ACCEPTED

AUG 29 1975

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. **787-26**

**CONCENTRATED
SURFACE**

MILL SPRAY

A CONTACT SPRAY

FOR FOOD PROCESSING PLANTS, FLOUR MILLS, GRAIN ELEVATORS, WAREHOUSES, BAKERIES, HOTELS, HOMES.

As An Aid In Control Of

**GRANARY WEEVIL, CADELLE BEETLE, RICE WEEVIL, CONFUSED FLOUR BEETLE, ANGOUMOIS GRAIN MOTH,
MEDITERANEAN FLOUR MOTH, INDIAN MEAL MOTH, ROACHES, FLEAS.**

A CONCENTRATED INSECTICIDE FOR STEAM AND ELECTRIC SPRAYERS

Adco Jet Concentrated Surface Mill Spray is highly toxic to above insects, and will kill insects when applied as directed.

DIRECTIONS

USE OF THIS PRODUCT SHOULD BE LIMITED TO PROPERLY TRAINED PERSONNEL.

FOR EFFECTIVE SURFACE SPRAYING

When used as a surface spray the protection of Adco Jet Concentrated Surface Mill Spray will depend upon the amount of insecticide applied to the surface treated. It is necessary in spraying the insecticide that one (1) gallon be used to cover one thousand (1,000) square feet of surface. Surface should be well wetted (and therefore too fine a mist should not be used). Do not saturate to a point where spray runs off. Follow by somewhat less frequent treatments as these become necessary.

MILLS, PROCESSING PLANTS

Spraying should supplement cleaning. After sweeping up accumulations under machinery, in corners, etc., where infestations start, apply Adco Jet Concentrated Surface Mill Spray liberally. Use a power spray that assures good coverage. A driving

are cracks for the bugs to hide and breed. Spray bed frames, springs and mattresses thoroughly. Repeat as often as necessary.

FLEAS INFESTING PREMISES

These can be controlled quickly and effectively by spraying floors and cracks of infested areas. Fleas lurk in carpets and upholstered furniture. Spray liberally in these areas, as well as in baseboards, wall cracks, and sleeping quarters of animal pets for direct contact with these pets. **DO NOT SPRAY ANIMAL PETS.**

FOR CONTROL OF FLYING INSECTS

Flies, including fruit flies, hornets, mosquitoes, small flying moths, wasps, direct spray upwards in the room and saturate the atmosphere. Use 1 to 2 ounces of Jet Mill Spray per 1000 cubic feet of space.

Follow by somewhat less frequent treatments as these become necessary.

MILLS, PROCESSING PLANTS

Spraying should supplement cleaning. After sweeping up accumulations under machinery, in corners, etc., where infestations start, apply Adco Jet Concentrated Surface Mill Spray liberally. Use a power spray that assures good coverage. A driving mist gives best results. Spray under and around all machinery, conveying and processing equipment.

STORED PRODUCTS

To control granary weevil, cadelle beetle, rice weevil, confused flour beetle, Angoumois grain moth, mediterranean flour moth, Indian meal moth, roaches and fleas. Infested stored food products should be fumigated or treated by other effective methods, using an approved product intended for this purpose.

Floors, walls, partitions in flour mills, food processing plants, empty grain bins and boxcars should be thoroughly sprayed, sufficiently to wet surface, paying attention to cracks and crevices where insects may harbor. Spray old sacked grain heavily to reduce infestations. In addition, direct a light spray to hit all exposed ends, sides and tops of stored bags. Repeat above application as often as necessary.

COCKROACHES, WATERBUGS, SILVERFISH

Control of these insects may be obtained by spraying directly or by thoroughly wetting shelving, baseboard and hiding places.

ANTS

Paint or thoroughly spray surface until wetted wherever ants travel, paying particular attention to nests or runways. Repeat as often as necessary.

BEDBUGS

Spray baseboard, moulding, furniture, loose wallpaper and other points where there

are cracks for the bugs to hide and breed. Spray bed frames, springs, and mattresses thoroughly. Repeat as often as necessary.

FLEAS INFESTING PREMISES

These can be controlled quickly and effectively by spraying floors and cracks of infested areas. Fleas lurk in carpets and upholstered furniture. Spray liberally in these areas, as well as in baseboards, wall cracks, and sleeping quarters of animal pets for direct contact with these pets. **DO NOT SPRAY ANIMAL PETS.**

FOR CONTROL OF FLYING INSECTS

Flies, including fruit flies, hornets, mosquitoes, small flying moths, wasps, direct spray upwards in the room and saturate the atmosphere. Use 1 to 2 ounces of Jet Mill Spray per 1000 cubic feet of space.

ENVIRONMENTAL CAUTIONS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not re-use this container. Destroy by perforation or crushing and discard in a safe place.

Remove pets, birds, and cover fish aquariums before spraying. Do not remain in treated areas. Ventilate the area after treatment is completed.

Spray upwards in all directions, thoroughly misting room and hit insects where possible.

Cover or remove all foods during treatment.

All food processing surfaces should be covered before using Jet Mill Spray in these areas, apply only when facility is not in operation.

ACTIVE INGREDIENTS 100% BY WEIGHT

Petroleum Distillate.....	96.41%
Pyrethrins	0.29%
*Technical Piperonyl Butoxide	3.3%
*(Equivalent of 2.64% (butylcarbityl) (6 propylpiperonyl) ether and 0.66% related compounds.)	

CAUTION! Keep Out of Reach of Children.
