Parsippany, NJ 07054-0225

Subject: Label Amendment: To add Emerging Pathogen Language, Revise and Add Marketing Claims  
Product Name: Lysol Brand Fresh Scent Cling Thick Liquid Disinfectant Toilet Bowl Cleaner  
EPA Registration Number: 777-70  
Application Date: May 23, 2017  
Decision Number: 529920

Dear Ms. Turner:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), [https://www.epa.gov/sites/production/files/2016-09/documents/emerging\\_viral\\_pathogen\\_program\\_guidance\\_final\\_8\\_19\\_16\\_001\\_0.pdf](https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf), you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer

information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
  - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
    - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
      - A. CDC Current Outbreak List for “U.S. Based Outbreaks” ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)),
      - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)) (also released through the CDC’s Health Alert Network (HAN) notification process)
      - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page ([www.cdc.gov/hai/outbreaks](http://www.cdc.gov/hai/outbreaks))
    - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page ([www.oie.int/wahis\\_2/public/wahid.php/Diseaseinformation/WI](http://www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI)).
      - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is enveloped.
      - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the

contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Rotavirus is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Karen M. Leavy at (703)-308-6237 or via email at [Leavy.Karen@epa.gov](mailto:Leavy.Karen@epa.gov).

Sincerely,

Eric Miederhoff

**<< USE DIRECTIONS >>**

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using product.

**To Open Child Resistant Cap:** Hold bottle firmly with one hand on a flat surface. With other hand, squeeze sides of cap where indicated while turning counterclockwise. Do not remove cap. **Avoid squeezing bottle when opening.** To reseal, twist cap clockwise until tightly closed.

**<< Optional Side panel pictogram – can only be used in conjunction with required back panel instructions >>**

**<< Non-removable Pictogram text >>**

**To Open Child Resistant Cap:**

1. Place fingers on marked cap ridges.
2. Squeeze cap firmly and turn counterclockwise until it stops. **Do not remove cap.**
3. To reseal, squeeze cap again and turn clockwise.  
**DO NOT** squeeze bottle when opening.

**To Clean / Disinfect (/ Sanitize) (and Remove Allergens†):**

1. Flush toilet before cleaning.
2. Apply 4 (fl.) oz. to coat the bowl including under the rim. **Do not close lid.**
3. **To Clean:** Scrub entire bowl and under rim thoroughly.  
**Disinfect:** Let sit for 15 minutes. (**Sanitize:** Let sit for 30 seconds.)  
Then flush.
- (4. Rinse brush in fresh water after use.)  
(Repeat if needed.)

The term "Y" is a place holder for a character A – Z.

## &lt;&lt; PRECAUTIONARY / FIRST AID / CHEMICAL HAZARD / STORAGE &amp; DISPOSAL INSTRUCTIONS &gt;&gt;

**PRECAUTIONARY STATEMENTS:** Hazards to Humans and Domestic Animals

**WARNING:** Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear such as goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

## &lt;&lt; NOTE: First Aid statement may not appear in either box format or paragraph format &gt;&gt;

<b>FIRST AID</b>	
<b>If in Eyes</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a Poison Control Center or doctor for treatment advice.</li> </ul>
<b>CONTACT NUMBER</b>	
<p>Questions? Comments or In case of an emergency call toll free (1-800-228-4722) (1-800-677-9218) (1-xxx-xxx-xxxx). Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.</p>	

**PHYSICAL AND CHEMICAL HAZARD:** Never use with Chlorine Bleach or any other chemical product.

## &lt;&lt; STORAGE &amp; DISPOSAL – Residential containers &gt;&gt;

**STORAGE AND DISPOSAL:**

**STORAGE:** Store in original container, in a cool, well-ventilated area, inaccessible to small children. Keep securely closed.

**PESTICIDE DISPOSAL:** To avoid waste, use all material in this container according to label directions.

**CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions.

## &lt;&lt; STORAGE &amp; DISPOSAL – Commercial / Institutional / Industrial containers &gt;&gt;

(NOTE: Residue removal statement is not applicable for this container because it has a CRC plug making it inherently non-refillable.)

**STORAGE AND DISPOSAL:**

Do not contaminate water, food, or feed by storage and disposal.

**STORAGE:** Store in original container in a cool, well-ventilated area, inaccessible to children. Keep securely closed.

**PESTICIDE DISPOSAL:** Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to the label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. (To avoid waste, use all material in this container according to label directions.) If empty: Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions.

**Note:** Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier].  
 The term "this product" used throughout this document may be replaced with the marketed product brand name.  
 To use the term "germ\*\*" the product must be efficacious against 2 of the 3 major classes of organisms.  
 The product label must identify the specific bacteria\*, virus\*, fungus\* & mold\*.  
 The term ( x ) is a placeholder that represents a number between 1 and 99.  
 The term "Y" is a place holder for a character A – Z.

The term ( x ) is a placeholder that represents a number between 1 and 99.  
The term "Y" is a place holder for a character A – Z.

<< APPENDIX 1 >>

<< SUPPORTING CLAIM QUALIFIERS – must appear before ‘Directions For Use’ on Back Panel label >>

(∞) (10X More Clinging) vs (Lysol with Hydrogen Peroxide Multi-Purpose Cleaner) (∞∞) (Insert Lysol brand name)  
 (∞∞) (Z) X (MORE) (CLINGING) (GEL) (FRAGRANCE) (FRESHNESS) (POWER)

<< SUPPORTING ALLERGEN REMOVAL CLAIM QUALIFIER >>

†† This product removes the following allergens: (cat dander) (cockroach debris) (cockroach matter) (cockroach particles) (dog dander) (dust mite debris) (dust mite matter) (dust mite particles) (pet dander) (pet hair allergens) (and) (pollen particles).

<< SUPPORTING SANITIZING CLAIM QUALIFIER >>

\*\*\* Kills 99.9% of (Enterobacter aerogenes) (and) (Staphylococcus aureus) on hard, non-porous surfaces in 30 seconds.

<< SUPPORTING DISINFECTING CLAIM QUALIFIERS >>

- \* Kills (Salmonella enterica ) (and) (Staphylococcus aureus) (on hard, non-porous surfaces) (in 15 minutes)
- \*\* Kills (Salmonella enterica ) (Staphylococcus aureus) (Rotavirus WA) ((Swine) Influenza A (H1N1) Virus) (on hard, non-porous surfaces) (in 15 minutes).
- \*\* Kills (household) germs: (Salmonella enterica) (Staphylococcus aureus) and (Rotavirus WA) ((Swine) Influenza A (H1N1) Virus) (on hard, non-porous surfaces) (in 15 minutes).
- † Kills (Rotavirus WA) (and) ((Swine) Influenza A (H1N1) Virus) (on hard, non- porous surfaces) (in 15 minutes)

This product has been test and found effective against the following micro-organisms:

Bacteria & Virus			
<< Disinfection – Hard, non-porous surfaces >>			
Bacteria (15 minutes)	(ATCC No.)	Viruses (10 minutes)	(ATCC No.)
Salmonella enterica	(10708)	(Swine) Influenza A (H1N1) Virus	(VR-333)
Staphylococcus aureus	(6538)		
		Viruses (30 seconds)	(ATCC No.)
		Rotavirus WA	(VR-2018)
<< Sanitization – Hard, non-porous, non-food contact surfaces >>			
Bacteria (30-seconds)	(ATCC No.)		
Enterobacter aerogenes	(13048)		
Staphylococcus aureus	(6538)		
<u>Symbol Designation – used on product labels</u>			
Single asterisk ( * )	Bacteria *	Used for identifying disinfection against specific bacteria	
Dagger ( † )	Viruses †	Used for identifying disinfection against specific viruses	
Double asterisk ( ** )	Germs **	Used for identifying disinfection against specific bacteria & viruses / fungi	
Triple asterisk ( *** )	Sanitizes ***	Used for identifying sanitization against specific bacteria	
Double dagger ( †† )	Allergens ††	Used for identifying the removal of specific non-living allergens	

**Note:** Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier].  
 The term “this product” used throughout this document may be replaced with the marketed product brand name.  
 To use the term “germ\*\*” the product must be efficacious against 2 of the 3 major classes of organisms.  
 The product label must identify the specific bacteria\*, virus\*, fungus\* & mold\*.  
 The term ( x ) is a placeholder that represents a number between 1 and 99.  
 The term “Y” is a place holder for a character A – Z.

<< APPENDIX 2 >>

<< USE SITE / SURFACES / SOILS - May be listed on product label in the singular / plural form >>

**Hard, non-porous use sites: (Graphic – depicting site)**

Day Care Centers	Institutions	Restaurants
Homes / Households	Laboratories	Schools
Hotels / Motels	Office Buildings	

**Hard, non-porous surfaces: (Graphic – depicting site)**

Bidets	Glazed Porcelain
Toilets	Vitreous china
Urinals	

**Soils:**

Hard Water	Organic Soil	Build-up
Lime	Rust	Deposits
Lime scale	Toilet Rings	Stains
Mineral		

**Non-Living Allergens††:**

Cat dander	Dog dander	Pet dander
Cockroach debris	Dust mite debris	Pet hair allergens
Cockroach matter	Dust mite matter	Pollen particles
Cockroach particles	Dust mite particles	

**Note:** Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier].  
 The term “this product” used throughout this document may be replaced with the marketed product brand name.  
 To use the term “germ\*\*” the product must be efficacious against 2 of the 3 major classes of organisms.  
 The product label must identify the specific bacteria\*, virus\*, fungus\* & mold\*.  
 The term ( x ) is a placeholder that represents a number between 1 and 99.  
 The term “Y” is a place holder for a character A – Z.

<< APPENDIX 3 >>

<< EMERGING VIRAL PATHOGENS >>

This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category:  
 - Enveloped Viruses

<b>For an emerging viral pathogen that is a/an...</b>	<b>...following the directions for use for the following organisms on the label:</b>
Enveloped virus	Rotavirus WA

**[Product name]** has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on **[porous and/or non-porous surfaces]**. Therefore, **[product name]** can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, porous/non-porous surfaces]**. Refer to the [CDC or OIE] website at **[pathogen-specific website address]** for additional information.

**[Name of illness / outbreak]** is caused by **[name of emerging virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, porous / non-porous surfaces]**. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

**Note:** Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier].  
 The term “this product” used throughout this document may be replaced with the marketed product brand name.  
 To use the term “germ\*\*” the product must be efficacious against 2 of the 3 major classes of organisms.  
 The product label must identify the specific bacteria\*, virus\*, fungus\* & mold\*.  
 The term ( x ) is a placeholder that represents a number between 1 and 99.  
 The term “Y” is a place holder for a character A – Z.
