITCHEN CLEANING directions.

To disinfect nonporous cutting boards, spray until thoroughly wet, let stand 10 minutes, then rinse thoroughly.

KILLS HIV-1 ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV-1 (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, or eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of LYSOL® DIRECT.

CONTACT TIME: Allow surface to remain wet for 10 minutes.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: MAY CAUSE EYE IRRITATION. AVOID CONTACT WITH EYES.

STATEMENT OF PRACTICAL TREATMENT: If splashed in eyes, immediately remove contact lenses and rinse eyes with plenty of water for at least 15 minutes.

Alternate for Spray Applicator:

STATEMENT OF PRACTICAL TREATMENT: If sprayed or splashed in eyes, immediately remove contact lenses and rinse eyes with plenty of water for at least 15 minutes.

STORAGE/DISPOSAL: Store in areas inaccessible to small children. Refill container only with LYSOL® DIRECT. If not refilling, rinse empty container thoroughly and discard in trash or recycle.
