- Can Be Used In Every Room In The House
- Kitchen • Garage • Bedroom
- Living Room • Family Room • Basement

NET WT 3.5 OZ

CAUTION:

Sergeant's Long-Lasting Household Insecticide

Sergeant's long-lasting insecticide kills house flies, fruit flies (gnats) and mosquitoes up to 4 months in enclosed areas. Because of its special ingredient, it can be used in every room in the house: Kitchen, Family Room, Bedroom, Living Room, Garage, Basement, and Attic. Also useful in Campers and enclosed Kennels and Horse Barns where an insect problem exists.

This long-lasting household insecticide contains Sengard, the A.H. Robins Company's brand of 1,2-dibromo-2,2-dichloroethyl dimethyl phosphate. Practically odorless, Sengard has a low volatility and slow release of insecticide which makes it useful in every room of the house.

Directions for Use: It is a violation of Federal Law to use this product inconsistent with its labeling.

Do not open until ready for use.

Use one unit per one thousand cubic feet of enclosed area (10' x 12' x 8'). Hang or stand to allow air to circulate freely on all sides. If more than one strip is required, place at least 10 feet apart and space equally over the area to be treated. Weather and excessive ventilation may reduce effectiveness. Replace when effectiveness diminishes.

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if chewed or swallowed. Hang or place out of reach of children or animals. Do not open, tamper with or mutilate preassembled unit. After prolonged storage, a small amount of liquid may form on dispenser. Do not get in eyes. Wash hands thoroughly with soap and water after handling.

STORAGE AND DISPOSAL: Do not open package until ready for use. Wrap outer package of expired unit and discard in trash.
