UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OCT 20 2011

OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Mr. David Swain
Agent for Reckitt Benckiser
SRC, Inc
PO Box 1014
Columbia City, IN 46725

Subject: Rosemary T
EPA Registration No.: 777-111
Amendment Date: May 26, 2011
EPA Receipt Date: June 1, 2011

Dear Mr. Swain,

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable with conditions.

Proposed Amendment

- Adding Design for the Environment (DfE) logo
- Adding 3 alternate brand names:
 - Lysol Brand Everyday Multi-Surface Disinfectant Lavender & Eucalyptus scent
 - Lysol Brand Everyday Multi-Surface Disinfectant Lemon & Lime Blossom scent
 - Lysol Brand Everyday Multi-Surface Disinfectant (Unfragranced)

Conditions

Revise the label as follows:

- 1.) Revise the 1st claim under "Introductory 6-month claims" on page 2 by deleting the terms, "Advanced, Improved, Unique, as well as the term, "Improved" in the 4th claim because it implies heightened efficacy.
- 2.) Delete "All Purpose" from the 4th claim on page 2 and the 16th claim on page 3 under "Marketing/ Product Performance claims" on page 2.

CONCURRENCES

SYMBOL	SURNAME	DATE					

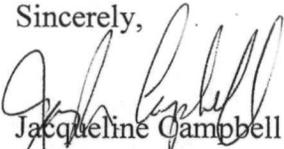

- 3.) Delete "sustainable" from the 10th line of claims under "Marketing/Product Performance claims" on page 2. The Agency has not developed a policy or methodology to measure a product's or container's sustainability.
- 4.) Delete the 21st, 22nd, and 29th claims on page 2 and 3rd claim on page 3 under "Marketing/Product Performance Claims" on page 2 because you cannot highlight or identify certain ingredients in the formulation without disclosing all the ingredients in the formulation.
- 5.) Revise the 23rd claim on page 2 and 7th claim on page 3 under "Marketing/Product Performance Claims" by deleting the phrase, "with essential oils."
- 6.) Revise the 38th claim, "Fast, Easy, Effective," on page 3 and by deleting the term, 'fast,' because it is misleading to consumers. If you wish to pursue this claim, you must provide a proposal as to how one would quantitate "fast" in reference to disinfecting and/or sanitizing aspects of the product.
- 7.) Delete the 45th claim under "Marketing/Product Performance Claims" on page 2. The Agency has not developed a policy or methodology to validate that the product does not contain animal by-products.
- 8.) Since this product does not meet the qualifications to make unqualified germs claim, then a double asterisk must be placed after the term, "germs" in the 2nd, 3rd, 26th, 28th, and 29th claims on page 6.
- 9.) Revise the 3rd, 4th, and 26th claims on page 6 by deleting the phrase, "without using any unnecessary (harsh) chemicals."
- 10.) Revise the 2nd and 4th claims under "Professional Use" on page 7 by deleting the terms, "Professional" and "Formulated."
- 11.) Delete the 5th claim on page 7.
- 12.) Revise the 6th claim under "Advisory Statements" on page 8 by deleting the term, recommended.
- 13.) Revise the 6th use site in the middle column under "Hard Non-porous Surfaces" on page 10 by deleting the parentheses from around "glazed." Also correct the typographical error that appears in the 8th use site in the middle column to read "area" instead of "are."

General Comments

The alternate brand names mentioned above are acceptable. A stamped accepted label is enclosed for your records. Submit three (3) copies of your final printed label before distributing or selling the product bearing the revised labeling.

Hospital disinfectant

Meets AOAC Germicidal Spray Products efficacy test standards for hospital disinfectants

(This product) is a broad spectrum disinfectant (bactericidal) (bactericide) according to the AOAC Germicidal Spray Products test method.

(This product) is a combination cleaner / disinfectant that provides hospital disinfection on (washroom) (restroom) (and other) hard, non-porous surfaces.

(This product) is germicidal when used as directed for (disinfection) (and) (sanitization of non-food contact surfaces) but differs in composition from other LYSOL® brand products.

(This product) is (a) (highly) (versatile) (and) (convenient) (ready-to-use) disinfectant.

(This product) is a (versatile) (and) (convenient) disinfectant cleaner for most washable hard, non-porous surfaces.

<< IMPORTANT: The following is required for PROFESSIONAL USE products making claims against: >>

<< Terminal Sterilant Statement – qualified metal surfaces >>

This product is not for use on critical & semi-critical medical devices or medical equipment surfaces.

<< Terminal Sterilant Statement – unqualified metal surfaces >>

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that ⁽¹⁾ is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or ⁽²⁾ contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
To use the term "germ" the product must be efficacious against 2 of the 3 major classes of organisms.
The product label must identify the specific bacteria, virus, fungus & mold.
The term "x" is a place holder for a number between 1 and 99.

<< Back Panel - Use directions – IMPORTANT: Advisory statements must be included were appropriate >>

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Operate: Turn nozzle counter clockwise to preferred usage.

To Operate: Turn nozzle to ("ON") (desired) position.

(To Operate): To Open: Lift tab up, push back and press tab down to lock into open position.

To Close: Release tab from locked position, push tab down and snap closed.

To Refill (Bottle): Remove trigger sprayer. Pour in product from refill container and replace trigger.

To Refill (Bottle): Remove trigger unit from empty bottle and attach to new bottle.

To Clean (/ Deodorize) (/ Remove Allergens):** (Spray) (Apply to) surface until thoroughly wet. Wipe with a clean cloth or sponge. No rinsing required.

To Clean (Soap Scum) (and) (Greasy Soil): Allow product to sit to penetrate soil before wiping clean. Repeat if necessary.

To Sanitize / Disinfect: Pre-clean surface. (Spray) (Apply to) surface until thoroughly wet.

To Sanitize: Leave for 30 seconds before wiping. **To Disinfect:** Leave for 5 minutes before wiping.

(To Disinfect against Respiratory Syncytial Virus leave for 10 minutes before wiping.)

Rinse all food contact surfaces with water after use.

To Disinfect Toys: Use only on hard non-porous surfaces. (Spray) (Apply to) surface until thoroughly wet. Leave for (10) minutes before wiping. Rinse thoroughly with potable water after use.

<< Advisory Statements – must be included were appropriate >>

Do not use on (eating / cooking utensils, glasses / dishes or cookware) (unfinished, oiled or waxed wood floors) (outdoor patio furniture cushions and pillows).

Does not harm most (kitchen) (bathroom) surfaces.

On painted surfaces test a small inconspicuous area first.

Rinse all food contact surfaces with potable water.

Rinse bathtub / shower surfaces with water after using product.

This product is not ~~recommended~~ for use on marble, brass, copper, unwaxed vinyl or unfinished wood surfaces.

NOTE: Bracketed information is denoted as: << directive >>, { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
