NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

2. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

3. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

4. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

5. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

6. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

7. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

8. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

9. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

10. The registrant shall submit to the Administrator, upon request, such data as may be necessary to determine the safety of the pesticide to man and the environment, and to determine the validity of the data submitted in support of the registration of the pesticide.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for sale of this product constitutes acceptance of these conditions.

A copy of each of the labels is enclosed for your records.

Condition Your Pet's Coat While Killing
Fleas & Ticks

Sergeant's®
Flea & Tick Killer and
Coat Conditioning Spray
for Dogs & Cats

Important Consumer Information

Purpose: Sergeant's Flea & Tick Killer and Coat Conditioning Spray kills fleas and ticks quickly and to condition your pet's coat. Many other flea and tick sprays and shampoos leave a greasy residue. This spray contains special agents that give your pet's coat a shiny, natural luster.

Directions: It is a violation of Federal Law to use this product in a manner not specified on its labeling.

Remove cap, thoroughly spray your pet against the lay of the coat. Spray reaches the pet's skin. For dogs, should provide 1-6 complete washings (size of your pet) per week and help protect against fleas and ticks (2 weeks for dogs). For cats, should not repeat more often than once per week. Bedding and immediate areas should be tick infestation.

Storage & Disposal: Store in cool, dry place. To dispose of empty container, place in newspaper and discard in trash.
