DIRECTIONS

Always Use Leather or Rubber
Gloves When Spraying

**DO NOT EXCEED ONE QUART OF
PRODUCT PER 600 SQUARE FEET.**

FOR WEEDS & GRASSES. Dilute one quart Weed
Killer to ten gallons of water, use in sprinkling
can. Wear leather or rubber gloves when diluting
and applying Weed Killer. Do not dilute except
as needed. If a sprayer is used, a stronger concentra-
tion is necessary. (One quart to two gallon: water).

For weeds which have attained two to three months
growth best results are obtained by cutting and
then saturating so that the roots are reached.

 **DANGER: POISON** 

Poisonous to the lower forms of animal life as well
as human beings and care must be exercised in
spraying it only where it is desired to kill all traces
of vegetation. Do not spray grass that is within
reach of poultry, cattle or horses. Do not apply
within the dripline of desirable vegetation.

Do not use or store in or around the home. Keep
children and animals off treated areas until washed
into soil.

Cut and dispose of vegetation before applying.
Do not treat areas frequented by birds and other
wild life. **AVOID SPRAY DRIFT
TO DESIRABLE VEGETATION.**

RID-WEED

WEED KILLER

**FOR THE CONTROL OF WEEDS AND OTHER
VEGETATION. FOR INDUSTRIAL AND COM-
MERCIAL USE ONLY. DO NOT STORE OR
