

ACCEPTED
 No. 25,60
 U.S. DEPT. OF AGRICULTURE
 DIVISION OF ENTOMOLOGY
 WASHINGTON, D. C.

2560 2267

DIRECTIONS

DAIRY CATTLE

- 1. Use 1 to 2 ounces per animal.
- 2. Apply as a light mist spray, directed against grain of the hair. Hold sprayer 18 to 20 inches from animal and cover entire body from neck to tail, underbody and legs.
- 3. Do not wet animal's skin. Wash udder before milking.
- 4. Daily treatments build up repellency.

CALVES

- 1. Do not use more than 1 oz. per calf
- 2. Treat calves as outlined for Dairy Cattle.
- 3. Do not wet calves' skin.

BEEF CATTLE, HORSES, PIGS, SHEEP, GOATS

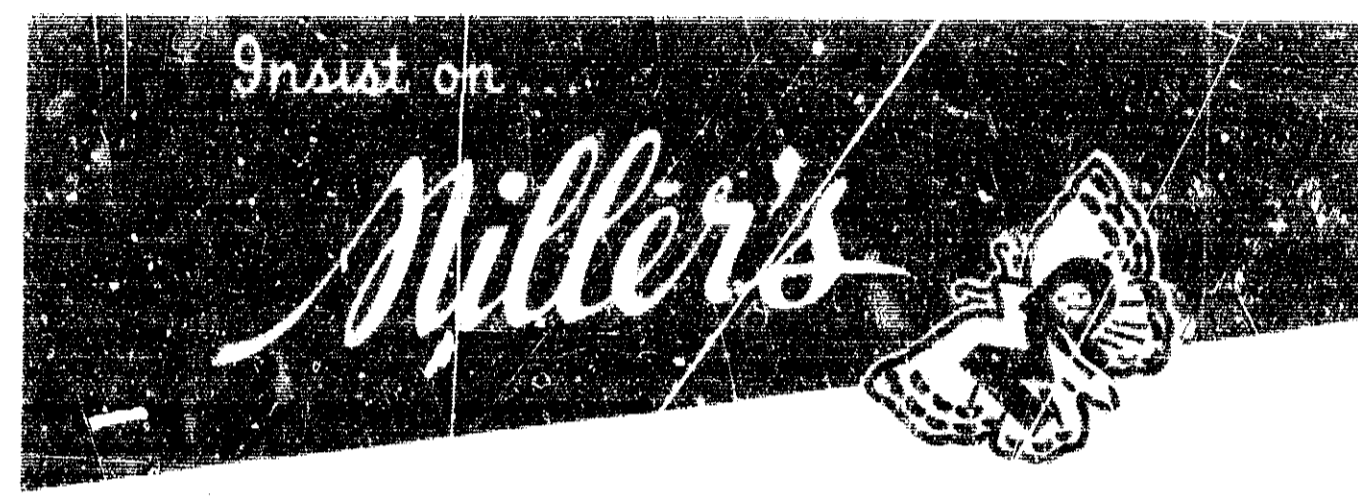

- 1. Use 1 oz. for each adult pig, sheep or goat; 1 to 2 oz. for each adult beef animal or horse.
- 2. Apply as a thin mist spray to the hair or wool of the animal.
- 3. Single treatments give temporary protection against biting flies.

DAIRY BARN, STABLES, MILK ROOMS

- 1. Remove animals before using as a space spray in barns and stables.
- 2. Direct a fine mist spray upward until a light fog is visible.
- 3. Close all windows and doors before spraying. Keep closed for 10 minutes after spraying.
- 4. Spray outside surfaces and screens to discourage flies from gathering.
- 5. In milk rooms, avoid contact and contamination of milk and milk vessels.

CAUTION

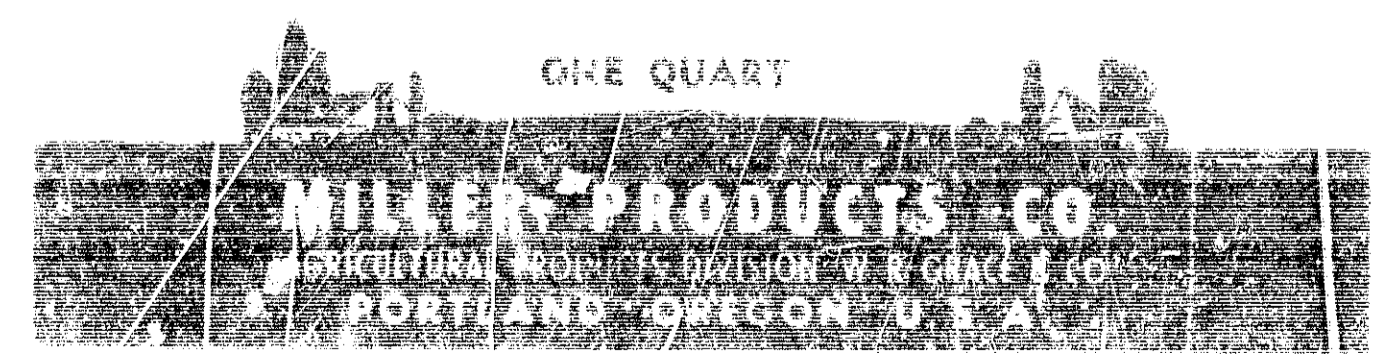

May be harmful if swallowed. Avoid inhalation of spray mist. Do not wet skin of animals.
 Remove animals from barns when fogging is desired.
 Avoid contamination of feed, bedding, milk and milk vessels.
 Do not spray near windows, flame.

MAY BE USED DIRECTLY ON DAIRY CATTLE

Miller's DAIRY CATTLE, LIVESTOCK and BARN SPRAY may be used directly on livestock including milk cows, horses and pigs.

Miller's DAIRY CATTLE, LIVESTOCK AND BARN SPRAY gives triple advantages:

- 1. Repellent to insects.
- 2. Quick knockdown.
- 3. High degree of kill.

Miller's DAIRY CATTLE, LIVESTOCK AND BARN SPRAY provides residual protection from biting flies to pasturing cows between milkings, allowing maximum milk and meat production.

(Equivalent to 0.00% (butyltinbutyl) (6-propylpiperonyl) ether and 0.05% related compound)

NOTICE: This is a general statement of the approximate range of weather and farm conditions under which the spray may be used. Specific results will vary.
