PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing.

STATEMENT OF PRACTICAL TREATMENT
If Swallowed: Do not induce vomiting. Call a physician or Poison Control Center immediately.
If In Eyes: Flush with plenty of water. If irritation persists, get medical attention.
If On Skin: Wash with plenty of soap and water.

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label.

NOTICE: Follow directions carefully. Timing and method of application, weather or crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

NOTE: This product may be combined with Lilly/Miller Polysul Summer & Dormant Spray for use as a dormant combination spray. Refer to the Lilly/Miller Polysul label for recommended rates.

USE PRECAUTIONS

For foliage application the spray tank must be free of any sulfur residue before using this material. Do not combine sulfur sprays with this material on foliage during spring and summer months and do not follow a previous application of sulfur or apply sulfur following an application of this material until sufficient time has elapsed for safety (at least 30 days). If in doubt, spray a portion of one tree previously treated with sulfur using 2 1/2 Tbsp. oil to 1 gallon of water (1 quart of oil to 25 gallons of water). If sufficient time has not elapsed, burn will show in several days.

Do not use oil spray when temperatures are above 90° F. When temperatures drop below 32° F during night, do not spray tree and vine crops until daytime temperatures have warmed to a point above 35° F and crops are free from moisture due to melting frost or heavy dews.

Do not use on foliage closer than 60 days after or 90 days before using CAPTAN or PHALTAN* products. Do not use in combination with SEVIN*. Application to trees weakened by disease, drought, drying winds, or high nitrogen applications may result in oil injury.

*PHALTAN is the registered trademark for pithalimide fungicide. *SEVIN* is the registered trademark of Rhône-Poulenc Ag Co. for carbaryl insecticide.

Minimum Unsulfonated Residue 92% Petroleum Oils Classification—unclassified
 A 70 second viscosity type oil
