

USE DIRECTIONS:

Use 5 ounces SANI-SOFT per 100 pounds of laundry in RINSE CYCLE.

Fabric treated as directed will develop residual bacteriostatic activity and residual self-sanitizing activity against Gram positive (S. aureus) and Gram negative (E. coli) organisms under conditions of high relative humidity or wet contamination.

SANI-SOFT prevents the growth of ammonia producing organisms (B. ammoniagenes) which act on urine in the diapers to produce ammonia.

SANI-SOFT softens clothes, thus eliminating chafing. "Static Clings" out of nylons and other synthetics. Improves ironing time.

Sani-Soft Concentrate

Fabric Softener - Deodorizer - Sanitizer

Makes clothing and linens softer and more comfortable. Acts as a positive deodorizer on fabrics. Makes handling easier, drying quicker and ironing easier. Simply add SANI-SOFT to the final rinse cycle. (See directions.)

WARNING

KEEP OUT OF REACH OF CHILDREN

Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 Minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

Rinse empty container thoroughly with water and discard it.
