

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

DEC 19 2002

Mr. Bruce Paolella
Reckitt Benckiser, Inc.
1655 Valley Road
Wayne, NJ 07474-0943

Subject: Lysol Brand Pre-Moistened Bathroom Touch-Up Disinfectant Wipes
EPA Registration No. 777-68
Amendment Date: September 17, 2002
EPA Receipt Date: September 23, 2002

Dear Mr. Paolella,

The following amendment submitted in connection with registration under FIFRA section 3(c)(7)(A) is acceptable with the following conditions.

- Response to Agency letter dated March 14, 2002

Data

The data, MRID Nos. 543676-03, 543676-05, and 543676-06 submitted support a sanitizer claim against *Campylobacter jejuni*, *Escherichia coli*, and *Salmonella choleraesuis* was re-evaluated and determined to be acceptable.

According the Agency letter dated September 12, 2002, this product does not support a disinfection or sanitization claim for use on floors. Delete all references to this product's use on floors which appear on pages 1, 3, 5, 6, and 7.

Conditions

Revise the label as follows:

1. The active ingredient's carbon chain must be revised by stating "10% C16" not 10% C12.
2. Page 2, 2nd bullet: Remove the parentheses from around "bacteria."
3. Page 2, 7th bullet: Remove the parentheses from around "*Salmonella choleraesuis*" and place it around Salmonella.

CONCURRENCES

SYMBOL							
SURNAME							
DATE							

4. Pages 5 and 6: Revise the four different “Sanitize and Disinfect” directions to state “Use enough towelettes so that the surfaces remain wet to meet the applicable contact time.” The directions must direct consumers to allow the surfaces to air dry. Also, the “heavily soiled” statement must be revised to state “*For heavily soiled surfaces, preclean surfaces using a fresh towelette.*”
5. Page 5: Revise the second sentence in the second paragraph under the “to disinfect” directions by stating “*Kills Staphylococcus aureus, Salmonella choleraesuis, Pseudomonas aeruginosa, Enterococcus faecalis bacteria and Influenza A2 and Herpes Simplex Type 1 viruses.*”
6. Page 6: Bold the statement, “Special Instructions for Cleaning and Decontamination Against HIV-1 of Surfaces/Objects Soiled with Blood/Body Fluids.”
7. Page 7: Revisions to the Additional Cleaning and Disinfecting Claims section
 - a. Delete the first claim, “helps prevent the spread of flu and/or common cold.” These types of disinfectant products are used to control cross contamination on treated hard, nonporous surfaces not to serve as a product for disease prevention. This type of claim is beyond EPA’s jurisdiction.
 - b. Revise the 15th claim to state “Kills odor causing bacteria.” (it appears on page 8 of the submitted label.)
8. Page 8: Plumbing Safety Claim Revisions
 - a. The first two bullets must be revised by deleting “safe” and replacing it with “Will not harm.”
 - b. The last two claims that this product contains biodegradable material is unacceptable. It infers that the entire formulation is biodegradable in which data has not been submitted to support the claim as well as the Agency does not have the resources available to make that type of determination. You may continue to claim that the wipe may be flushed down the toilet; however, you cannot make a biodegradable claim.

General Comments

A stamped copy of the labeling accepted with conditions is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

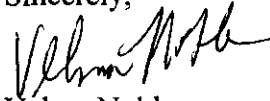

Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

3 7 12

If the above conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

Should you have any questions or comments concerning this letter, please contact Jacqueline McFarlane at (703) 308-6416.

Sincerely,

Velma Noble

Effective disinfecting (sanitizing) has never been faster or easier. Unplug small electrical appliances before (use) (cleaning) (disinfecting) (with this product). Not recommended for polished or bare wood surfaces.

(Product Name) will remove light dirt and grime from most hard surfaces. It is not intended for use on wood, stone, or other delicate surfaces. To dry dirt and disinfect surfaces, spray (Product Name) on the surface to be cleaned. Allow to sit for 30 seconds. Then wipe with a clean cloth. For a more thorough cleaning, use a scrub brush. For a more thorough cleaning, use a scrub brush. For a more thorough cleaning, use a scrub brush.

Directions for Use: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Pull up tab and remove large cover. Remove inner tab loop from cover hinge. Insert loop into opening. Thread first sheet in center of roll through loop. Replace cover. Pull loop back through opening. Pull each sheet up and slightly to the side. Always snap lid securely shut between uses to prevent moisture loss.

Peel back the front label slowly. Remove towelette as needed. Reseal pouch by firmly running thumb over the label.

(OR)

Peel back resealable label and remove one (Product Name) from its package. Reseal pouch to avoid moisture loss. Wipe the surface with the wipe. Wipe the surface with the wipe. Wipe the surface with the wipe. Wipe the surface with the wipe. Wipe the surface with the wipe.

(OR)

Open pouch by peeling back the seal. Remove one Lysol Brand pre-Moistened Bathroom Touch-Ups Disinfecting Wipe and reseal pouch to avoid moisture loss. Use abrasive side for tougher soils and soft side for light duty cleaning. Throw away soiled wipe when done.

TO CLEAN HARD SURFACES (INCLUDING TOILET SEATS): Use a fresh towelette to wipe surface. Toss dirty wipe away.

TO SANITIZE Non-Food Contact SURFACES (INCLUDING TOILET SEATS): Use a fresh towelette to thoroughly wet surface. Allow surface to remain wet for 30 seconds. (Allow to air dry.) For heavily soiled surfaces, repeat sanitizing directions.

Not intended for personal hygiene.

TO (CLEAN) (AND) (DISINFECT TOILET SEAT) (OTHER BATHROOM SURFACES): Use a fresh towelette to thoroughly wet surface(s), (toilet seat) (surface). Allow surface to remain wet for 10 minutes. To disinfect heavily soiled surfaces, repeat with a clean towelette.

Lysol Brand Pre-Moistened Bathroom Touch-Ups Disinfecting Cleaning Wipes meets efficacy standards for (hospital type) disinfectant (sanitizing) wipes. Kills Influenza A2 and Herpes Simplex Type 1 viruses and Enterococcus (streptococcus) faecalis germs. Inhibits mold and mildew in damp and musty places.

Veterinary Practice/Kennels/Animal Care Facilities: For disinfecting hard, non-porous surfaces including equipment, utensils, cages, kennels, instruments etc. Remove all animals and feeds from the premises, crates, cages, and enclosures. Remove all litter, droppings, and manure from floors, walls, and surfaces occupied or traversed by animals. Empty all troughs, racks and other feeding/watering appliances. Thoroughly clean surfaces with soap or detergent and rinse with water. Saturate surfaces and allow to stand 10 minutes. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set, and dried. Thoroughly scrub all treated feed racks, automatic feeders, and watering appliances with soap or detergent, and rinse with portable water before use. *Not recommended for glass, mirrors, polished or bare wood surfaces.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May cause eye irritation. Avoid contact with eyes. Wash hands after use.

First Aid: In case of eye contact, IMMEDIATELY flush eyes thoroughly with water, remove any contact lens, and continue to flush eyes with plenty of water for at least 15 minutes. Call physician if irritation persists.

Storage /Disposal: Dispose of wipe in trash after use. Close lid between uses to retain moisture. Do not reuse empty container. Offer empty container for recycling. If recycling is not available, discard container in trash.

(OR)

Store unopened package in a cool dry place in areas inaccessible to small children. Dispose of wipe in trash after use. Reseal (Close) lid between uses to retain moisture. Do not reuse empty container. Discard in trash.
