TES ENVIRONMENTAL PROTECTION A ENCY

Ms. Mary C. Pisculli Reckitt Benckiser, Inc. Morris Corporate Center IV 399 Interpace Parkway Parsippany, NJ 07054-0225

SUBJECT:

Lysol Brand Disinfectant Direct Multi-Purpose Cleaner

EPA Registration Number: 777-66 Application Date: December 2, 2011 Receipt Date: December 5, 2011

Dear Ms. Pisculli:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable subject to the conditions listed below:

Label Update

# Conditions

Revise the label as follows:

- 1) Correct the first page of the label to indicate that this is page 1 of 30 total pages.
- 2) Please note that the in the fourth statement of the packaging claims section on page 2 the terms "Great" and "Super" may not be used alone as each would imply heightened efficacy. "Great" and "Super" may only be used in conjunction with the terms "Value," "Pack," "Refill," and "Size".
- 3) The following sections on page 9 must be relocated to the directions for use section of the label: Terminal Sterilant Statement-qualified metal surfaces, Terminal Sterilant Statement-unqualified metal surfaces, and the HIV directions for use. Each of these sections contains directions for use and thus

	must be place	G III that Secti	CONCURREN	CES		
SYMBOL 1510P						
SURNAME JOS						
DATE   2 28 12						
					OFFICE	AL FILE COP

EPA Form 1320-1A (1/90)

Printed on Recycled Paper

- 4) Make the following clarifications to page 7 in the sanitizing claims and supporting sanitizing claims sections. Revise to state: "Kills 99.9% of Staphylococcus aureus on hard, non-porous, non-food contact surfaces (in 30 seconds)", "Kills (Destroys) (Eliminates) 99.9% of household bacteria (commonly found in kitchens) (on hard, non-porous, non-food contact surfaces) in 30 seconds.\*\*\*", "Sanitizes (kitchen) (household) (bathroom) (restroom) (washroom) non-food contact surfaces in 30 seconds\*\*\*" and "Kills 99.9% of (Escherichia coli......(Streptococcus pyogenes) on hard non-porous non-food contact surfaces (in 30 seconds.)"
- 5) Delete the following two statements on page 8. Each either indicates that this product will disinfect, sanitize or kill germs while it cleans. This is incorrect as the disinfection or sanitization directions must be followed to eliminate antimicrobial pests. Thus delete the statements: "Disinfects (Deodorizes) (and Sanitizes) as it Cleans" and "Kills germs while it cleans." These are the 6<sup>th</sup> and 22<sup>nd</sup> statements.
- 6) Revise the contact time in the HIV section on page 9 to be in agreement with the last stamped label for this product by correcting to read "remain wet for 10 minutes."
- 7) Revise page 26 to include product use surfaces and sites (as per page 18) in the directions for use section.
- 8) Relocate and place in bold text the statement found on page 26: "Do not use on eating/cooking utensils, glasses/dishes or cookware." Such that this statement immediately precedes the directions "To Clean/Deodorize".

Should you wish to retain a reference to the company's website on your label, then please be aware that such a reference transforms the website into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p) (2) and then the website is subject to review by the Agency. If the website content is false or misleading, the product would be misbranded and its sale or distribution unlawful to sell or distribute under FIFRA section 12(a)(1)(E). In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Although EPA has not yet determined the extent to which it will routinely review company websites, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from claims approved through the registration process, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance.

The stamped accepted label has been made part of the record for your file.

# **General Comments**

A stamped copy of the accepted labeling is enclosed. Submit one (1) copy of your final printed labeling before distributing or selling the product bearing the revised labeling. Should you have any questions concerning this letter, please contact Tracy Lantz at (703) 308-6415.

Sincerely,

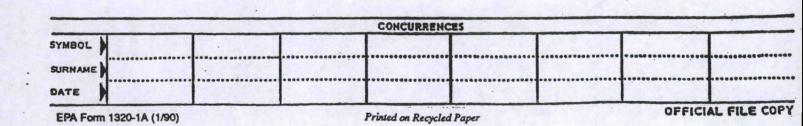

Velma Noble

Product Manager (31)

Regulatory Management Branch I Antimicrobials Division (7510P)

Leaves (household) (washroom) (restroom) surfaces (clean) (deodorized)

Leaves no (filmy) (sticky) residue

Leaves your (home) (house) (washroom) (restroom) (facility) smelling clean with a clean fresh scent

Leaves your kitchen and bathroom with a fresh, clean scent

Makes your (cleaning) job easier (in the) (kitchen) (bathroom) (restroom) (washroom) (household) (all over the house)

No streaking (or filming)

One step cleaning and sanitizing

Powers through your toughest cleaning jobs

Removes everyday stains in seconds

Removes tough stains the first time

Starts to work before you do

Tough on greasy soils

#### << USAGE CLAIMS >>

A disinfecting, effective (non-food contact surface) cleaner for use in the (kitchen) (bathroom) (washroom) (restroom) (and other household areas)

An effective (cleaner) (disinfectant) (sanitizer) on non-food contact surfaces in the {insert use sites 2 See pg. 18}

Easy to use - just mist and walk away

Effectively works on many hard, non-porous surfaces

Fast / Easy / Effective: Use (in) (on) (the) {insert use sites - See pg. 18}

For any hard, non-porous surface where germs are a concern

For everyday use

For multiple cleaning tasks

For use (in) (on) {insert use sites <u>— See pg. 18</u>} (as a multi-purpose disinfectant cleaner)

Good (for everyday cleaning) (and) (for your toughest household messes)

Good for most indoor cleaning tasks

Great for everyday use (in kitchens and) (bathrooms) (restrooms) (all over the house)

Great for (kitchens) (bathrooms) (most indoor cleaning tasks) (your toughest household messes)

(Ideal for) (great on) (can be used on) (effectively) (safely) (cleans) (and) (disinfects) (Finished wood) (sealed granite) (sealed marble) (and) (stainless steel)

Keep your (shower) (kitchen) (bathroom) (restroom) clean every day

Perfect for the kitchen (and) (bathroom) (restroom)

Use this product throughout your home to clean {insert use site / surface / soils - See pg. 18}

Use only one product to get a streak-free shine plus antibacterial action

Works on a wide range of (household) (kitchen) (bathroom) surfaces

# << Additional CLAIMS / USE DIRECTIONS – Specific to Professional Branded products Only >>

# << MARKETING CLAIMS >>

(This product) is a broad spectrum disinfectant (bactericidal) according to the AOAC Germicidal Spray Products test method.

(This product) is a combination cleaner / disinfectant that provides hospital disinfection on (washroom) (restroom) (and other) hard, non-porous surfaces.

(This product) is germicidal when used as directed for (disinfection) (and) (sanitization of non-food contact surfaces) but differs in composition from other LYSOL® brand products.

(This product) is a versatile and convenient disinfectant cleaner for most washable hard, non-porous surfaces.

(This product) is highly versatile and a convenient disinfectant cleaner that you use straight from the bottle.

We invite you to call us if you have any questions or comments on our products.

# << Terminal Sterilant Statement - qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

# << Terminal Sterilant Statement - unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enters normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

KILLS HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 [HIV-1 AIDS Virus] ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids; and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 [HIV-1] [associated with AIDS].

# SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Allow surface / object to remain wet for so seed

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Operate: Turn nozzle counter clockwise to preferred usage.

To Operate: Turn nozzle to ("ON") (desired) position

(To Operate:) To Open: Lift tab up, push back and press tab down to lock into open position.

To Close: Release tab from locked position, push tab down and snap closed.

To Refill (Bottle): Remove trigger sprayer. Pour in product from refill container and replace trigger.

To Refill (Bottle): Remove trigger unit from empty bottle and attach to new bottle.

<u>To Clean (/ Deodorize) (/Remove Allergens††):</u> Once automatic dispensing unit has applied product to (sponge) (cloth) (towel) wipe surface until thoroughly wet. Wipe with a clean cloth or sponge. No rinsing required.

To Clean (/ Deodorize) (/ Remove Allergens††): (Spray) (Apply to) surface until thoroughly wet. Wipe with a clean cloth or sponge. No rinsing required.

To Clean (Lime Scale) (Soap Scum) (and) (Greasy Soil): Allow product to sit to penetrate soil before wiping clean. Repeat if necessary.

To Sanitize / Disinfect: Pre-clean surface. (Spray) (Apply to) surface until thoroughly wet.

To Sanitize: Leave for 30 seconds before wiping. To Disinfect: Leave for 10 minutes before wiping. Rinse all food contact surfaces with water after use.

**To Control (and Prevent) (the Growth of) Mold & Mildew:** Apply to pre-cleaned surface. Let surface remain wet for 3 minutes and then allow to air dry. Repeat application at weekly intervals or when mold and mildew growth appears.

#### << Advisory Statements - must be included were appropriate >>

Do not use on (eating / cooking utensils, glasses / dishes or cookware) (unfinished, oiled or waxed wood floors) (outdoor patio furniture cushions and pillows).

Does not harm most (kitchen) (bathroom) surfaces.

On painted surfaces test a small inconspicuous area first.

Rinse bathtub / shower surfaces with water after using product.

This product is not recommended for use on (natural) (marble) (brass) (acrylic plastic) or (finished wood surfaces).

If the last portion (of this product) is difficult to dispense, turn trigger 180° to face opposite direction; this will ensure full use of its contents.

NOTE

Bracketed information is denoted as: << directive >>, { insert as noted }, ( optional text ), [ required qualifier ]. The term "this product" used throughout this document may be replaced with the marketed product brand name. To use the term "germ\*\*" the product must be efficacious against 2 of the 3 major classes of organisms. The product label must identify the specific bacteria, virus, fungus & mold.

The term 'x' is a place holder for a number between 1 to 99.

Amended: Page No.: 12-02-2011 11 of 22

# << LYSOL® AUTOMATIC DISPENSING UNIT - Includes: Dispenser, (product name) Refill and 4 AA batteries >>

# Assembly:

1. Open battery door (as shown) then insert 4 AA batteries (included).

Close battery door, pressing firmly on the tab to ensure it is fully closed.

3. Remove seal from (product name) refill.

Insert (product name) refill into the dispenser until you hear it CLICK into place.

5. Place dispenser on the counter (where you will use it).

- Turn unit ON using the ON/OFF switch on the back of the dispenser.
- 7. Wait until the RED indicator light at the front stops blinking. Dispenser is now ready for use.

#### To Use:

Place (sponge) (cloth) (towel) underneath the nozzle. Ensure (sponge) (cloth) (towel) is placed between the nozzle and the indicator light. You may need to move (sponge) (cloth) (towel) under nozzle several times before first dispense. The dispenser will automatically dispense just the right amount of product on your (sponge) (cloth) (towel).

# Replacing the Refill:

Turn OFF the dispenser by using the ON/OFF switch. Press the EJECT button at the back of dispenser and remove the empty bottle. Replace only with (this product) refill. Be sure to remove the seal from (the) refill cap before use.

# Replacing the Batteries:

When the batteries have run out, the RED indicator light will flash 6 times. For best results, replace with a new set of 4 AA alkaline batteries.

# Maintaining Your Dispenser:

- DO NOT place the dispenser in standing water, under running water or inside the dishwasher. If you do so, the unit
  may no longer function.
- If the dispenser requires cleaning, switch unit OFF, then wipe dispenser with a damp non-abrasive cloth and dry thoroughly.
- Ensure lens on underside of nozzle is free from product build-up as this may unintentionally activate sensor.
- DO NOT place the dispenser in direct sunlight.

#### Troubleshooting:

- If the dispenser does not turn ON:
  - Check that the batteries are inserted in the correct orientation.
  - If the batteries are inserted correctly, the light in front of the dispenser will flash for a few seconds and stop when it is switched ON and ready for use.
- 2. If the dispenser does not dispense properly OR does not dispense any product at all:
  - Ensure (sponge) (cloth) (towel) is placed between the nozzle and the indicator light (see diagram).
  - Switch dispenser to OFF. Clean as described in the section 'Maintaining Your Dispenser'.
  - Check to see if dispenser is standing in water. If so, the unit may no longer function; however, try removing the battery door, wiping and drying the interior thoroughly, then re-inserting the batteries.
- 3. If product is dispensing unintentionally, see 'Maintaining Your Dispenser'.

# IMPORTANT:

- DO NOT hold the dispenser from the front middle while it is switched ON; as this will activate the sensor and product will be dispensed onto your hand.
- Before cleaning your counter where the dispenser has been placed, turn the dispenser OFF before moving to prevent product from accidentally dispensing.
- Use only (product name) refills in the dispenser.
- Contains batteries. Do not reuse batteries. Batteries contain 0% Mercury / 0% Lead / 0% Cadmium.

(Optional graphics - See pg. 21)
