Subject: **BRACE**  
EPA Registration No. 777-99  
Amendment Date: December 14, 2009  
EPA Receipt Date: December 15, 2009

Dear Ms. Pisculli:

The following amendment(s), submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is/are acceptable with the conditions listed below:

**Proposed Amendment**

- Incorporating previously submitted and approved language from notifications
- Incorporating additional optional marketing claims
- Incorporating Agency approved H1N1 Pandemic flu claims

**Conditions**

Revise the label as follows:

1. On page 2 under **PACKAGING CLAIMS**, remove "H1N1 (Value) Pack"
2. On page 8 under **DISINFECTING CLAIMS**, remove "Kills (99.9% of) Cold & Flu viruses (,) including H1N1 (on hard, non-porous surfaces)"
3. On page 8 under **DISINFECTING CLAIMS**, remove "Kills Pandemic 2009 H1N1 Influenza A Virus (on hard, non-porous surfaces) or just remove "(on hard, non-porous surfaces)" from the end of the statement so that it reads "Kills Pandemic 2009 H1N1 Influenza A Virus"

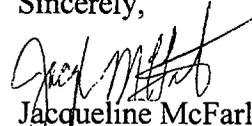

The above three claims are not acceptable because they are not consistent with the ongoing Agency H1N1 guidance, *Guidance for Testing and Labeling Claims Against Pandemic 2009 H1N1 Influenza A Virus (Formerly called Swine Flu)*, which can be found at: <http://www.epa.gov/oppad001/h1n1-guide.html>

**General Comments**

A stamped copy of the labeling accepted with conditions is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.
