2. The phrase "Lemon Scent" as it appears three time on the submitted label has been blocked out. The phrase is not acceptable as part of the product name on the master label.

3. The following Alternate Brand name is acceptable for this product: "Lemon Scent Lysol Brand Disinfectant All Purpose Cleaner II."

4. As per the Agency letter of 7/30/99 for 777-66 (item H) revise the phrase "Kills 99.9% of germs in seconds on hard nonporous surfaces\*" by deleting the word "germs" and replacing is with the word "bacteria". Your label is referring to your sanitization claim for killing *bacteria* in "30 seconds" not fungi, viruses, and bacteria as the term "germs" implies. This phrase is correct on the front panel but must be revised on the back panel.

5. Revise the section titled "To Disinfect/Sanitize/Deodorize" to include the following: " To disinfect *hard nonporous surfaces*: let stand for 10 minutes before wiping."

6. Add the following statement to the sections which begins "To Disinfect/Sanitize/Deodorize...": "After use to sanitize or disinfect food contact surfaces, rinse with potable water."

7. The Confidential Statements of Formula (CSF's) and Data Matrix Forms have been corrected to indicate the name of record for this product: "Lysol Brand Disinfectant All Purpose Cleaner II." Correct the CSF's and Data Matrix forms in your files to reflect this name.

8. The text near the graphics for "household," "bathroom," and "kitchen" is difficult to read. In future submissions of labels to the Agency, make the font size larger or submit better defined copies such that your labels may be scanned into our label systems with better clarity.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
