Subject: **Lysol Brand Disinfection Direct Multi Purpose Cleaner**
EPA Registration Number 777-66
Letter Dated October 27, 2005

Dear: Ms. Pisculli:

The following amendments, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, are acceptable with comments.

Proposed Labeling

- update labeling

Label Comments:

1. Page 2, revise the 3th claim by deleting the word "All" and replace it with (Multi).
2. Page 3, the 4th claim reads "Powerful All Purpose Cleaner". Delete the word "all" and replace it with (Multi).
3. Page 7, delete the statement "Help protect your family from cross-contamination of germs (on hard, non-porous surfaces) with Lysol Brand Disinfectant products). The Agency contends that the phrase, "Help protects the family" is misleading because it implies that the product offers health protection against germs. This type of claim is beyond the Agency's jurisdiction and the scope of this product's registration as a disinfectant that kills viruses and bacteria on hard nonporous surfaces. Alternatively, you may claim that "Lysol brand Disinfectant products aid in the reduction of cross contamination of germs on hard, non-porous

- 4. On page 7, revise the 3th claim this claim, "Controls (Eliminates) (kitchen) odors caused by (bacteria*) (germs) (mold) (and mildew), to read "Odor causing bacteria". You cannot mix a non public health claim such as odor causing with a public health claim, germs.
 - a. Revise the 15th claim, "Eliminates (kills) odor-causing (bacteria*) (germs)", deleting the word, "germs".
 - b. Revise the 28th claim, "Kills odor-causing germs", by deleting the word, germs.
 - c. Revise the 20th claim, "Kills germs and controls the spread (and) growth) of (fungi) (and) (mold), by deleting the term "spread", from the phrase, controls the spread of mold and mildew.

General Comments:

A stamped copy of the acceptable labeling is enclosed. Submit one (1) copy of your final printed labeling before distributing or selling the product bearing the revised labeling.
