PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

WARNING: May be fatal if swallowed, inhaled or absorbed through the skin. May cause skin irritation. Do not get in eyes, on skin, or on clothing. Avoid breathing dust or spray mist. Applicators must wear the following protective clothing during the application process: a light-weight protective suit or coveralls; water-resistant hat; unlined, waterproof gloves; and unlined, lightweight boots. Mixers and loaders must also wear goggles or a face shield, waterproof gloves and a waterproof apron. Remove and wash contaminated clothing before re-use. Wash thoroughly after handling and before eating or smoking.

STATEMENT OF PRACTICAL TREATMENT

R

If swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat. Do not induce vomiting or give anything by mouth to an unconscious person.

In case of contact, wash skin with soap and water; for eyes, flush with water for 15 minutes and get medical attention.

ENVIRONMENTAL HAZARD

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from target areas.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

202-16

DIRECTIONS FOR USE – LIVESTOCK SPRAYS

BEEF CATTLE – to control lice or ticks.

1. Use at the rate of 1 lb. per 100 gal. of water.
2. Spray to assure thorough and complete coverage.

BEEF CATTLE – to control Mange Mites (Scab or Sarcoptic Mange)

1. Use at the rate of 1½ lbs. per 100 gal. water.
2. Complete, thorough coverage of entire animal is essential to obtain best results.
3. Make two application only, one or two weeks apart.

SHEEP AND GOATS – to control lice, ticks and scab mites (scabies)
AS A SPRAY

1. Use 1 lb. per 100 gal. of water.
2. Apply to thoroughly wet animals.
3. For scab control, make two application 10 days apart.

SWINE – to control lice and sarcoptic mange.

1. Use 1½ lbs. per 100 gal. of water.
2. Spray thoroughly but do not over wet.

USE PRECAUTIONS – LIVESTOCK

1. Use only specified amount of chemical when mixing spray.
2. Make sure there is thorough and complete mixing by proper agitation before using spray solution.
3. Do not spray within 30 days of slaughter.
4. Do not spray animals under 3 months of age.
5. When necessary to spray young animals (over 3 months of age), use no more than 1 lb. per 100 gallons of water.
6. Do not treat sows within 2 weeks of farrowing nor for at least 3 weeks thereafter.
7. Do not use in poultry houses. Do not use on dairy cattle or on dairy goats.
8. **CAUTION** – as a general precaution in spraying animals, avoid treating during cold stormy weather. Do not treat sick or emaciated animals.

FLY CONTROL (House and Stable Flies)

Applicators working in enclosed areas, such as crawl spaces, must wear a respirator approved by OSHA (29 CFR 1910.134).

1. **RESIDUAL SPRAY FOR BARN AND OUTBUILDINGS** – Use 1 lb. per 10 gal. of water. Apply as a coarse spray to thoroughly wet walls, windows, fences and other exterior surfaces to point of runoff.
2. **INTERIOR SPRAY FOR BARN, OUTBUILDINGS** – Use 1 lb. per 10 gal. of water. Apply as a coarse spray to thoroughly wet walls, ceilings, beams, screens, and floors, using approximately 1 gallon diluted spray per 1,000 sq. ft.
3. Do not use in dairy barns or milk rooms. Do not contaminate animals' feed or water.

802 16

ORNAMENTALS

SYMPHYLID CONTROL

1. Use at the rate of 4 oz. (of the dry powder) per 1000 sq. ft. and work thoroughly into the top 6 inches of soil. This will also aid in the control of root weevil larvae and white grubs.
2. Do not use on soil to be used for production of root or vegetable crops as lindane may cause an off-flavor.

NOTICE: Follow directions carefully. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

Attention: Claudia Groth

Gentlemen:

Subject: Amendment - Comply with Lindane Intent to Cancel
Miller's Lindane 25W
EPA Registration No. 802-76
Your Application Dated November 29, 1983

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. Revise the text of the restricted use statement to read as follows (the PD 4 document was incorrect in regard to this item): "For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's certification."
2. Revise the Statement of Practical Treatment to read as noted below. We suggest the following statement; however, if your toxicological data suggest otherwise, please submit a draft Statement of Practical Treatment for prior approval:

If swallowed - Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with a finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

If inhaled - Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin - Remove contaminated clothing and wash affected areas with soap and water.

-2-

If in eyes - Flush eyes with plenty of water. Call a physician immediately.

3. Revise the respirator recommendations appearing in the fly control directions to read "Applicators working in enclosed areas, such as crawl spaces, must wear a pesticide respirator jointly approved by the Mine Safety and Health Administration and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11."
4. Add the following so it appears in a prominent location in the ornamentals directions: "Do not apply by aircraft."

Submit five (5) copies of your revised final printed labeling before you release the product for shipment with the amended labeling.

A stamped copy of the label is enclosed for your records.

If you hold a Federal registration, a supplemental registration, or a Special Local Needs registration, you may continue to produce new stocks of such products, using current labeling, until May 17, 1984. After that date, all remaining inventories of affected products will fall under the Existing Stocks provisions stated in our letter of October 28, 1983.

Sincerely yours,

George T. LaRocca
Product Manager (15)
