Doctors Office	Nursing Home	

<< USE DIRECTIONS >>

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**To Operate:** Turn nozzle counter clockwise to preferred usage.

**To Operate:** Turn nozzle to ("ON") (desired) position.

**(To Operate:) To Open:** Lift tab up, push back and press tab down to lock into open position.

**To Close:** Release tab from locked position, push tab down and snap closed.

**To Refill (Bottle):** Remove trigger sprayer. Pour in product from refill container and replace trigger.

**To Refill (Bottle):** Remove trigger unit from empty bottle and attach to new bottle.

**To Clean (/ Deodorize) (/Remove Allergens††):** Once automatic dispensing unit has applied product to (sponge) (cloth) (towel) wipe surface until thoroughly wet. Wipe with a clean cloth or sponge. No rinsing required.

**To Clean (/ Deodorize) (/ Remove Allergens††):** (Spray) (Apply to) surface until thoroughly wet. Wipe with a clean cloth or sponge. No rinsing required.

**To Clean Greasy Soil:** Allow product to sit 15-20 seconds to penetrate soil before wiping clean. Repeat if necessary.

**To Clean (Household) (and) (Kitchen) Surfaces:** (Spray) (Apply to) dirty (soiled) area, wipe clean. No rinsing required.

Do not use on (eating / cooking utensils, glasses / dishes or cookware) (unfinished, oiled or waxed wood floors) (outdoor patio furniture cushions and pillows).

**To Sanitize / Disinfect:** Pre-clean surface. (Spray) (Apply to) surface until thoroughly wet.

**To Sanitize:** Leave for 30 seconds before wiping. **To Disinfect:** Leave for 10 minutes before wiping.

Rinse all food contact surfaces with water after use.

**To Control (and Prevent) (the Growth of) Mold & Mildew:** Apply to pre-cleaned surface. Let surface remain wet

for 3 minutes and then allow to air dry. Repeat application at weekly intervals or when mold and mildew growth appears.

<< Terminal Sterilant Statement – qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

<< Terminal Sterilant Statement – unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that <sup>(1)</sup> is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or <sup>(2)</sup> contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enters normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**KILLS HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 [HIV-1 AIDS Virus] ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS**, in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids; and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 [HIV-1] [associated with AIDS].

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:**

**PERSONAL PROTECTION:** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye coverings.

**CLEANING PROCEDURES:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

**CONTACT TIME:** Allow surface / object to remain wet for 10 minutes.

**DISPOSAL OF INFECTIOUS MATERIALS:** Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

<< Advisory Statements – must be included were appropriate >>

Can be used in cleaning tools that recommend the use of (this product).

(Does not) (Will not) harm most (kitchen) surfaces.

On painted surfaces test a small inconspicuous area first.

This product is not recommended for use on (natural) (marble) (brass) (acrylic plastic) or (finished wood surfaces).

<< LYSOL® AUTOMATIC DISPENSING UNIT - Includes: Dispenser, (product name) Refill and 4 AA batteries >>

**Assembly:**

1. Open battery door (as shown) then insert 4 AA batteries (included).
2. Close battery door, pressing firmly on the tab to ensure it is fully closed.
3. Remove seal from (product name) refill.
4. Insert (product name) refill into the dispenser until you hear it CLICK into place.
5. Place dispenser on the counter (where you will use it).
6. Turn unit ON using the ON/OFF switch on the back of the dispenser.
7. Wait until the RED indicator light at the front stops blinking. Dispenser is now ready for use.

**To Use:**

Place (sponge) (cloth) (towel) underneath the nozzle. Ensure (sponge) (cloth) (towel) is placed between the nozzle and the indicator light. You may need to move (sponge) (cloth) (towel) under nozzle several times before first dispense. The dispenser will automatically dispense just the right amount of product on your (sponge) (cloth) (towel).

**Replacing the Refill:**

Turn OFF the dispenser by using the ON/OFF switch. Press the EJECT button at the back of dispenser and remove the empty bottle. Replace only with (this product) refill. Be sure to remove the seal from (the) refill cap before use.

**Replacing the Batteries:**

When the batteries have run out, the RED indicator light will flash 6 times. For best results, replace with a new set of 4 AA alkaline batteries.

**Maintaining Your Dispenser:**

- DO NOT place the dispenser in standing water, under running water or inside the dishwasher. If you do so, the unit may no longer function.
- If the dispenser requires cleaning, switch unit OFF, then wipe dispenser with a damp non-abrasive cloth and dry thoroughly.
- Ensure lens on underside of nozzle is free from product build-up as this may unintentionally activate sensor.
- DO NOT place the dispenser in direct sunlight.

**Troubleshooting:**

1. If the dispenser does not turn ON:
  - Check that the batteries are inserted in the correct orientation.
  - If the batteries are inserted correctly, the light in front of the dispenser will flash for a few seconds and stop when it is switched ON and ready for use.
2. If the dispenser does not dispense properly OR does not dispense any product at all:
  - Ensure (sponge) (cloth) (towel) is placed between the nozzle and the indicator light (see diagram).
  - Switch dispenser to OFF. Clean as described in the section 'Maintaining Your Dispenser'.
  - Check to see if dispenser is standing in water. If so, the unit may no longer function; however, try removing the battery door, wiping and drying the interior thoroughly, then re-inserting the batteries.
3. If product is dispensing unintentionally, see 'Maintaining Your Dispenser'.

**IMPORTANT:**

- DO NOT hold the dispenser from the front middle while it is switched ON; as this will activate the sensor and product will be dispensed onto your hand.
- Before cleaning your counter where the dispenser has been placed, turn the dispenser OFF before moving to prevent product from accidentally dispensing.
- Use only (product name) refills in the dispenser.
- Contains batteries. Do not reuse batteries. Batteries contain 0% Mercury / 0% Lead / 0% Cadmium.

(Optional graphics – See pg. 22)
