

Sergeant's SENTRY IV DOG COLLAR \$1.98

Sergeant's SENTRY IV DOG COLLAR

WITH THE UNIQUE BRONZE COLOR OF SENGARD™

DIRECTIONS: Buckle collar securely but not tightly around dog's neck. COLLAR SHOULD BE WORN LOOSELY. Cut off and dispose of any excess length. Collar will start killing fleas on dog immediately. New fleas temporarily appearing will be killed during two months collar is worn. When bathing dog remove collar until dog is dry. Excessive exposure to water reduces effectiveness. Use the Sentry IV Dog Collar in addition to regular collar. Replace when effectiveness diminishes.

ACTIVE INGREDIENT
Naled (1,2-dibromo-2,2-dichloroethyl dimethyl phosphate) 15.0%
INERT INGREDIENTS 85.0%

This collar contains Sengard™, the A. H. Robins Company's brand of 1,2-dibromo-2,2-dichloroethyl dimethyl phosphate.

Sengard™ has a low volatility and slow release of pesticide.

Extensive scientific tests prove that Sengard™ kills the four most common species of fleas, even hard-to-kill sticktight fleas and should be worn continuously to help reduce ecological hazards due to heavy flea populations.

CAUTION: Do not open this envelope until ready to use. Collar is intended for use only as an insecticide generator and is not to be taken internally by man or animals. Even with the Sentry IV Collar, some dogs may be sensitive and may develop neck irritation and loss of hair under the collar if it is worn too tightly. When collar is first worn, observe neck area for irritation every few days. Remove collar if there is evidence of irritation and permit area to heal. Do not use on sick or convalescing dogs. Do not use on cats.*

EPA Reg. No. 778-34

*For Fleas on Cats Use Sergeant's® Sentry® Cat Collar
