UNITED JATES ENVIRONMENTAL PROTECTION A

Ms. Mary C. Pisculli Reckitt Benckiser, Inc. Morris Corporate Center IV 399 Interpace Parkway Parsippany, NJ 07054-0225

SUBJECT:

Citrus Scent Lysol Brand Antibacterial Kitchen Cleaner II

EPA Registration Number: 777-91 Application Date: December 2, 2011 Receipt Date: December 5, 2011

Dear Ms. Pisculli:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable subject to the conditions listed below:

Label Update

Conditions

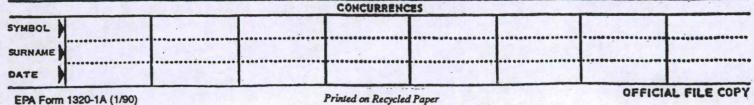

Revise the label as follows:

- 1) Please note that the in the fourth statement of the packaging claims section on page 2 the terms "Great" and "Super" may not be used alone as each would imply heightened efficacy. "Great" and "Super" may only be used in conjunction with the terms "Value," "Pack," "Refill," and "Size".
- 2) Revise the following statement under Marketing Claims on page 2 by deleting the reference to disinfection as in this statement which implies heightened efficacy. Revise "(Better than ever) cleaning (and disinfection) for your kitchen" to state "(Better than ever) cleaning for your kitchen"
- 3) Revise the following statement under Marketing Claims on page 3 by deleting the reference to antibacterial as in this statement which implies heightened efficacy. Revise "Powerful (fast acting) (antibacterial kitchen) cleaner" to read "Powerful (fast acting) (kitchen) cleaner"

	(2007)	CONCURRENCES

FD4 F 4000 44 (400)		Brings D. J. J. D.	OFFICIAL FILE COPY

EPA Form 1320-1A (1/90)

- 4) Delete the following statement on page 6. This statement indicates that this product will deodorize or sanitize while it cleans. This is incorrect as the deodorization or sanitization directions must be followed to eliminate antimicrobial pests. Following the cleaning directions will not provide pesticidal activity. Thus delete the statement: "Deodorizes and sanitizes as it cleans." This is the 19th statement.
- 5) The following sections on page 10 must be relocated to the directions for use section of the label: Terminal Sterilant Statement-qualified metal surfaces, Terminal Sterilant Statement-unqualified metal surfaces, and the HIV directions for use. Each of these sections contains directions for use and thus must be placed in that section.
- 6) Make the following clarifications to page 8 in the sanitizing claims and supporting sanitizing claims sections. Revise to state: "(A) Versatile and convenient sanitizer for hard, non-porous non-food contact surfaces", "Sanitizes (and deodorizes) hard, non-porous non-food contact surfaces throughout your kitchen", "Sanitizes (hard, non-porous) non-food contact surfaces (in the kitchen)", "Sanitizes ({insert surface/site See page 19}) nonfood contact surfaces in 30 seconds" and "Kills 99.9% of (Escherichia coli.....(Streptococcus pyogenes) on hard non-porous non-food contact surfaces (in 30 seconds.)"
- 7) Delete the following two statements on page 9. Each either indicates that this product will disinfect, sanitize or kill germs while it cleans. This is incorrect as the disinfection or sanitization directions must be followed to eliminate antimicrobial pests. Thus delete the statements: "Disinfects (Deodorizes) (and) (Sanitizes) as it Cleans" and "Kills germs while it cleans." These are the 8th and 27th statements.
- 8) Revise the contact time in the HIV section on page 10 to be in agreement with the last stamped label for this product by correcting to read "remain wet for 10 minutes."
- 9) Revise page 13 by correcting the name of this product in the third statement under the heading "Starter Kit" to read: "(1) (-) (Bottle of) Citrus Scent Lysol Brand Antibacterial Kitchen Cleaner II'
- 10) Revise page 24 to include product use surfaces and sites (as per page 19) in the directions for use section.

11) Relocate and place in bold text the statement found on page 24: "Do not use on eating/cooking utensils, glasses/dishes or cookware." Such that this statement immediately precedes the directions "To Clean/Deodorize".

Should you wish to retain a reference to the company's website on your label, then please be aware that such a reference transforms the website into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p) (2) and then the website is subject to review by the Agency. If the website content is false or misleading, the product would be misbranded and its sale or distribution unlawful to sell or distribute under FIFRA section 12(a)(1)(E). In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Although EPA has not yet determined the extent to which it will routinely review company websites, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from claims approved through the registration process, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance.

The stamped accepted label has been made part of the record for your file.

General Comments

A stamped copy of the accepted labeling is enclosed. Submit one (1) copy of your final printed labeling before distributing or selling the product bearing the revised labeling. Should you have any questions concerning this letter, please contact Tracy Lantz at (703) 308-6415.

Sincerely,

Velma Noble

Product Manager (31)

Regulatory Management Branch I Antimicrobials Division (7510P)

<< DISINFECTING CLAIMS - Hard, non-porous surface >>

4-in-1 action (formula) kills 99.9% of germs**

A disinfecting (non-food contact surface) cleaner for use on {insert surface / site - See pg. 19}

Can help prevent cross-contamination of (household) bacteria*

Cleans and disinfects kitchens

(Controls) (Prevents) (Inhibits) (the growth of) mold and mildew

Disinfects (and) (deodorizes) hard, non-porous surfaces

Disinfects as it cleans

Effective against**: {insert micro-organism - See pg. 18}

Eliminates (kitchen) (odor-causing) bacteria

Eliminates bacteria from (kitchen) surfaces.*

Eliminates (Kills) odors caused by (bacteria) (mold and mildew) (and) non-fresh foods)*

(Gives you) (full) (complete) (total) disinfection

Kills Avian Influenza A Virus on pre-cleaned (environmental) surfaces (in 30 seconds)

Kills (99.9% of) bacteria*

Kills (99.9% of) bacteria and viruses**

Kills (99.9% of) viruses and bacteria**

Kills (99.9% of) germs**

Kills (99.9% of) germs with (its) 4-in-1 action**

Kills (99.9% of) (E. coli) (Salmonella) ({insert micro-organisms - See pg. 18})

Kills (kitchen) (household) (odor-causing) bacteria'

Kills bacteria commonly found in the kitchen*

Kills bacteria for a deep down clean*

Kills (kitchen) germs*

Kills germs and controls the growth of mold and mildew**

Kills germs that ordinary cleaners don't**

Kills (household) bacteria (in 10 minutes) (commonly found in kitchens) (on hard, non-porous surfaces in 10 minutes)*

Kills (household) bacteria (and sanitizes without bleaching)*

(Kills) (Destroys) (Eliminates) germs (that ordinary cleaners don't)**

(Kills) (Eliminates) odor-causing bacteria in the kitchen

Kills bacteria commonly found in kitchens (in 10 minutes)*

Kills bacteria and viruses on hard, non-porous (kitchen) surfaces in 10 minutes**

Kills more than 99.9% of bacteria and viruses**

Kills more than 99.9% of viruses and bacteria**

Kills virusest

Leaves a (long-lasting) (fresh) (clean) scent

Leaves your {insert surface / site - See pg. 19} with a fresh, clean scent

Quickly eliminates (foul) (filthy) (lingering) (food) odors

Removes bacteria*

Starts to kill on contact

Total disinfection for your kitchen surfaces

<< Terminal Sterilant Statement - qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

<< Terminal Sterilant Statement - unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enters normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

KILLS HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 [HIV-1 AIDS Virus] ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids; and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 [HIV-1] [associated with AIDS].

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eve coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Allow surface / object to remain wet for

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier]. The term "this product" used throughout this document may be replaced with the marketed product brand name. To use the term "germ**" the product must be efficacious against 2 of the 3 major classes of organisms. The product label must identify the specific bacteria, virus, fungus & mold. The term 'x' is a place holder for a number between 1 to 99.

<< USE DIRECTIONS >>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Operate: Turn nozzle counter clockwise to preferred usage.

To Operate: Turn nozzle to ("ON") (desired) position.

(To Operate:) To Open: Lift tab up, push back and press tab down to lock into open position.

To Close: Release tab from locked position, push tab down and snap closed.

To Refill (Bottle): Remove trigger sprayer. Pour in product from refill container and replace trigger.

To Refill (Bottle): Remove trigger unit from empty bottle and attach to new bottle.

<u>To Clean (/ Deodorize) (/Remove Allergens††): Once automatic dispensing unit has applied product to (sponge) (cloth) (towel) wipe surface until thoroughly wet. Wipe with a clean cloth or sponge. No rinsing required.</u>

To Clean (/ Deodorize) (/ Remove Allergens††): (Spray) (Apply to) surface until thoroughly wet. Wipe with a clean cloth or sponge. No rinsing required.

To Clean Greasy Soil: Allow product to sit 15-20 seconds to penetrate soil before wiping clean. Repeat if necessary.

To Clean (Household) (and) (Kitchen) Surfaces: (Spray) (Apply to) dirty (soiled) area, wipe clean. No rinsing required.

To Sanitize / Disinfect: Pre-clean surface. (Spray) (Apply to) surface until thoroughly wet.

To Sanitize: Leave for 30 seconds before wiping. To Disinfect: Leave for 10 minutes before wiping. Rinse all food contact surfaces with water after use.

To Control (and Prevent) (the Growth of) Mold & Mildew: Apply to pre-cleaned surface. Let surface remain wet for 3 minutes and then allow to air dry. Repeat application at weekly intervals or when mold and mildew growth appears.

<< Advisory Statements - must be included were appropriate >>

Can be used in cleaning tools that recommend the use of (this product).

(Does not) (Will not) harm most (kitchen) surfaces.

On painted surfaces test a small inconspicuous area first.

This product is not recommended for use on [natural] [marble] [brass] [acrylic plastic] or [finished wood surfaces].

Do not use on (eating / cooking utensils, glasses / dishes or cookware) (unfinished, oiled or waxed wood floors) (outdoor patio furniture cushions and pillows).

<< LYSOL® AUTOMATIC DISPENSING UNIT - Includes: Dispenser, (product name) Refill and 4 AA batteries >>

Assembly:

1. Open battery door (as shown) then insert 4 AA batteries (included).

Close battery door, pressing firmly on the tab to ensure it is fully closed.

Remove seal from (product name) refill.

4. Insert (product name) refill into the dispenser until you hear it CLICK into place.

5. Place dispenser on the counter (where you will use it).

6. Turn unit ON using the ON/OFF switch on the back of the dispenser.

7. Wait until the RED indicator light at the front stops blinking. Dispenser is now ready for use,

To Use:

Place (sponge) (cloth) (towel) underneath the nozzle. Ensure (sponge) (cloth) (towel) is placed between the nozzle and the indicator light. You may need to move (sponge) (cloth) (towel) under nozzle several times before first dispense. The dispenser will automatically dispense just the right amount of product on your (sponge) (cloth) (towel).

Replacing the Refill:

Turn OFF the dispenser by using the ON/OFF switch. Press the EJECT button at the back of dispenser and remove the empty bottle. Replace only with (this product) refill. Be sure to remove the seal from (the) refill cap before use.

Replacing the Batteries:

When the batteries have run out, the RED indicator light will flash 6 times. For best results, replace with a new set of 4 AA alkaline batteries.

Maintaining Your Dispenser:

- DO NOT place the dispenser in standing water, under running water or inside the dishwasher. If you do so, the unit may no longer function.
- If the dispenser requires cleaning, switch unit OFF, then wipe dispenser with a damp non-abrasive cloth and dry thoroughly.
- Ensure lens on underside of nozzle is free from product build-up as this may unintentionally activate sensor.
- DO NOT place the dispenser in direct sunlight.

Troubleshooting:

1. If the dispenser does not turn ON:

- Check that the batteries are inserted in the correct orientation.
- If the batteries are inserted correctly, the light in front of the dispenser will flash for a few seconds and stop when it is switched ON and ready for use.
- 2. If the dispenser does not dispense properly OR does not dispense any product at all:
 - Ensure (sponge) (cloth) (towel) is placed between the nozzle and the indicator light (see diagram).
 - Switch dispenser to OFF. Clean as described in the section 'Maintaining Your Dispenser'.
 - Check to see if dispenser is standing in water. If so, the unit may no longer function; however, try removing the battery door, wiping and drying the interior thoroughly, then re-inserting the batteries.
- If product is dispensing unintentionally, see 'Maintaining Your Dispenser'.

IMPORTANT:

- DO NOT hold the dispenser from the front middle while it is switched ON; as this will activate the sensor and product will be dispensed onto your hand.
- Before cleaning your counter where the dispenser has been placed, turn the dispenser OFF before moving to prevent product from accidentally dispensing.
- Use only (product name) refills in the dispenser.
- Contains batteries. Do not reuse batteries. Batteries contain 0% Mercury / 0% Lead / 0% Cadmium.

(Optional graphics - See pg. 22)
