Subject: **Lysol Brand Pre-Moistened Touch-Ups Disinfection Cleaning Wipes**
EPA Registration Number 777-68
Letter Dated October 28, 2005

Dear: Ms. Pisculli:

The following amendments, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, are acceptable with comments.

Proposed Labeling

- update labeling

Label Comment:

1. Page 4, under the heading 99.9% of Germs delete the phrase "sanitizing use".
2. The Agency has determined that a sanitizing claim against viruses is unacceptable. Therefore, a germs claim in association with sanitizing is unacceptable. You must either change the contact time to "10 minutes" or delete "germs".
 - A. Kills (Eliminates) 99.9% of germs on hard, non-porous surfaces delete "in seconds"
 - B. Kills (Eliminates) 99.9% of germs on hard, non-porous surfaces delete "in 30 seconds"
 - C. Kills (Eliminates) 99.9% (of) germs in delete "30 seconds"

CONCURRENCES

SYMBOL								
SURNAME								
DATE								

D. Kills (Eliminates) 99.9% germs on hard, non-porous surfaces delete "in seconds"

Delete "30 seconds" is all it takes to kill 99.9% of germs

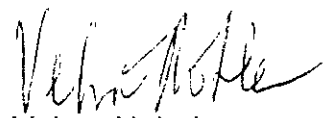

- 3. Page 5, revise the second claim (cleans) (controls) (kills) (and) (prevents) mold and mildew by deleting the word "prevents".
- 4. Page 7, delete the statement "Help protect your family from cross-contamination of germs (on hard, non-porous surfaces) with Lysol Brand Disinfectant products). The Agency contends that the phrase, "Help protects the family" is misleading because it implies that the product offers health protection against germs. This type of claim is beyond the Agency's jurisdiction and the scope of this product's registration as a disinfectant that kills viruses and bacteria on hard nonporous surfaces. Alternatively, you may claim that "Lysol brand Disinfectant products aid in the reduction of cross contamination of germs on hard, non-porous surfaces.
- 5. Page 6, Under the Direction For Use: revise the 13th claim, " To Control and Prevent" by deleting the word "Prevent".

General Comments:

A stamped copy of the acceptable labeling is enclosed. Submit one (1) copy of your final printed labeling before distributing or selling the product bearing the revised labeling.
