Subject: PRIA Label Amendment – Add human rotavirus and norovirus efficacy data with the addition of efficacy claims
Product Name: Lysol Brand Disinfectant Direct Multi-Purpose Cleaner
EPA Registration Number: 777-66
Received Date: July 29, 2021
Action Case Number: 00314081

Dear Ms. Turner:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

EPA Reg. No. 777-66
Action Case No.: 00314081

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Karen M. Leavy by phone at (202)-566-0668, or via email at Leavy.Karen@epa.gov.

<< EMERGING VIRAL PATHOGENS CLAIMS – Hard, non-porous surface – TRIGGERS >>

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

For an emerging viral pathogen that is a/an...	...following the directions for use for the following organisms on the label:
Enveloped virus	Norovirus*
Large, non-enveloped virus	Norovirus*

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
 The term "this product" used throughout this document may be replaced with the marketed product brand name.
 For disinfection and sanitization the text "hard, non-porous surface(s)" will be disclosed in the use direction or in the claims.
 To use the term "germ**" the product must be efficacious against 2 of the 3 major classes of organisms.
 The product label must identify the specific bacteria, virus, fungus & mold.
 The term "X" is a placeholder that represents a number between 1 and 99.
 The term "x" is a symbol to represent "times"
 The term "Y" is a place holder for a character A – Z.
 The text "hard, non-porous surface(s)" and the appropriate contact time will be disclosed in the use directions or in the claims where relevant as indicated by the directives
 Dye and fragrance fee claims can only be used on dye and fragrance free formulas.

*Follow instructions for disinfection for a 10-minute contact time

{Product name} has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, [non-porous surfaces]. Therefore, {product name} can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, non-porous surfaces]. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness / outbreak] is caused by [name of emerging virus]. {Product name} kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, non-porous surfaces]. Refer to the [CDC or OIE] website at [website address] for additional information.
