RESTRICTIONS

1. This product is toxic to juvenile shrimp and crabs. Do not apply where these are important resources.
2. Do not use inside homes, in dairy barns, poultry houses, or buildings where food is processed.
3. Do not use on crops used for food or forage.
4. Do not use treated manure on soil in which food crops are to be grown.

Miller's Mosquito is a powerful insecticide which kills mosquitoes in all stages of their life cycle. It is particularly effective against the larvae and pupae of mosquitoes. It is used to control mosquitoes in areas where they breed, such as swamps, marshes, and around the edges of large ponds. It is also used to control mosquitoes in areas where they breed, such as manure piles, catch basins and similar areas where mosquitoes breed.

RECOMMENDED APPLICATION

MOSQUITO LARVAE

1. Use 5 to 10 pounds per acre. Apply uniformly.
2. Repeat as necessary.
3. Use the higher rate where pools of water greater than one foot in depth.

NOTICE: This product is highly toxic to fish and other aquatic life. Do not use in areas where fish or other aquatic life are present.
