| Birch Leaf Miner | White Flies | Pine Tip Moth |

DIRECTIONS FOR USE

Apply 2 pounds per 100 square feet of soil to established plants, shrubs, and flowers. For new plants, apply 2 pounds per 100 square feet of soil at the time of planting. Water thoroughly after application. Repeat applications as needed.

On Established Roses
Apply 2 rounded tablespoons of Miller's SYSTEMIC ROSE, SHRUB AND FLOWER CARE evenly around the base of each plant and work it into the top 2 inches of soil. Water thoroughly. Avoid contact with plants. For subsequent applications, use proportionately more as these plants increase in size.

When Planting New Shrubs
Place 2 rounded tablespoons of Miller's SYSTEMIC ROSE, SHRUB AND FLOWER CARE in the hole before filling, mix 2 rounded tablespoons of fertilizer into the top 2 inches of soil. Water thoroughly. Do not apply additional fertilizer for about six weeks.

On Flowers, Bulbs, Bedding Plants
Apply 2 pounds for each 100 square feet of soil. Water thoroughly. Do not apply additional fertilizer for about six weeks.

On Potted Plants
Place a number of tablets in the pot, with a soil depth of 2 inches. Treat at intervals of 2 weeks. Water thoroughly.

On Ornamental Shrubs
Apply 2 pounds per 100 square feet of soil. Water thoroughly. Do not apply additional fertilizer for about six weeks.
