WEEVIL GO

THE FOOD

For Granary Weevil, Cadelle Beetle, Rice Weevil, Confused Flour Beetle, Saw Toothed Grain Beetle, Angoumois Grain Moth, Mediterranean Flour Moth, Indian Meal Moth.

LEAVES NO STAIN - LEAVES NO PERMANENT ODORS.

A CONTACT SPRAY

Weevil Go is a product resulting from years of research by our chemists. Weevil Go is a crystal clear liquid and when used in sprayers produces a mist which kills insects by contact.

Cereal Manufacturers, Wholesale Grocers, Retailers, Bakers, Flour Millers, Rice Millers, and all others whose industry demands the storage of flour, cereals and other foodstuffs in warehouses and stores will find Weevil Go the product for their special needs. Infested stored food products should be fumigated or treated by other effective methods.

DIRECTIONS

Spraying should supplement cleaning. After sweeping up accumulations under machinery, in corners, etc, where infestations start, use WEEVIL GO liberally.

Use a power sprayer that assures good coverage, as a driving mist gives best results.

Spray under and around all machinery into all crevices, cracks and corners, walls, ceilings and floors; directly on stacks of bagged grain covering entire sack surface.

Do not spray directly on flour or other strongly absorbent products.

STORED PRODUCTS

For Reducing Infestations of the Above Insects by Killing the Accessible Stages

In placing merchandise in warehouse, pile or stack cartons or bags off the floor by using cheap lumber strips. Keep it far enough from the wall for a man with a sprayer to pass behind. Leave a space between the ceiling and the top of the merchandise. Stack goods with as much space between packages as possible in the space allowed. Regularly twice a week in the hot or warm season and twice monthly during the cool season, close all doors, windows or openings, then spray Weevil Go under, over, between packages and all around the goods and leave the warehouse closed over night. Pay special attention to dark corners, cracks, crevices in floor, walls and ceilings. Not recommended for use on malting barley. Do not remain in treated areas and ventilate the area after treatment is completed.

ANTS AND ROACHES

Spray dark corners, treat doors, around window frames, ant trails, cracks and crevices in walls, paying special attention to damp places. Repeat spraying frequently.

IMPORTANT

Before loading a car for shipment clean out the car. Close the doors and spray interior with Weevil Go thoroughly before loading and leave doors closed at least 30 minutes.

Spray Weevil Go every week to ten days, or as needed, particularly immediately after hot periods when migrations are starting.

ACTIVE INGREDIENTS	100%
Pyrethrins	0.085%
*Technical Piperonyl Butoxide	0.519%
Petroleum Distillate	99.396%

*Equivalent to 0.415% (butylcarbityl) (6 propylpiperonyl) Ether 0.104% related compounds.

CAUTION! KEEP OUT OF REACH OF CHILDREN

HARMFUL IF SWALLOWED.

Do not spray near or towards open flame. Use Weevil-Go in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.

Remove pets, birds and cover fish aquariums before spraying.

ENVIRONMENTAL CAUTIONS: This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste.

Apply Weevil Go only as specified on this label.

Do not re-use container. Destroy by perforating or crushing. Discard in safe place.
