EPA Registration No 777 114
Amendment Date October 28 2011
EPA Receipt Date November 1 2011

Dear Ms Hayes

The following amendment submitted in connection with registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) section 3(C)(7)(A) is acceptable subject to the conditions listed below

Proposed Amendment

- Addition of microorganisms use directions and marketing claims

Conditions

On behalf of Reckitt Benckiser Inc you have submitted 2 efficacy studies for *Klebsiella pneumoniae* NDM 1 positive MRID 486471 02 is a confirmatory study which showed that the product failed against this organism and MRID 486471 03 a 60 carrier study in which data showed the product is effective against the organism The Agency does not currently have a retest policy nor is the Agency developing one at this time that would address this situation At this time the Agency will accept the addition of *Klebsiella pneumoniae* NDM 1 positive for this product

This acceptance should not be taken that the Agency will accept additional claims with both passing and failing data The Agency is accepting the additional organism in this case due to the more rigorous study In the future it is strongly recommended that you meet with the Agency prior to making this type of submission You should be prepared to discuss why the e

efficacy failure occurred. Otherwise the Agency may determine such a submission is incomplete when submitted and reject the application. Issues like this need to be determined on a case by case basis prior to submission of the data.

Revise the label as follows

1) Your label includes directions for use of this product to mop floors as a cleaner. You have indicated that it is not your intention to include directions for the use of the mop on floors as a disinfectant or sanitizer.

As such the use of the term mopping must be deleted from the following statements in association with disinfection and/or sanitizing claims

- a) Page 3 second to last statement beginning (Clean) (Cleaner) (Cleaning)
- b) Page 6 16th statement beginning Extra (X tra) (X Large)
- c) Page 6 31st statement beginning Large (Size) Disinfecting
- d) Page 14 10th statement beginning Each pre moistened disposable (wet)
- e) Page 17 the section beginning To Sanitize/Disinfect
- f) Page 17 revise the heading Use Directions For All Packaging Types to include (except convenience mop) since the specific directions for the mop are not included in this section

For the same reason noted above delete the term floor or associated statement

- g) Page 11 delete the entire 4th statement beginning Try on (convenience) (sweeper)
- h) Page 11 delete the word floor from the 9th statement beginning Use (this product) as a(n) (easy)

2) As per the attached efficacy review of 2/8/12 delete the 6th statement on page 14 beginning Disinfects (deep) (scrub) as the Agency does not have a standard for deep disinfection

3) There are several instances on your label with references to quickly in association with sanitization and disinfection. As per the attached review the Agency has determined that quick is associated with contact times of ≤ 10 seconds. Contact times on your label extend beyond 10 seconds. Thus delete the word quickly from the 5th and 6th statements on page 15 which begin as follows (Quickly) (Removes) (bacteria*) and (Quickly) wipe down commonly. Both of these statements include pesticidal claims for bacteria, viruses, and germs.

4) As per the last stamped label revise the final statement on page 17 to state Rinse (child/baby) plastic toys child/baby hard non porous surfaces and all food contact surfaces with potable water or a damp cloth after use.

Efficacy Data

The following studies may be used to support this product The reviews of this data are attached

Data Requirement	Means of Support	Status
<i>Klebsiella pneumoniae</i> NDM 1 positive	Submitted study MRID 486471 03	Acceptable 5% soil contact time of 10 minutes
<i>Escherichia coli</i> with extended beta lactamase resistance	Submitted study MRID 486471 04	Acceptable 5 % soil contact time of 10 minutes

General Comments

A stamped copy of the accepted labeling with conditions is enclosed Submit 1 copy of your final printed label before distributing or selling the product bearing the revised labeling

Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3 (c) (5) and section 4 (a) when the Agency requires all registrants of similar products to submit such data

If the above conditions are not complied with the registration will be subject to cancellation in accordance with FIFRA section 6 (e) Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions Should you have any questions concerning this letter please contact Tracy Lantz at (703) 308 6415 or Velma Noble at (703) 308 6233
