Ms. Mary Hewitt **Registration Specialist** The Chas H. Lilly Company 7737 NE. Killingsworth Portland, OR 97218

Dear Ms. Hewitt:

N

Subject: Amendment - Label Revisions/Updates - Proposed Reentry Text Lilly/Niller Mosquitocide B-2G EPA Registration No. 802-411 Your Letter Dated February 5, 1985

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, Rodenticide Act (FIFRA), is acceptable provided that you:

- 1. Subsit and/or cite all data required for registration/reregistration of your product under PIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
- 2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - Following the product name, the sentence should read, "A **a.** Residual Granular Mosquito Larvacide. . . " The word "Granular" has been added.
 - b. The Child Hazard Warning must precede the signal word.
 - c. We prefer that the Statement of Practical Treatment follow the signal word on the front panel (refer to sample label).

The Statement of Practical Treatment must also be revised. We suggest the following statements; however, if your toxicological

CONCURRENCES								
								MBOL 🗩
**********			*****			• • • • • • • • • • • • • • • • • • •		
					*********			ATR 🕨

E0489, Cha11, TP=2, VP1CO, 2/26/26, 2/2/266, M3D, M0

data suggest otherwise, please submit a draft Statement of Practical Treatment for prior approval:

If swallowed - Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with a finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

- If inhaled Remove victim to fresh air. Apply artificial respiration if indicated.
- If on skin Remove contaminated clothing and wash affected areas with soap and water.
- If in eyes Flush eyes with plenty of water. Call a physician immediately.
- Note to Physician If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.
- d. We prefer the Precautionary Statements heading at the top of the side or back panel preceding the Directions for Use.
- e. Following the Human Hazard statement add the word "CAUTION," immediately followed by the w rding:

Harmful if swallowed, inhaled, or absorbed through the skin. Wash thoroughly with soap and water after handling. Wash clothing with soap and water before reuse. Avoid contamination of feed and foodstuffs.

f. Revise your Environmental Hazards section to read:

ł

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Shrimp and crab may be killed at application rates stated on this label. Do not apply where these are important resources. Do not apply directly to water, use only in intermittently flooded areas, standing water, temporary rain

2

pools, and log ponds when used for mosquito control only. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

الإيرابية معترجين والإخسان

This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the crop, cover crop or weeds blooming in the area. Application should be timed to provide the maximum possible interval between treatment and the next period of activity.

- g. Following the "Environmental Hazards" section you should add a "Physical or Chemical Hazards" section. This section should include appropriate statements of physical or chemical hazards, i.e., flammability, reactivity, corrosivity.
- h. The second paragraph under Directions for Use uses the words, "long residual." You must stipulate the amount of time and you must submit data to support that length of time. If there are no supporting data then you must delete the words.
- i. The omission of a reentry statement for this product is acceptable.

1
