Subject: Citrus Scent Lysol Brand Antibacterial Kitchen Cleanser
EPA Registration No.: 777-91
Amendment Date: January 13, 2009
EPA Receipt Date: January 14, 2009

Dear Mr. Swain,

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable with the conditions listed below.

Proposed Amendment

- Add Label Claims and NSF logo
- Update Container Disposal statement per PRN 2007-4

Conditions

Revise the label as follows:

- 1) Revise the "Introductory 6-month" claims on page 2 by deleting the terms, "advanced, improved, ultimate, unique" because they imply heighten efficacy.
- 2) Revise the 11th claim on page 2 by deleting the terms, "(bleach) (or harsh acids)" because it is considered a misleading statement according to 40 CFR 156.10 (a)(5)(i).
- 3) Revise the 17th, 18th, 22th, and 23th claims on page 4 by deleting the phrase, "than prior/previous formula."
- 4) Revise the 51th claim on page 4 by deleting the phrase, "cleans without bleaching" because it is considered a misleading statement according to 40 CFR 156.10 (a)(5)(i).

5) Revise the 22th, 49th and 52th claims on page 5 by deleting the symbol, “x% of” because it is indeterminate and misleading to the consumer.

6) Revise the 49th claim on page 5 by deleting the terms, “more than, up to, x% o.” because it is indeterminate and misleading to the consumer.

7) Revise the “Non-living Allergen” qualifier claim on page 6 and 12 by deleting the following allergens “cat allergens, cockroach allergens, dog allergens, dust mite allergens, pet allergens, and pollen allergens.” These terms are too broad, and they imply that “living” animals and insects are the allergens. You may add “*pollen*” among your list of Non-living Allergens”

8) Delete the 21th claim, “Kills 100% of bacteria and viruses” on page 8. The approved disinfection test methods are qualitative not quantitative. Your proposed claim will not be accepted.

9) Revise the “Personal Protection” statement under HIV directions on page 12 by deleting the term, “or,” and stating “*and.*” These items are not optional when handling soiled items.

10) The “Disposal of Infectious Materials” statement under the HIV directions on page 9 must be brought into compliance with PR Notice 2000-5, Mandatory Labeling, by deleting the term, should, and stating “*must.*”

11) Since this product is a skin sensitizer, the “If on Skin or Clothing” First Aid statement must appear on the trigger bottle.

12) Since this product is not classified as category I for oral, dermal, primary eye or skin irritation, the “Pesticide Disposal” statements are inappropriate according to PR Notice 83-3 and Label Manual. Revise them to state “*Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.*”

14) Revise the “Container Disposal” statement for containers greater than one gallon by adding the statements, “Triple rinse (or equivalent). Follow pesticide disposal instructions for rinsate.”

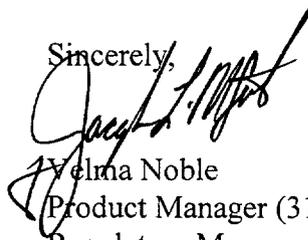

General Comments
