Subject: Lysol Brand Disinfectant Concentrate
EPA Registration No. 777-94
Application Date: January 17, 2006
Receipt Date: January 19, 2006

Dear Ms. Jenkins:

The following amendment, submitted in connection with registration under section of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable with the following conditions:

Proposed Amendments

- Revised Basic Confidential Statement of Formula (CSF)
(see CSF dated 01-17-06) with updated suppliers
- Revised Ingredient statement

Conditions

The upper and lower certified limits for both the active an inert ingredients are acceptable with the following exception.

The certified limits for the 95% ethanol and 45% potassium hydroxide solution must be based on the nominal concentration (N) of these two inert ingredients. For the 95% ethanol having a (N) of 1.9%, the UCL must be 2.0% and the LCL must be 1.8%. For the 45% potassium hydroxide having a(N) of 3.85%, the UCL must be 4.04% and LCL must be 3.66%.

Change the dye name FD&C Red #33 to read D&C Red #33 in item #10 of the basic CSF.

Labeling Comments

1. The term "Hospital Type" disinfection is not acceptable. Use in healthcare facilities is stated simple as "Hospital" Disinfection. Since this product is not intended to be used in healthcare facilities, all references to healthcare facilities, i.e., "Hospital Type" must be deleted from the label.
2. Add an asterisk after the term "Germs."

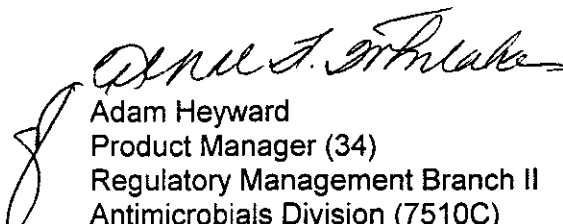

Submit three (3) copies of the labeling bearing the revisions stated above. A stamped copy of the labeling is enclosed for your records.

Other Comments:

A copy of the basic CSF has been inserted in your file for future reference. The basic CSF dated January 17, 2006 supersedes all previously accepted basic formulas.

Should you have any questions or comments concerning this letter, please contact me by telephone at (703) 308-6422 or email address at: heyward.adam@epa.gov, or Renae Whitaker by telephone at (703) 308-7003 or email address at: whitaker.renae@epa.gov.

Sincerely yours,

Adam Heyward

Kills Household Germs

Lysol Brand Disinfectant Concentrate is a hospital type disinfectant. It is a convenient and effective way to kill a wide variety of germs including those that cause illness and odors.

On hard non-porous surfaces Lysol Brand Disinfectant Concentrate:

Kills both gram positive and gram-negative germs including *Pseudomonas aeruginosa* (Kills *Pseudomonas* at 4 oz. (1/2 cup) per gallon dilution).

Kills *Staphylococcus aureus* (Staph) and *Salmonella choleraesuis* (*Salmonella*) germs.

Kills viruses such as Influenza A2/Japan/305/57, Herpes Simplex type 1 (and) (&) 2.

Controls the spread of germs on treated surfaces throughout (the) (your) home.

Disinfects –or– kills [common household] germs and/or bacterial and/or viruses without bleaching.

Controls Household Odors: Lysol Brand Disinfectant Concentrate is the fast, easy effective way to deodorize and make your home sanitary.

Directions for Use:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To Open Child Resistant Cap: Place bottle on a flat horizontal surface. With one hand, grasp bottle firmly near top. With other hand, while pushing down, turn cap counter-clockwise. AVOID SQUEEZING BOTTLE WHEN OPENING. To reseal, twist cap until tightly locked.

Directions: To disinfect/deodorize hard, non-porous surfaces, remove heavy soil first, then add 1.3 oz. (2.6 tbsp.) to one gallon of water and apply with a sponge or mop, wetting surfaces thoroughly. Let stand 10 minutes, then wipe away excess. Prepare a fresh bucket of solution every time you clean or more often if necessary.

For Hospital Type Disinfection: Add 4 ozs. (1/2 cup) to one gallon of water and apply with sponge or mop, wetting all surfaces thoroughly. Let stand 10 minutes, then wipe away excess. Prepare a fresh bucket of solution every time you clean or more often as necessary.

To clean and disinfect toilet bowl, flush first. Add 1 oz. (2 tbsp.) to bowl water. Brush all surfaces including under the rim. Let soak 10 minutes. Flush.

Use on:

Kitchens floors and counters, walls (painted) woodwork, glazed porcelain, linoleum, bathroom surfaces, exteriors of toilets, floors, tiled floors, garbage cans, diaper pails, storage areas, pet areas, basements floors and walls, baby's room, sick rooms. Rinse surfaces which come in contact with food (such as) (kitchen counters) (highchair trays) (and) (other food contact surfaces) with potable water following treatment.

Bathroom:

Use Lysol Brand Disinfectant Concentrate to disinfect and deodorize your entire bathroom fixtures (and) (surfaces). Lysol Brand Disinfectant Concentrate disinfects and deodorizes the toilet bowl.

Laundry:

After filling the washer with water, add one cup of Lysol Brand Disinfectant Concentrate to each wash load for a sanitary laundry. Significantly reduces the malodors in the washing machine by cleaning washer tub often with the recommended Lysol dilution.

Nursery:

In the baby's room Lysol Brand Disinfectant Concentrate cleans and disinfects toys, cribs, changing table and highchair surfaces. Rinse surface with potable water. Lysol Brand Disinfectant Concentrate and deodorizes diaper pails.

All Around the House:

Use Lysol Brand Disinfectant Concentrate (daily), (as recommended) to clean and deodorize your entire house, kitchen floors, walls and woodwork.

Bacteria:

Staphylococcus aureus
Pseudomonas aeruginosa
Salmonella choleraesuis

***Viruses:**

Influenza type A2/Japan/305/57
Herpes Simplex 1 and 2

Precautionary Statements:

Hazards to Humans and Domestic Animals.

DANGER: Corrosive. Harmful if swallowed. Causes irreversible eye and skin burns. DO not get in eyes or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses). Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Avoid prolonged breathing vapour or mist.
