1/13

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510C)
 1200 Pennsylvania Avenue NW
 Washington, D.C. 20460

EPA Reg. Number:
 777-95

Date of Issuance:
 October 31, 2006

Term of Issuance:
Unconditional

Name of Pesticide Product:
RB102 Crisp Linen Lysol Disinfectant Pump

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Reckitt Benckiser, Inc.
Morris Corporate Center IV
399 Interpace Parkway
Parsippany, NJ 07054-0225

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Revise the "EPA Registration Number to read, "EPA Reg. No. 777-95".

Signature of Approving Official:

Adam Heyward
 Product Manager Team-34
 Regulatory Management Branch II
 Antimicrobials Division (7510C)

Date:

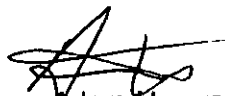

October 31, 2006

3. At the time of re-registration for this product, you must submit a neutralization test to demonstrate that the neutralizer was effective and non-toxic to the challenge organisms.
4. To satisfy the requirement of § 830.1750 (Certified Limits) requirements, submit a signed certification statement for the proposed limits.
5. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the accepted label is enclosed for your records.

Sincerely,

Adam Heyward
Product Manager 34
Regulatory Branch II
Antimicrobials Division (7510P)

Enclosure: (Stamped Label)

EPA Letter Dated:

OCT 31 2006

Under the Federal Insecticide,
Fungicide and Rodenticide Act as
amended for the pesticide,
registered under EPA Reg. No. 777-95

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus & mold.

Crisp Linen Scent

(Antibacterial Action) (Antibacterial Spray) (Bactericide) (Bactericidal) (Bonus Size) (Convenient) (Deodorizer) (Deodorizes) (Disinfectant) (Disinfects) (Fungicidal) (Fungistat) (Germicidal) (Hospital Disinfectant) (Mildewcide) (Mildewcidal) (Mildewstatic) (Multi-Purpose) (Multi-Room) (Multi-Surface) (New) (New Scent) (New Size) (Non-Aerosol Pump) (Pleasant)(fragrance)(Scent) (Room Deodorizer) (Sanitizer)(Sanitizes) (Surface Disinfectant) (Travel Size) (Trial Size) (Tuberculocidal) (Virucidal¹)

America's Home & Hospital Disinfectant

Clean, fresh (fragrance) (scent)

Easy to Use

Everyday formula

Fast, Easy, Effective

For Hospital Use (graphic)

Formulated for medical institution's (infection control program) needs

For any hard, non-porous surfaces where germs are a concern

For everyday use

For the Holidays

For use in (Hospitals) (Homes) as a disinfectant

For use in Institutional and Industrial Facilities

For use on (medical) (lamps) (stands) (patient) (bed frames) (bedside tables) (wheelchairs) (and other similar equipment).

Formulated for (hospital)(institutional) use

Formulated for medical institution's (infection control program) needs.

(Fragrance name) has a (clean) scent (fragrance) (smell)

Gentle Defense

Gold Standard

Great for everyday use (in kitchens) (bathrooms) (restrooms) (all over the house)

(Great) For use (as a disinfectant or sanitizer) on hard non-porous surfaces located in: (insert use sites).

(Great) For use on (the following) (modern) washable surfaces ((insert surfaces)).

Great for use on the go

Great on {insert surfaces}

Hospital Type Disinfection

Leaves (household) (bathroom) (restroom) surfaces sanitary

Leaves no (sticky) residue

Lysol[®] Brand

Mini

New look for Lysol

Non-Aerosol Pump Spray

On-the-Go

Perfect for eliminating your toughest odors at their source

Pleasant fragrance (scent)

Perfect for eliminating your toughest odors at their source

Perfect for the (kitchen) (bathroom) (restroom)

Pump Spray (Non-Aerosol Spray)

Ready to use

(Still) Great for (bathrooms) (restrooms)

Take it with you on the go

The power of Lysol

To-Go

Use (this product) all over your home

Use (this product) on all (washable) hard, non-porous (environmental) surfaces: {insert surfaces}

Use this product to disinfect non-critical hard, non-porous environmental surfaces in all health care facilities (including dental and physician offices).

Works on a wide range of {insert use surfaces} surfaces.

<< Front or Back Panel – Disinfecting & Deodorizing claims – use as bullet point or in paragraph format >>

An effective (disinfectant) (sanitizer) for use in the (kitchen) (bathroom) (bedroom) and other (household) areas.
Continues to (control) (kill) odor-causing (germs**) (bacteria*) between (daily) uses.
Controls (kills) odor-causing (germs**)(bacteria*)
Control (kills) the growth of mold and mildew (in) (on) ((insert use site)) ((insert use surfaces))
Controls (kitchen) odors caused by bacteria or mildew.
Controls odors caused by mold and mildew.
Controls pet odors caused by bacteria (and fungi)
Controls mold and mildew growth (from its root)
Deodorizes by killing (many) (bacteria)(germs**)(fungi) that cause odors, (ordinary non-germicidal spray can't do this)
Disinfection Control (Formula)
Disinfects for pennies.
Disinfects hard, non-porous (food) (non-food) (contact surfaces) (in) {insert use sites}
Disinfects ({insert use sites}) (and) ({insert use surfaces})
Disinfects (Sanitizes) and deodorizes by killing common (household) germs** and controlling their odors.
Disinfects washable (bathroom) (restroom) surfaces and fixtures (around the home) (in schools) (and other public places).
Effective.
Effective against (bacteria*)(fungi)(viruses)(germs**): {insert A – B – C organisms} (in 10 minutes).
Eliminates damp, musty odors in the basement or in areas where air does not circulate.
Eliminates (germs**) (and) (odors) on hard, non-porous surfaces that you come into contact with everyday.
Eliminates odors caused by (germs**) (bacteria*) (mildew)
Eliminates (Removes) odors (at their source)
Eliminates (Removes) (Kills) (Controls) odor causing (bacteria*) (germs**) (mildew).
Fights germs and odors
Fights the Flu Virus
Flu Virus Control
For disinfecting against {insert A-B-C organisms} on hard non-porous surfaces.
For killing {insert A-B-C organisms} on hard non-porous surfaces.
For use as a (disinfectant) (or) (sanitizer) in: {insert use sites}
(For use in) hospital (and homes) (as a) (disinfectant)
For use on hard non-porous surfaces located in {insert use site}
Germ** Control
Germ** Defense
Germ** Shield
Germ** (killer) (destroyer) (eliminator)
Gets rid of odors by killing germs** (that cause them)
Gets to the heart of odors
Great for (spot disinfection)(target performance)
(Great) For use (as a disinfectant or sanitizer) on hard non-porous surfaces located in: {insert use sites}.
Infection Control
Invisible Control
Kills Avian Flu (Virus)
Kills (controls) the cold and flu virus
Kills (Disinfects) common household (germs**) (bacteria*) (viruses[†]) (fungi*) and mold.
Kills (disinfects)(against) {insert A – B – C organisms}
Kills (Eliminates) (bacteria*) (viruses[†]) (germs**)
Kills (Eliminates) (bacteria*) (viruses[†]) (germs**)(mold and mildew)
Kills germs** and controls the (spread) (growth) of (fungi) (mold) (and mildew).
Kills (kitchen) (household) (bathroom) (germs**) (bacteria*) (viruses[†]) (fungi*) (mold) (mildew)
Kills mold and mildew
Kills (more than) (greater than) 99.9% of (the following) (household) germs**: (in 10 minutes)
Kills odor-causing bacteria* (in the) (bathroom) (restroom).
Kills of Salmonella enterica, Escherichia coli, Campylobacter jejuni and Listeria monocytogenes commonly found in kitchens.
Kills the following (household) (kitchen) germs**: {insert organisms A – B - C} (on hard non-porous surfaces) (in 10 minutes)
Kills the following viruses: {insert organisms B}

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus & mold.

<< Front or Back Panel – Disinfecting & Deodorizing claims – use as bullet point or in paragraph format >>

Kills the (Influenza) (flu) (virus)
Kills viruses[†] in 30 seconds
On environmental surfaces, (this product) (is tuberculocidal and) kills the following (germs**) (bacteria*) (viruses[†]) (and fungi*) in 10 minutes: {insert organisms A – B - C}
On hard, non-porous, non-food contact surfaces this product kills the following (bacteria*) (fungi) (viruses[†]) (germs**): {insert 'A – B – C' organisms}
Removes odors from the following surfaces: {insert surfaces}.
Removes offensive odors from {insert site}.
Starts killing in 30 seconds
Starts to kill on contact
(This product) (Lysol Brand Disinfectant products) aid in the reduction of cross-contamination of germs on hard, non-porous surfaces).
(This product) (disinfects) (and) (sanitizes) the following surfaces { insert use surfaces}
(This product) controls cross-contamination of many harmful germs from treated surfaces.
(This product) (controls) (kills) the (germs**) (bacteria*) (mold) (mildew) that cause unpleasant odors at the source.
(This product) deodorizes by killing the germs** that cause odors.
(This product) (disinfects) (and) (sanitizes) (in) (the following areas) { insert use sites}
(This product) (disinfects) (and) (sanitizes) the following surfaces {insert use surfaces}
(This product) eliminates odors at their source. Ordinary, non-germicidal products can't do this.
(This product) has antibacterial action and kills viruses and bacteria on environmental surfaces in (your home) (and in) (public places).
This product helps control cross-contamination of many germs** (on) (from) treated surfaces (when used as directed)
(This product) is a broad spectrum disinfectant (bactericidal) according to the AOAC Germicidal Spray Products test method.
(This product) is an effective fungicide against Trichophyton mentagrophytes (Athlete's Foot Fungus) in (locker rooms) (dressing rooms) (showers and bath areas) (and) (exercise facilities). Follow disinfection directions.
(This product) is a mildewstat and will effectively inhibit the growth of mildew and the odor caused by it when applied to hard, non-porous surfaces.
(This product) gets to the source of the odor without heavy perfume.
This product kills (household) germs (microorganisms) on environmental surfaces, even odor-causing (household) germs.
(This product) kills the germs** that cause (bad) odors.
(This product) kills viruses and bacteria on environmental surfaces in your home and in public places.
(This product) prevents odors at their source caused by (germs**) (bacteria*) or (mildew).
Treats, does not cover up
Triple Action Formula (bacteria*, virus[†], fungi)
Use (this product) (in) (on) {insert use sites}.
Use (this product) (on) { insert use surfaces}
Virucidal against {insert organisms B}
Virus[†] (killer) (destroyer) (eliminator)

Kills (Eliminates) 99.9% of germs** (on hard non-porous surfaces)

** (This product) kills 99.9% of {insert organisms 'A-B-C'} (on hard non-porous surfaces) (in 10 minutes.)

<< Soft surface claims >>

Controls the growth of mold and mildew on mattresses, pillows, shower curtains and books.
Eliminates (Controls) odors on fabrics
Kills (odor-causing) (germs) (bacteria) on fabrics
Kills germs and eliminates odors on fabrics and soft surfaces.
Now the LYSOL[®] Disinfectant Spray you have trusted for controlling germs** has the added benefit of controlling odors on fabrics.
Reduces odor-causing (germs) (bacteria) on soft surfaces such as dog beds, couches, pillows, mattresses, window treatments, carpets and chairs.
(This product) contains patented odor eliminating technology that removes tough odors, leaving your fabrics smelling clean and fresh.
(This product) not only kills odor-causing bacteria, it eliminates odors such as smoke, pet and cooking odors on a wide variety of fabrics including upholstered furniture, draperies, car interior fabrics and carpeting.
To eliminate odors retained in fabrics, spray on draperies, curtains and upholstered furniture.

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus & mold.

8/13

<< Back Panel - Use directions – IMPORTANT: Advisory statements must be included were appropriate >>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

<< Hard Surface >>

Preclean surfaces prior to use. Hold (bottle) (container) 6 to 8 inches from surface and spray until surface is thoroughly wet.

To Disinfect/Deodorize: Allow surfaces to remain wet for ten (10) minutes, then wipe. On surfaces that come in contact with food, rinse with potable water after use.

For toys: Allow surfaces to remain wet for 10 minutes, then rinse thoroughly with potable water.

To Sanitize: Allow to stand for 30 seconds, then rinse thoroughly with potable water.

To Control (and Prevent) (the Growth of) Mold and Mildew (and their Odors): Allow surface remain wet for 10 minutes, allow to air dry. Repeat applications at weekly intervals or when mold and mildew growth appears.

For Tuberculocidal Activity: This product is effective in 10 minutes at 20°C (68°F) on surfaces that have been thoroughly cleaned prior to application.

<< Soft Surface >>

To Eliminate Odors from Fabrics: Spray a light even coating evenly on fabric. DO NOT SATURATE.

Odors start to fade immediately. Let air dry. For difficult odors or heavier fabrics, repeat application as needed. Always test on a hidden (section) (area) of fabric first. Do not use on silk, leather, rayon, acetate or satin fabrics.

<< Advisory Statements >>

Do not use on polished wood, painted surfaces or acrylic plastics.

Do not use on silk, leather, rayon, acetate or satin fabrics.

If the last portion (of this product) is difficult to dispense, turn trigger 180° to face opposite directions; this will ensure full use of its contents.

For other surfaces, spot test in an inconspicuous area.

Rinse all surfaces that come in contact with food with potable water before reuse.

Do not use on utensils, glasses and dishes.

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, { optional text }, [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus & mold.

9/13

<< Back Panel >> << IMPORTANT: All organisms must be identified by genus & species. Abbreviations may be included but must appear in (parens). >>

<< Hard non-porous surfaces >>

<< A. Disinfection against Bacteria >>

Acinetobacter calcoaceticus	Pseudomonas aeruginosa
Burkholderia cepacia	Pseudomonas putida
Campylobacter jejuni	Salmonella enterica
Corynebacterium diphtheriae	Salmonella enteritidis
Enterobacter aerogenes	Salmonella paratyphi
Enterococcus (Streptococcus) faecalis	Salmonella schottmuelleri
Enterococcus faecium VRE (Vancomycin Resistant)	Salmonella typhi
Escherichia coli	Serratia marcescens
Klebsiella pneumoniae	Shigella dysenteriae
Listeria monocytogenes	Shigella flexneri
Mycobacterium tuberculosis var bovis	Staphylococcus aureus MRSA (Methicillin Resistant)
Neisseria elongata	Staphylococcus epidermidis
Proteus mirabilis	Streptococcus pyogenes
Proteus vulgaris	Streptococcus salivarius

<< B. Disinfection against Virus >>

10 Minute Disinfection

Adenovirus Type 2	Parainfluenza Type 2
Coxsackie Virus Type B3 (Coxsackie)	Poliovirus Type 1
Echovirus type 12	Respiratory Syncytial Virus (RSV) (- an important cause of ear infections in children) (- the leading cause of lower respiratory infection in children)
Hepatitis A	
Herpes Simplex Virus Type 1 & 2	
Human Cytomegalovirus (Cytomegalovirus)	Rhinovirus Type 39 (- the leading cause of the common cold)
Human Immunodeficiency Virus Type 1	
[HIV-1] [AIDS Virus]	Rotavirus WA (- the leading cause of infectious diarrhea in children)
Influenza A ₂ [Japan 305/57]	Vaccinia
Influenza B [Hong Kong 5/72]	

30 sec Disinfection

Avian Influenza[^]
Respiratory Syncytial Virus (RSV)
(- an important cause of ear infections in children)
(- the leading cause of lower respiratory infection in children)
Rhinovirus Type 39
(- the leading cause of the common cold)
Rotavirus WA
(- the leading cause of infectious diarrhea in children)

([^]Avian Flu is an animal virus – production label must have farm premise directions for use)

<< C. Disinfection against Fungi >>

Aspergillus niger (mold & mildew)
Candida albicans
Trichophyton mentagrophytes (Athlete's Foot Fungus)

<< D. Fungistatic against Fungi >>

Penicillium notatum	Penicillium variable
Alternaria alternate	Cladosporium herbarum
Aspergillus niger	

<< E. *** Sanitization against Bacteria >>

Escherichia coli	Staphylococcus aureus
Listeria monocytogenes	Klebsiella pneumoniae
Staphylococcus aureus	Salmonella enterica
Enterobacter aerogenes	

Symbol Designation – used on product labels:

Single asterisk (*) bacteria*	used for identifying disinfection against specific bacteria
Dagger (†)	viruses used for identifying disinfection against specific viruses.
Double asterisk(**) germs**	used for identifying disinfection against specific bacteria and virus and fungi.
Triple asterisk (***) sanitizes***	used for claims of sanitization

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus & mold.

<< Back Panel - IMPORTANT: The following is required for professional products making claims against: >>

<< Human Immunodeficiency Virus Type 1 [HIV-1] [AIDS Virus] >>

KILLS HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 [HIV-1] [AIDS Virus] ON PRECLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids; and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV-1 [associated with AIDS].

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS:

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks or eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Allow surface / object to remain wet for 10 minutes.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

<< Terminal Sterilant Statement – qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

<< Terminal Sterilant Statement – unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that ⁽¹⁾ is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or ⁽²⁾ contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

<< Animal Premise >>

FARM PREMISE, LIVESTOCK, POULTRY & TURKEY HOUSE DISINFECTION

1. Remove all animals and feed from premises, trucks, coops, crates and enclosures.
2. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes, vehicles and other facilities and fixtures occupied or traversed by animals.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with water.
5. Saturate all surfaces with (this product) according to use directions and let stand for a period of 10 minutes.
6. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure in an appropriate dilutable disinfectant solution according to directions on the label.
7. Ventilate buildings, coops, trucks, cars, boats, and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.
8. After treatment with disinfectant, thoroughly scrub all treated feed tracks, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.
