OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

December 4, 2007

Mary C. Pisculli
Regulatory & Registration Compliance Specialist
Reckitt Benckiser, Inc.
Morris Corporate Center IV
399 Interpace Parkway
P.O. Box 225
Parsippany, NJ 07054-0225

Subject: **Square**
EPA Registration Number 777-100
Letter Dated: August 21, 2007
Receipt Date: August 23, 2007

Dear Ms. Pisculli:

The following amendment, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with comments.

Proposed Amendment

- Add the microorganism "Avian Influenza A (H1N1)" to the label claim.

General Comments

The submitted data (MRID 472124-01) **support** the use of the product, Square (Formula 1031-098), as a ready-to-use disinfectant with virucidal activity against Influenza A virus (H1N1) on hard, non-porous environmental surfaces at full strength and room temperature with a contact time of 30 seconds. Complete inactivation was seen at least 3 logs beyond the cytotoxic level. Dried virus controls exceeded 10^4 . Controls were acceptable for a valid test.

Labeling Comments

- All label references to "germs" must be qualified with the appropriate asterisks. This product does not meet the criteria for an *unqualified* germ claim as laid out in the

"CSPA Germs Letter" (<http://www.epa.gov/oppad001/germs.htm>). You must revise the label to qualify all instances of the term.

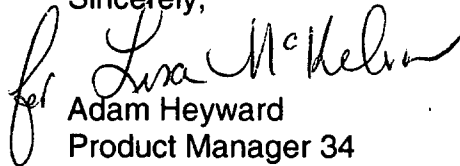

- Since the subject product has been on the market for at least 6 months, delete the introductory claims from page 2 of the proposed label lists.

Other Comments

Submit three (3) copies of the labeling bearing the revisions stated above. A stamped copy of the label is enclosed.

Should you have any questions concerning this letter, please contact me at (703) 308-6422 or via email at heyward.adam@epa.gov or Lisa McKelvin at (703) 308-7496 or via email at mckelvin.lisa@epa.gov.

Sincerely,

Adam Heyward
Product Manager 34

Effective – works on many hard, non-porous surfaces
Effectively works on many hard, non-porous surfaces
For a (cleaner) (fresher) (shinier) (household) (home)
(For a) deep down clean
For any hard, non-porous surface where (bacteria) (germs) are a concern
For multiple cleaning tasks
For use (in) (on) (the) {insert use site / surface} as a multi-purpose disinfectant cleaner
Formulated for (hospital) (institutional) use
Formulated for medical institution's (infection control program) needs
Good for (everyday cleaning) (multiple cleaning) (and) (for your toughest household messes) (jobs) (tasks) (chores)
Great for {insert use site} (most indoor and outdoor cleaning tasks) (your toughest household messes)
Great for everyday use in {insert use site} (all over the house)
Great for (everyday cleaning) (multiple cleaning) (and) (for your toughest household messes) (jobs) (tasks) (chores)
Great for use on hard, non-porous surfaces located in (the) {insert use site}
Help protect your home from germs with LYSOL® Brand Disinfectant products
Hospital disinfectant
Keep your {insert use site / surface} clean everyday
Leaves a (long-lasting) (fresh) (clean) scent
Leaves no (dull) (filmy) (sticky) (residue)
Lysol's best (ever) (grease) (and) (soap scum) (remover) (cleaner)
Meets AOAC Germicidal Spray Product efficacy test standards for hospital disinfectants
No need to (dilute) (or) (rinse)
No rinse required (on non-food contact surfaces)
Non-abrasive formula (will not scratch surfaces)
Perfect for use (in) (on) (the) {insert use site / surface}
Power of LYSOL®
Powers through your toughest cleaning jobs
Perfect for everyday use in {insert use site} (all over the house)
Ready to use (kitchen) (and) (bathroom) cleaner
Releases powerful cleaning agents on contact
Starts to work before you do
Take care of your home with (this product)
This is not a concentrate – do not add water
Use (in) (on) (the) {insert use site / surface}
Use only one product to get a streak-free shine plus antibacterial action
Use (this product) throughout your home
Where to use: {insert use site / surface}
Works on a wide range of (kitchen) (bathroom) (household) surfaces
You can see the (this product) difference

<< Back Panel - Use directions – IMPORTANT: Advisory statements must be included were appropriate >>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Operate: Turn nozzle counter clockwise to preferred usage.

To Refill:

1. Remove trigger sprayer (or cap) from empty bottle.
2. Unscrew cap on refill bottle and pour contents into empty bottle.
3. Replace trigger sprayer (or cap) and use this product as you normally would.
(This product can also be used straight from this refill container.)

To Refill:

1. Remove trigger unit from the empty bottle.
2. Attach the trigger unit to this product container.

For Spot Cleaning: (Spray) (Apply) (straight from the bottle) (to the) surface and wipe clean with a damp (sponge) (cloth) (mop).

General (Bathroom (Restroom) (Washroom) (Household) (Kitchen) Cleaning: (Spray) (Apply to) soiled area, then wipe clean. No rinsing required.

General Cleaning: (Turn nozzle counter clockwise to preferred usage.) (To clean household, kitchen and bathroom surfaces), (spray) (apply to) dirty (soiled) area, then wipe clean. Repeat for stubborn stains. No rinsing required.

To Remove Soap Scum: (Spray) (Apply to) surface, then wipe clean. Allow product to penetrate soap scum before wiping. Wipe clean.

To Disinfect: Hold container 6"-8" from surface and (spray) (apply) until thoroughly wet. Let stand for 10 minutes, then wipe. Rinse after use on surfaces that come in contact with food. For heavily soiled (or greasy) surfaces, (such as greasy stovetops), first clean according to General (Bathroom) (Restroom) (Washroom) (Household) (Kitchen) Cleaning directions prior to disinfecting.

To Sanitize (Non-Food Contact Surfaces): (Spray) (Apply to) surface until thoroughly wet. Let stand for 30 seconds, then wipe. For heavily soiled surfaces, first clean according to General (Bathroom) (Restroom) (Washroom) (Household) (Kitchen) Cleaning directions. No rinsing required.

<< Advisory Statements – MUST BE INCLUDED >>

Can be used in cleaning tools that recommend the use of (this product).
(Does not) (Will not) harm most (kitchen) (bathroom) surfaces.
On painted surfaces, test a small inconspicuous area first.
Rinse all food contact surfaces with potable water.

Do not use on (eating / cooking utensils, glasses / dishes or cookware) (outdoor patio furniture cushions and pillows) (unfinished, oiled or waxed wood floors).

This product is not recommended for use on (finished wood floors) (marble) (brass) (acrylic plastic) (finished wood surfaces).

<< Back Panel - IMPORTANT: The following applies to professional use products making claims against: >>

<< Terminal Sterilant Statement – qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

<< Terminal Sterilant Statement – unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that ⁽¹⁾ is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or ⁽²⁾ contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

NOTE: Bracketed information is denoted as: << directive >>. { insert as noted }. (optional text). [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus.

<< Storage and Disposal language – Professional containers >>

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in areas inaccessible to small children. Keep securely closed.

DISPOSAL: Do not reuse container. Rinse empty container thoroughly and discard in trash or recycle.

<< Storage and Disposal language – Professional containers greater than 2 gallon >>

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container in areas inaccessible to small children. Keep securely closed.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse or equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

<< Environmental Hazard language – Professional (container sizes 5 gallon or larger) >>

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, estuaries, ponds, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the Local Sewage Treatment Plant Authority. For guidance contact your State Water Board or Regional Office of the EPA.
