Subject: Lysol Brand TBC with Bleach  
EPA Registration Number 777-102  
Application Date: March 17, 2010

Dear Ms. Pisculli:

The Agency has reviewed your amendment submitted in accordance with continuing registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA), as amended, and determined the action to be acceptable with the following comments:

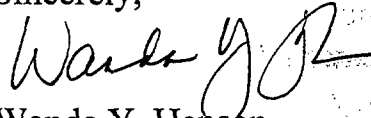

- The submitted label identified this product as Lysol Brand TBC with Bleach and we have edited the text of your label to reflect our current records (Notification dated September 25, 2009) for primary brand name. Lysol Brand Toilet Bowl Cleaner with Bleach which is an alternate brand.
- Correct the typographical error in the ingredient statement to reflect 98% for Other Ingredients.
- On page 2, correct the spelling of "angle".
- On page 3, delete the proposed marketing claim, (5X (the) cleaning power) as this is an unsubstantiated claim.
- On page 7, the artwork for optional pictogram 2 is blurred. Please make correction before final printing.

In summary, your request to revise the Storage and Disposal instructions, add marketing language and different sizes, consolidate previous notifications and incorporate changes requested in previous correspondence is approved. Your application indicated that a Certification with Respect to Child Resistant Packaging (CRP) for these new containers was submitted. However, CRP certification was not

included. You must submit this certification within 60 days of your receipt of this letter.

A copy of your stamped accepted with comments label is enclosed. Please provide a copy of your finished labeling for our files. Should you have any questions or comments concerning this letter, please contact Tom Luminello at (703) 308-8075.

Sincerely,

Wanda Y. Henson
