

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

AUG 8 2005

Ms. Mary Pisculli
Reckitt Benckiser
Morris Corporate Center IV
399 Interpace Parkway
Parsippany, NJ 07054-0225

Subject: Lysol Brand All Purpose Cleaner
EPA Registration No. 777-89
Amendment Date: May 9, 2004
EPA Receipt Date: May 10, 2005

Dear Ms. Pisculli,

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable with the conditions listed below.

- Response to Agency letter dated February 10, 2005

Conditions

Revise the label as follows:

1. Page 2: Delete the 17th claim, "Help protect you family from germs with Lysol Brand Disinfectant Products." The Agency contends that this claim is misleading because it implies that the product offers health protection against germs. This type of claim is beyond the Agency's jurisdiction and the scope of this product's registration as a disinfectant that kills viruses and bacteria on hard nonporous surfaces.
2. Page 2: The 39th claim uses a number of symbol designations for bacteria, virus, and germs, yet the label does not contain a page that describes what the symbol designations reference. Revise page 8 by adding the appropriate symbol designations to the appropriate claim.
3. Page 4: The Agency's germ policy is for disinfectant products that demonstrate effectiveness against bacteria, viruses and/or pathogenic fungi. The performance standard and protocol to support a sanitizing claim only tests bacteria. Therefore, a germs claim in association with sanitization is unacceptable. You must delete "germs**" and replace it with "bacteria."

CONCURRENCES

SYMBOL								
SURNAME								
DATE								

4. Page 5 and 8: Based on a review of the data on file for this product, the Agency feels that the following claims must be deleted "Fungistat, Fungistatic, and fungi" and state "Mildewstat, Mildewstatic, and mold and mildew."
5. Page 5: The claims, "prevents the growth of mold and mildew" or "prevents mold and mildew" are unacceptable because it implies that the product is offering residual activity. The term, prevent, means to "stop or prohibit" the growth of mold and mildew. However, the directions indicate "Re-application when necessary." Also, the data indicates that the product "controls" the growth of mold and mildew but does not "kill" mold and mildew.
6. Page 5, 11th claim: Revise the term, bold, to read "mold."
7. Page 10: Under the HIV Type I instructions, revise the contact time to state "Allow surfaces/object(s) to remain wet for 30 seconds for HIV-1. Use a 10 minute contact time for disinfection against other bacteria, viruses, and mold and mildew listed on this label."

General Comments

A stamped copy of the labeling accepted with conditions is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Jacqueline McFarlane at (703) 308-6416.

Sincerely,

Velma Noble
 Product Manager (31)
 Regulatory Management Branch I
 Antimicrobials Division (7510C)

All Purpose Cleaner

An effective (cleaner) (disinfectant) (sanitizer) on non-food contact surfaces in the {insert use sites}.

Antibacterial Action

Contains no (phosphates) (abrasives) (bleach) (or harsh acids)

Dilutable

Easy to use

Easy pour (bottle) (container)

Economy (Great) (Mega) (Super) (Trial) (Value) (Size)

Encourage your local authorities to establish a program to recycle this (bottle) (container).

Fast / Easy / Effective: Use (in) (on) (the) {insert use sites}

(Formulated) For (Hospital) (Institutional) Use

For a cleaner, fresher household

For any surface where germs are a concern

For use (in) (on) {insert use sites} (as a multi-purpose disinfectant cleaner).

Formulated for medical institution's (infection control program) needs.

Great for (kitchens) (bathrooms) (most indoor and outdoor cleaning tasks) (your toughest household messes)

Hospital type disinfection (even when diluted) (in dilution).

Important facts (about this product):

Leaves (household) surfaces (clean) (deodorized).

Leaves a fresh, clean scent.

Leaves no sticky residue

Leaves your (home) (house) smelling clean with a clean fresh scent.

Makes xx buckets of (cleaning) (disinfecting) (and) (sanitizing) solution.

Makes xx gallons

Makes cleaning easier (in the) (kitchen) (bathroom) (household) (all over the house)

(Mild) (Clean) (Pleasant) (Long Lasting) (Fragrance) (Scent)

Multi-(purpose) (surface) (cleaner) (disinfectant) (sanitizer)

No streaking (or filming)

Non-abrasive formula (will not scratch surfaces)

Ready to use / Concentrated (can be used in dilution)

The most (powerful) (effective) all purpose cleaner you can buy.

This (bottle) (container) is made of x% post-consumer recycled plastic.

Use full strength or (diluted) (in dilution) (diluted in water).

Versatile (- works on a wide range of hard, non-porous surfaces.)

Will not harm septic systems.

(This product) is germicidal when used as directed for (disinfection) (and) (sanitization of non-food contact surfaces) but differs in composition from other LYSOL[®] brand products.

(This product) is part of a system of infection control products provided by Reckitt Benckiser, Inc. Now, more than ever, infection control is a major concern of yours, your staff and patients. People respect the LYSOL[®] name, recognize LYSOL[®] for providing quality and trusted surface cleaning and disinfection, and gain the added benefit of a clean-smelling, sanitary environment. (We invite you to call us if you have any questions or comments on our products.)

Antibacterial Action / Kills (Household) Germs**: This product has (antibacterial) (disinfecting) action and kills viruses* and bacteria* (even odor-causing germs**) on environmental surfaces (in your home) (in public places).

<< Back Panel - Use directions – IMPORTANT: Advisory statements must be included were appropriate >>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Cleaning (Deodorizing): Dilute ¼ cup [2 oz.] per gallon of warm water. Or use full strength and rinse thoroughly.

Sanitization: For non-food contact surfaces: use full strength or (dilute) 2.2 oz. per gallon of warm water. Wet all surfaces thoroughly. Let stand for 60 seconds then remove excess.

Sanitization / Disinfection: If surfaces are visibly dirty, clean first (with this product) (according to General Cleaning (Deodorizing) directions). Apply with sponge or mop (or autoscrubber) to wet all surfaces thoroughly. Rinse all food preparation areas with water. Prepare a fresh bucket of solution every time you clean or more often as needed. **Sanitization:** For non-food contact surfaces use full strength or dilute 2.2 oz per gallon of warm water. Let stand for (1 minute) (60 seconds) then remove excess. **Disinfection:** Use full strength or dilute 8.5 oz per gallon of warm water. Let stand for 10 minutes then remove excess.

Disinfection (Disinfecting): Dilute 8.5 oz. per gallon of warm water or use full strength. Wet all surfaces thoroughly. Let stand for 10 minutes then remove excess.

To Disinfect Toilet Bowl: Flush and then add 6 oz full strength into the bowl water. Thoroughly swab all bowl surfaces and under the rim. Let stand for 10 minutes and then flush again.

To Control Mold & Mildew: Use as directed for Disinfection. Repeat application when necessary.

<< Advisory Statements >>

On painted surfaces test a small inconspicuous area first.
Do not use on unfinished, oiled or waxed wood floors.
Rinse all food contact surfaces thoroughly with potable water before reusing surface.
Do not use on eating / cooking utensils, glasses / dishes or cookware.
Rinse thoroughly with potable (clean) water after disinfecting food contact surfaces.
Do not use on outdoor patio furniture cushions and pillows.

9/13

<< Hoover® Automatic Floor Machine / Lysol® Floor Cleaner directions >>

General Cleaning: For use on hard non-porous floors. Add 2.2 oz of (this product) to 30 oz of water to make 32.2 oz of cleaning / disinfecting solution. Apply (with Hoover® Floor Mate™ machine) (according to Hoover® Floor Mate™ instructions). Sanitization*: Let stand for 60 seconds. Disinfection: Let stand for 10 minutes, then remove excess. Prepare a fresh solution every time you clean or more often as needed. For heavily soiled floors, clean before sanitizing and disinfecting. **DO NOT USE ON UNFINISHED, OILED OR WAXED WOOD FLOORS. DO NOT USE WITH HOOVER® STEAM VAC™ OR OTHER CARPET EXTRACTORS.**

*Kills 99.9% of Staphylococcus aureus on hard, non-porous surfaces in 60 seconds.

<< Hoover® Automatic Floor Machine / Lysol® Floor Cleaner Marketing Claims >>

Where to Use: Great for use on a variety of flooring including hard, non-porous floor surfaces such as (plastic laminate, vinyl & glazed ceramic tile) and limited to floor surfaces listed on label.

Cleans & Disinfects

For use with Hoover® Floor Mate™ Hard Floor Cleaner

Removes tough stains

<< Back Panel - IMPORTANT: The following is required for professional products making claims against: >>

<< Human Immunodeficiency Virus Type 1 [HIV-1] [AIDS Virus] >>

KILLS HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 [HIV-1] [AIDS Virus] ON PRECLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids; and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV-1 [associated with AIDS].

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks or eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Allow surface / object to remain wet for 30 seconds.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

<< Terminal Sterilant Statement – qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

<< Terminal Sterilant Statement – unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that ⁽¹⁾ is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or ⁽²⁾ contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enters normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

<< Animal Care Facilities >>

For Use in Veterinary Clinics, Animal Care and Animal Laboratories: For cleaning and disinfecting the following hard, non-porous surfaces: equipment, utensils, instruments, cages, kennels, etc. Remove all animals and feeds from the premises, crates, cages and enclosures. Remove all litter, droppings and manure from floors, walls and surfaces occupied or traversed by animals. Empty all troughs, racks and other feeding / watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surface with a use solution of 8.5 oz per gallon of warm water. Allow surface to remain wet for 10 minutes. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub all treated feed racks, automated feeders and watering appliances with soap or detergent and rinse with potable water before reuse.
