Bansect Flea Tag For Cats

Bansect Flea Tag For Cats

DIRECTIONS: Fasten tag to cat's collar with unique snap-on clasp. Flea kill begins at once and will continue for 3 months while the tag is worn. Ticks are harder to kill, but those in the neck area only will be killed for a short period after the tag is attached. For continuous protection, replace tag every 3 months.

ACTIVE INGREDIENTS:

2,2-dichlorovinyl dimethyl phosphate	18.6%
Related compounds	1.4%
INERT INGREDIENTS	80.0%
TOTAL	100.0%

CAUTION: Do not open this pouch until ready to use. Do not allow children to play with tag. Tag is intended for use only as an insecticide generator. (Shell's U.S. Patents 2,956,073—3,116,201 and 3,318,769) and is not to be taken internally by man or animals. Do not use on sick or convalescing cats. Do not use other pesticides on cats while tag is worn. Remove the tag if any adverse reactions are observed. Some animals may be sensitive to this product.
