Subject: Label Amendment – Add discharge use directions and marketing claims
Product Name: Lysol Brand Disinfectant Bleach Plus
EPA Registration Number: 777-83
Application Date: March 1, 2019
Decision Number: 560311

Dear Ms. DeCarlo:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

EPA Reg. No. 777-83
Decision No. 560311

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Wanda Henson by phone at (703) 308-6345 or via email at henson.wanda@epa.gov

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply Carefully - Contains Bleach

Avoid contact with clothes, fabric, wood, rubber, carpet, painted / paper surfaces, non-porous vinyl surfaces, and finished floors. Rinse immediately after use on metal to avoid pitting or discoloration. Prolonged contact with metal, old porcelain, plastic laminate and marble may cause discoloration.

To Operate: Turn nozzle counter clockwise to preferred usage.

To Operate: Turn nozzle to (“ON”) (desired) position.

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
The term “*this product*” used throughout this document may be replaced with the marketed product brand name.
To use the term “germ**” the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus & mold.
The term ‘x’ is a place holder for a number between 1 to 99.
The term “Y” is a place holder for a character A – Z.

(To Operate:) To Open: Lift tab up, push back and press tab down to lock into open position.
To Close: Release tab from locked position, push tab down and snap closed.

To Refill (Bottle): Remove trigger sprayer. Pour in product from refill container and replace trigger.

To Refill (Bottle): Remove trigger unit from empty bottle and attach to new bottle.

To Clean (/ Deodorize) (/ Remove Allergens††): (Spray) (Apply to) surface until thoroughly wet. Wipe with a clean cloth or sponge and then rinse.

To Clean (Lime Scale) (Soap Scum) (and) (Greasy Soil): Allow product to sit 15-20 seconds to penetrate soil before wiping clean. Repeat if necessary.

To Sanitize / Disinfect: Pre-clean surface. (Spray) (Apply to) surface until thoroughly wet.

To Sanitize: Leave for 30 seconds before wiping. **To Disinfect:** Leave for 5 minutes before wiping. (For (Duck Hepatitis B Virus (DHBV)), (Human Immunodeficiency Virus Type 1), (Norovirus), (Rhinovirus Type 39 (common cold)), and (Rotavirus WA (infectious diarrhea)) leave for 30 seconds (to disinfect).)

⁽²⁾ Rinse all food contact surfaces with water after use. If the vapors bother you, leave the room while the product is working.

Kills Mold & Mildew: Apply to pre-cleaned surface. Let surface remain wet for 5 minutes and then allow to air dry. Repeat application at weekly intervals or when mold and mildew growth appears.

To Clean No-wax Floors: Mix 1 cup [8 fl. oz.] of product per 1 gallon of water; mop until clean. Rinse for the best shine.

{Note to Reviewer: The following Directions will be required only if adding Fountain Uses to the Market label}

Discharge Directions for [Commercial] and [Residential] Fountain Uses

Before draining a treated fountain contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated fountain water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

<< EMERGING VIRAL PATHOGENS CLAIMS >>

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses
- Small Non-Enveloped Viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Rhinovirus Type 39 Norovirus
Large, non-enveloped virus	Rhinovirus Type 39 Norovirus
Small, non-enveloped virus	Rhinovirus Type 39 Norovirus

[Product name] has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on hard, **[porous and/or non-porous surfaces]**. Therefore, **[product name]** can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, porous/non-porous surfaces]**. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

[Name of illness/outbreak] is caused by **[name of emerging virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, porous/non-porous surfaces]**. Refer to the **[CDC or OIE]** website at **[website address]** for additional information."
